

The Improved All-Steel Rapid Fire Hay Press

The Best Hay Press for the Farmer—Light Draft and Fast Baling.

It is the fastest baler because it had 28 inch feed opening with 33 inch stroke—two strokes to each round of the horse.

It has light draft because it is only 16 inches from center to extreme end of roller, and the sweep to which the horse is attached is 11 feet long.

REBOUND BRAKE—The Rapid Fire is equipped with our Special Rebound Brake, which takes every bit of the jar off the Press, thereby doubling the life of the machine and doing away with the expense of repair parts; and it makes the horse glad because the lever positively will not jump forward and skin the horse's heel when the Press is in operation.

YOU CAN PAY MORE BUT YOU CANNOT BUY A BETTER HAY PRESS THAN THE RAPID FIRE. It is simply the strongest and lightest hay press on the market.
