

# The Improved All-Steel Rapid Fire Hay Press

The Best Hay Press for the Farmer—Light Draft and Fast Baling.

It is the fastest baler because it had 28 inch feed opening with 33 inch stroke—two strokes to each round of the horse.

It has light draft because it is only 16 inches from center to extreme end of roller, and the sweep to which the horse is attached is 11 feet long.

REBOUND BRAKE—The Rapid Fire is equipped with our Special Rebound Brake, which takes every bit of the jar off the Press, thereby doubling the life of the machine and doing away with the expense of repair parts; and it makes the horse glad because the lever positively will not jump forward and skin the horse's heel when the Press is in operation.

YOU CAN PAY MORE BUT YOU CANNOT BUY A BETTER HAY PRESS THAN THE RAPID FIRE. It is simply the strongest and lightest hay press on the market.

### BOSTON WINS DOUBLE HEADER

### Braves Now Have Pennant Won in the National League Race

Boston, Sept. 25.—Cincinnati was defeated twice by Boston today, 2 to 3 in the first game and 4 to 3 in the second. The double victory increased Boston's lead over New York by half a game.

Rudolph pitching the opening contest held the visitors scoreless for the second time in two days. In the second game bunched hits and two Cincinnati errors enabled the home team to obtain a lead which the visitors could not overcome.

### WIRELESS HAS BEEN STOPPED

(Continued From First Page.)

The powers above outlined are not novel; they have been exercised in numerous emergencies by presidents of the United States, and when over their exercise has been attacked in legal proceedings, their validity has, with hardly an exception, been upheld by the courts.

The act of August 13, 1912, (37 Stat. 302) known as the "radio act" provides additional constitutional authority of the act of any radio station in time of war or public peril or disaster.

It is unnecessary to comment on the perils of the present international situation and it is easy to see that an agency such as the wireless station along our coast is capable of creating international complications of the gravest character.

The system of censorship heretofore adopted seems reasonable and it interferes but slightly with the operation of the plant, and the Marconi Company should cheerfully bear with this inconvenience in recognition of its own interest in the general welfare.

In case it becomes inadvisable, for any reason, to continue the censorship, I do not hesitate, in view of the extraordinary conditions existing to advise that the president, through the secretary of the navy or any other appropriate department, close down or take charge of and operate the plant in question, should he deem it necessary in securing obedience to the proclamation of neutrality.

Although the navy department has taken no cognizance of the Marconi Company's application for an injunction, the department of justice is expected to oppose it in court.

In the meantime the government may possess and operate the Marconi station and keep such funds as exceed the cost of operation in trust for the Marconi Company.
