For over 20 years Anderson people have been attending the Fairview Stock Show in Laurens county, the principal stock show held in this state each year and yesterday was no exception to the rule. A large number of people went from here, some going by rail and others in automobiles and they said last night that the day was very enjoyable. It is remarkable that the show has never been interfered with by rain for over 20 years. Yesterday was the first day since the association was organized that there had been any indication of rain at any time during the day and even yesterday the sun was shining by noon and continued throughout the remainder of the day.

Prayer For Peace To Be Offered

In almost every church in the country on Sunday, October 4, the pastor will offer up a prayer that the war in the foreign countries may soon be terminated and that peace may be restored to the nations now engaged in the conflict. This is in accordance with the proclamation issued by President Wilson and it is presumed that the Anderson churches will make preparations for fittingly observing the day. Although no arrangements have yet been announced it is comparatively certain that some services will be held in this city.

Anderson Saw The New Comet

Friday morning at 5:30 o'clock a number of Anderson people, rudely disturbed from sleep by neighbors anxious for them to see the sight, got a glimpse of the new comet discovered by the observatory of Cape Town, South Africa, on September 18. The comet was distinctly visible and was near the Great Dipper constellation. Its tail spread like a fan and it was indeed a rare sight and one worth getting out of bed to see. As yet no name has been chosen for the new comet.

"OLD RELIABLE" CAUSES COMMENT
Some Seen in Place of Old Relics Should Be Placed on the Place

There appears to be a difference of opinion as to the proper place for the "Old Reliable," the brass cannon that for a long time has been standing in the middle of North Main street in front of the Central Presbyterian church. In addition to the statement made yesterday by Dr. E. G. Bruce, "I, for some object to its being carried down on River street," said Dr. Bruce yesterday, "It happens to be one of the original Red Shirt men who were thrilled by the bombing of the 'Little Reformer' in 1776, and I think some consideration should be shown to the men to whom it belonged. The proper place for the gun is on the place on the public square, and it should be given a very conspicuous place at that."

"We don't want a relic like it hid away in a corner. It was one of our greatest helps in riding this county of negro rule, and we should pay it honor," said Dr. Bruce.

"I have been in the possession of the original Red Shirt men who were thrilled by the bombing of the 'Little Reformer' in 1776, and I think some consideration should be shown to the men to whom it belonged. The proper place for the gun is on the place on the public square, and it should be given a very conspicuous place at that."
