'Back to the Barn' Movement

Louis Richardson Says That Farmers Should Hold Their Cotton For 12 Cents—Or Better.

Editor The Intelligencer: While I was on leave several days ago several of my friends asked me what the farmers were to do in the present crisis.

I have thought over this matter seriously and stopped over in Washington to see what was being done. The sentiment prevailing for the extension of the emergency currency was read to me before it was presented to the house.

Every one should know that that bill was passed originally to assist the bankers and speculators and other big interests when the financial markets were threatened.

This condition of affairs cannot long endure; but in the meantime what is the farmer to do? I would suggest that each farmer should go back to the barn with the cotton.

The mills, as a rule, I believe, are working in but one shift and cannot get the necessary operators to run a day and night shift.

The solution lies in for every farmer that can hold over at any price and hold money on easy terms so far the money goes, cotton to be sold.

SOAPING A GEYSER.

Food That Roused the Fury of the Sleeping Waitea.

Some of the larger geysers in New Zealand will not play unless they are soaped—a process only occasionally allowed, as too much soaping weakens the geyser.

"Are you ready, Kathleen? he asked. "Yes," she promptly answered. "Taking out two or three handfuls of soap, the caretaker threw them into Waitea's deep throat and then handed the bag to Kathleen.

"Ten minutes passed, but there was only a slight increase in the volume of steam at Waitea's mouth, and there were no subterranean signs of an imminent eruption.

"While Waitea played it played magnificently. In its shaft it rumbled, it sang, its hot breath upon the vegetation, and for more than 100 feet around it shook the ground until the earth trembled.

"The solution lies in for every farmer that can hold over at any price and hold money on easy terms so far the money goes, cotton to be sold.

FOUR GREAT HEROES.

Their Fall From the Giddy Heights of Fame and Power.

History records that Alexander the Great, who was the ruler of the world, and who ruled over the world, was a man of great ambition.

Caesar, considered as a general, a statesman and a ruler, had few equals and probably no superiors.

Robert, the greatest general of modern times, after having filled the earth with the terror of his name, died with a sword in his hand and a bullet in his breast.

It was announced for ever one case of attack of acute indigestion, followed by constipation, writes Mrs. J. H. Colvin, who writes that she had been suffering from this trouble for several months ago.
