### BIG ADS. FOR BIG BUSINESS

If Your Business Is Small Try a Little Ad. and Watch Your BUSINESS GROW.

### Electric City Sparklets

#### Insurance Man In Spartanburg.

M. N. Jones, who has been connected with the Carolina Fire Insurance Company in Anderson for some time, has gone to Spartanburg and will work that territory. However, Mrs. Jones will remain in Anderson and it is probable that Mr. Jones will return at an early date to resume his business here.

#### Oil Business Is Still Good.

A representative of one of the well known oil firms doing business in Anderson, says that times may be hard here, but that he can see but little difference between what it is this season and what it has been during months gone by. The old man says that his business for the last month in Anderson shows a substantial increase over that of the month before and that a comparison of the September business for this year and that of last year shows that more business was done during the month of 1914 than in 1913. This does not seem to indicate that business in Anderson has been very badly hurt.

#### Grain Committee To Meet Monday.

According to notices which have been issued, the special grain elevator committee, appointed last Wednesday during the livestock show here, will meet tomorrow morning at 10 o'clock in the rooms of the Anderson Chamber of Commerce. This meeting is decidedly important in every respect, since it is highly probable that a movement will at once be

launched to build a first-class elevator in Anderson and to put same into operation as soon as may be practicable. Every farmer in the county is interested and will wait for details of this meeting with much eagerness.

#### Magistrate Had A Busy Month.

Magistrate Broadwell yesterday figured up the work done by his office for the month of September. During the 30 days Magistrate Broadwell tried 47 criminal cases, during which time he collected fines aggregating \$150 and sentenced defendants to work on the county roads for a total of 240 days. In all cases the defendants were bound over to await trial at the next term of the court of General Sessions for Anderson county. This was a rather busy month for Mr. Broadwell.

#### The Building Has Not Stopped Here.

Other towns may be crying "hard times" and talking of the effect that the foreign war is having on business in this country, but it has had no appreciable result in Anderson so far as building is concerned. A number of business buildings were in course of construction here when the war started and they are being rushed to completion just as rapidly as though there had never been a war and other new buildings are being prepared and planned. The fact that these buildings are still being erected also helps local conditions by reason of the fact that considerable money is being put into circulation in this manner.

#### Carnival Show to Go Out of Town.

C. B. Turner, advance man for the Blue Ribbon Shows, has been spending several days in Anderson making preparations for the coming of his carnival to Anderson. For a time Mr. Turner contemplated trying to get the city council to issue him a license, but it is understood that he has since changed his plans and that his exhibition will probably go outside the city. The Blue Ribbon carnival, if it comes to Anderson at all, will be here for the week beginning October 12 and ending October 17. If the carnival comes here it will probably attract a large patronage just as all carnivals do.

#### Crops Much Better In the Sister State.

Sam Moore returned yesterday from a short business trip to Atlanta and other Georgia points and says that he had a delightful stay in the sister state. He says that conditions in Georgia are "little better" than they are in Anderson, except for the fact that Georgia has better crops this year than South Carolina has. However, he does not see such a spirit of co-operation existing between the business men of Georgia and the farmers of that state, as is to be seen here.

#### Negro Is Caught After Long Chase.

Hosie Wakefield, a negro, was taken to Greenville yesterday afternoon by Deputy Huntsinger of that county, to answer to a charge of larceny. The negro was arrested Friday afternoon in this county by Deputy Sanders and Detective Drennan. Some eight months ago, while the negro was driving a wagon for a flour mill near Greenville, eight or ten sacks of flour disappeared and the negro went at the same time. The mill people believed that the negro was guilty and sent an alarm broadcast for him, at the same time arresting a cousin of the wanted man as an accomplice. When Wakefield was arrested Friday afternoon he claimed that his name was John Jenkins, but when the officers searched him they found a letter in his pocket from the cousin, now in jail in Greenville, which gave the entire affair away.

#### Pelzer Negro May Recover.

Coroner Hardin received information from Pelzer yesterday to the effect that the negro shot last Saturday night when the policemen raided a "crap" game, may recover. In the message to the coroner it was said that the negro has made a statement since he was shot in which he says that one of the negroes engaged in the game did the shooting and that the police had nothing to do with it. It will be remembered that a rumor was heard shortly after the shooting took place, which said that the negro had been shot by an officer. It is now believed that the negro has a good chance to recover, notwithstanding the fact that his wound is very serious indeed.

#### Bad Weather Did Not Ruin Business.

Anderson merchants said last night that they had not expected to do much business yesterday, owing to the depressed conditions just at this time and the inclement weather, but they were very agreeably surprised when they figured up the total for yesterday's business. Quite a number of people were in town during the day and they did more buying than was expected.

#### Chimney Sweeps Sought New Home.

The sky was filled yesterday with calmey sweeps when a number of people in Anderson built the first fires of the winter in their homes. The chimney sweeps have spent a very pleasant season in the warm around town and when people were yesterday morning, experienced the cold and built fires, there was a

### R. W. TRIBBLE THE UP-TO-DATE CLOTHIER

General exodus from the chimney of the little birds. After hovering over the sky for quite a little while, the birds picked out houses where no one has as yet been lighted, and made themselves at home.

#### Government Issue To Be Old Price.

H. Harkness, a traveling salesman for the well-known "Communi-Silver" concern, was in Anderson yesterday. When the war in the foreground was first declared, the price of silverware in the United States took a tremendous jump, but it is understood that the leading firms in the line are now offering the same quality of silverware at the old price.

#### Capital City News

Columbia, Oct. 3.—The governor to-day revoked the commission of James Peckham, of Pelzer, as a notary public.

The governor today appointed Ward B. Cantelero, of West Columbia, H. Peoples, of St. Charles, and J. F. Lyles, of Anderson, to the special faculty of the state university at Columbia.

### WAR IS COSTING FRANCE MILLIONS

Yet Government Officials Claim That the Treasury Is Far From Depleted.

Paris, Oct. 3.—The war is costing France \$7,000,000 a day. Minister of Finance, Alexandre Ribot, announced today that the treasury for the first three days of the conflict had seen \$120,000,000.

Mr. Ribot's interview at Ribot says the Bank of France in October had \$33,000,000 in cash, which was \$5,000,000 more than it had on the eve of the war.

Advances made to the government October 1, after two months of war had reached \$4,000,000,000, the minister of finance said. "The credit has been on the same level in the treasury as \$2,000,000, and therefore \$2,000,000,000, having been paid to the government in the meantime.

"France is far from having exhausted her resources, and when our country comes out will not be in need of a new loan which it would be embarrassed to issue."

the early response to give you great facilities to the negotiators of foreign securities in the fear of seeing money go abroad and if the course remains we would have to take precautions in this direction.
