ANDERSON CAN DO BETTER IN ANDERSON

The Weather.

General: Fair Tuesday and Wednesday. Local: Fair Tuesday and Wednesday. Gooch: Groves are in old Sta. Pankhurst? Hamm: Honors progress—motorcycles. Hopewell: Hunter to the bottle to keep Iva... a fire. Lebanon: Long B: Martin is the man who says the Melton does the most. Mt. Ch: Mr. Vison't say something good Mr. Elmsion, don't say anything. Mr. Law

And what has become of the Nobel peace prize? The same old Bill! Sulzer is scrapping with Col. T. Roosevelt. We hope he will win.

Some self-made men show either very little material or very bad workmanship. Wouldn't it be well for you to find out what kind of books constitute your son's library?

One thing we like about Colonel Henry Watterson is that when he finds out he is wrong he says so.

Don't talk war to us. You haven't time to talk it and we haven't the time to listen to it.

Now they will rub it in the Athol supporters. Look out for a Stalwartsburg and a Gowdyville.

Suppose Col. Elder Craine is showing these days since the South and North have returned home from the mountains.

When you reach a standard you must pull it down and set another higher. If you attempt to stand still, you will certainly come backward.

An automobile was running at top speed when the chauffeur, now dead, tried to turn the corner, occasioning a report of a fatal accident in York. A fact there was!

INTEREST IN SCHOOLS. The great interest being taken in the schools of the county is in the efforts to one who wishes to see a girl to begin the battle with an equal chance in so far as a trained mind is concerned.

Another evidence of the lively interest being manifested is the large number of the school building of the county, which are properly equipped and teaching. Dotted here and there the rural districts are school buildings which would do credit to any town. Not that this should be a surprise, but it is natural to see the sparsely settled communities.

This is one of the strongest evidences that Anderson county is second in the State in many ways, and that our educational system is ahead of any State. It also means that the future citizenship of the county will be able to meet and cope with the advanced minds of any section.

Teacher—Henry, can you define a hypocrite? Henry—Yessum. It's a boy

PLANT SMALL GRAIN

That a great number of acres of small grain is being planted is noticed on riding over the country, and it appears that the fields planted long enough for the seed to germinate have a splendid stand. This is good, and we trust the beginning has only been made. Let every acre possible have some kind of cover crop for the winter, and it should be planted as early as possible. It will pay in our opinion for a farmer who does not wish to sell his cotton, and whose purchase of seed to plant these lands, depends upon the sale of a bale of cotton, to sell at least one or two bales and purchase seed with the proceeds, even though he gets six cents a pound for it.

Uncle Dave's Letter.

True and ultimate success does not depend on a man's ability or opportunities, but upon the degree to which he makes his life of unselfishness. If there is any standard for marking off the true life from the one that is not, it is the measure in which unselfishness is practical in that life.

There is in every man the desire to realize something better, to make life richer and better. There is in each of us the desire to excel. This desire may be abused, and men rush about in the mad race for wealth, chase bubbles looking for gain. But those that do this are sure to fail and merely for wealth's sake tire of it. Where is the selfish man who knows the meaning of true happiness? He may have more time and money than some one else, but in his mad rush for it he has destroyed his strength and undermined his character. It is easy to find excuses for this selfishness. The duty is unpleasant. A man's friend may be in trouble or in trouble or in need, but he feels that it is not his business to help him, and he puts it off because of his selfishness. But he who gives his life up to selfishness is vain and foolish. Self-pleasing and self-seeking are natural and pleasant. The spirit of the work fosters and feeds the spirit of selfishness, and conscience make but a feeble resistance against it. It may seem fair outwardly and be esteemed by society. The selfish man may be intellectual and cultured, but his actions are wrong in the sight of God. God does not want us to neglect our own lives, but to develop ourselves to mankind. The true spirit of selfishness and a well balance love of self often keeps a young man in school that he can get an education and then use his advantage for the advantage for the benefit of others. Unselfishness is no foolish frenzy. It does not mean that a man must wreck his business in order to help others. But it means that instead of pursuing his business merely for the sake of gaining money, he should use his money to do good and help the uplift of humanity. A man does not need to wreck his life by working under unfavorable conditions to keep from appearing selfish. Nor does he need to remain in ignorance or without culture. More can be accomplished by the man who helps himself and is intelligent and cultured than by reckless aims giving. Napoleon had power and opportunity, and he used it for his own selfish ends. He did not do as much for his nation as others who may not have been so conspicuous, but who have lived unselfish lives. We should not look upon a life of unselfishness as enduring hardships in the hope of a future reward. It is good in itself.

Lead on, O God, lead on; I had rather walk in the dark with thee, Than to walk alone in the light."

One of the strangest things in this world is why a woman who can trim a pencil with a pair of scissors is not considered competent to vote alongside of a man who can't take a batter cake on a hot griddle.

The difference between cleverness and ignorance is that the clever ones get what they want and don't waste time wanting what they can't get; and the fools cry for the moon.

Teacher—Henry, can you define a hypocrite? Henry—Yessum. It's a boy

wot comes to school wid a smile on his face.

Lots of people believe there isn't any money on a farm. A farm is just the same as any other institution. Money isn't backing up to be milked—it has to be dug out!

Time doesn't travel any faster as we get along in years; but it tries our old legs a little harder to keep up with the procession.

Now here's a thing that puzzles me— A grave mistake it seems to be; Why do we say our years are spent, When part of every year is Lent?

What is the use of going around half dead all the time? Why not hurry up the funeral and be done with it?

Tal Phillips says that the cost of living seems to be a good deal higher than it used to be, but that he cannot see that it is worth any more.

From a once despised line, tolerated under protest, the poultry business is now recognized as one of the most valuable industries of our land, contributing hundreds of millions of dollars to the wealth of the country. Three quarters of a million of dollars is realized annually from the American hen, equaling the combined value of potatoes and oats, and equal to the wheat crop of the United States. Not only has the business increased in volume, it has increased educationally. More and more, the colleges of our country, one realizing that the study of poultry culture is just as essential as any other one thing.

General Sherman said, "War is hell." And no truer words were ever uttered. No diagrams are needed either. That's why his dictum will live.

Blease—is like the preacher whose congregation has walked out in the midst of the sermon.

A man may be successful as a loafer, and invest less capital and brains than are required to succeed in any other profession.

Some of the new stockings have slits in the side— Mary had a little calf, And 'tis white as snow— She slit her hose, and where she goes The calf is sure to show.

If man is a descendant from the monkey, some people have reflected very little credit on their ancestors.

My mother made me what I am, said a political speaker as he proudly threw out his chest.

"Well," said a small man at the rear of the hall. "She must have put in most of her time at other things."

Hettie Green says the secret of health is in eating onions. Bless if we see how it can be kept secret.

An old darkey had been in trouble for stealing chickens, and was convicted on circumstantial evidence. What's circumstantial evidence?" he was asked. Well, he said, as near as I kin spain it 'um de way it has been spained to me, circumstantial evidence is de feathers dat you leaves lyin' around after you has done with de chicken.

Who abuses his credit mistreats about the best friend he can have in this unfriendly world.

We cannot help growing old, but bless your heart, my dear, nobody is forced to grow sour.

The folks who do the least to build up the neighborhood can always tell the most about its faults. UNCLE DAVE.

For Cleaning Trowsers. First wash the tin in hot soap suds and wipe thoroughly dry. Then scour with dry flour, applied with an old newspaper.

"Store-News" In The Intelligencer Sells The Goods.

COUPLE MARRIED ON THE SPEEDING CARS

SAW NO USE IN POSTPONING AFFAIR

WEDDED SUNDAY ALMOST FINISHED

As Interurban Train Made 49 Miles Per Hour, Two of the Passengers Joined For Life.

Waiting on neither time nor tide, two young people living in Anderson decided Sunday afternoon that they should never put off for an hour what could then be done, and accordingly they seized on a minister who was a passenger on the train at the same time and were married as one of the Piedmont & Northern electric trains sped along between Anderson and Belton.

Last Saturday morning Marcell Shaw secured a license to marry Miss Fannie Pearson, and having also secured the young lady's consent, he decided that they would leave Anderson over the Interurban at 2:10 o'clock in the afternoon and go to Belton, where they would have the knot tied in the most appropriate manner. This scheme was carried out until the happy pair boarded the train Sunday afternoon and shortly after the car got under way they began to look around at their fellow passengers when who should they see but Rev. C. N. Sanders, pastor of the Second Baptist church of Anderson. The idea struck both the bride and groom at the same minute and no sooner said than done. They started on a search for Conductor C. P. Burris and having located that official they demanded the use of the rear platform. For a moment Mr. Burris feebly protested and then getting the lay of the land he gave a very ready consent and not only granted the desired permission but agreed to act as best man, dame of honor, bridesmaid and everything else. With Conductor Burris holding a considerable portion of the stage and dozens of interested passengers looking on, Rev. Sanders said the words which made Mr. Shaw and Miss Pearson man and wife.

Americans Given Protection.

SAN DIEGO, Calif., Oct. 19.—With orders to protect eight Americans supposed to be on board the Mexican steamer Mazatlan, the United States ship Raleigh today left here for Ensenada, Mexico. The Mazatlan was commandeered yesterday by Mexican military authorities to transport two Americans supposed to be on board are passengers. Others are members of the crew.

The authorities have no information that these Americans need aid but it was decided to send the Raleigh to investigate.

NAMING THEATRE IS PERPLEXING PROBLEM

WHAT WILL PLAY HOUSE BE CALLED?

WEDDED SUNDAY ALMOST FINISHED

As Interurban Train Made 49 Miles Per Hour, Two of the Passengers Joined For Life.

"By the way what is the name of the theatre?" That was the question C. H. Bleich, of Hopkinsville, Ky., the new lessee of the theatre under construction here, asked Judge Fowler, president of the Anderson Development Co. In a letter which was today received here, Judge Fowler had been so busy handling the various details connected with the building that he had entirely forgotten about a name. Discussing the matter with the building committee, when queried yesterday by a reporter for The Intelligencer, President Fowler stated he was really at a loss to suggest to the directors of the development company a name for the new theatre, whose imposing arches are now being reared on West Whitener street. Too busy. That explained it. "I presume we might call it the Anderson theatre, yet we might get a better name, and we ought to for such a magnificent building. I will take the matter up this week at a meeting of the board," said Judge Fowler. It was also stated that every effort was being made to complete the theatre portion of the building by December 20th, at which time it is proposed to turn the same over to Manager Bleich, who is expected in Anderson together with Mr. Odie Davis, also of Hopkinsville, Friday or Saturday. Mr. Rooney, of the J. W. Atkinson Co., contractors, stated today that he was making every effort to have the theatre part completed by that date. He said with good weather from now on he would do it. The building today is about 20 per cent completed. As soon as the roof over the entire structure has been finished then attention will be turned towards the theatre part entirely, and rushed to completion. Mr. Rooney stated also that a special artist would handle all of the intricate interior decorations, which would be of an expensive style and along strictly modern operative ideas.

HAS NOT RESIGNED.

Carranza Demands by What Authority Aguas Calientes Convention Assumes Command of Government.

MEXICO CITY, Oct. 19.—General Carranza has received no answer to his telegram demanding of the Aguas Calientes convention an explanation of by what authority that body had assumed supreme command of the government. The message informed delegates to the convention that sole power of government would rest in General Carranza's hands until the voice of the people decided otherwise. General Carranza has not resigned as head of the government nor will he do so, according to an official statement issued by his private secretary tonight.

HEAVY FIGHTING IN BOTH EAST AND WEST

(Continued From First Page.) possible the proximity of the Germans has created a panic at those ports.

Great battles continue in the eastern theatre between the Russian and Austrian-German forces. Reports from both sides are brief and contradictory. Petrograd claims the Russians have won partial success in severe fighting before Warsaw and Przemysl. Vienna declares the Austro-German armies have made advances in both regions and that the Russian casualties at Przemysl number 10,000.

Watterson in Washington. WASHINGTON, Oct. 19.—Henry Watterson was guest of honor at the capitol today. He had a long talk with Speaker Clark and Democratic Leader Underwood in the speaker's office, and spent some time on the floor of the House watching legislative proceedings. He held a levee in the lobby where he greeted many old friends among the Southern members.

For a Closed Shop. SCRANTON, Pa., Oct. 19.—Enlistment of all big labor organizations in a country-wide fight for a closed shop in the textile trades was the keynote of several addresses at the opening session of the fifteenth annual convention of the United Textile Workers of America here today.

Robert E. Lee Ill. RICHMOND, Va., Oct. 19.—Captain Robert E. Lee, son of General Robert E. Lee, the Confederate commander, is seriously ill at his home "Roanoke," King William County, according to word received here by relatives today. Captain Lee entered the Confederate army as a private in the artillery and fought in numerous battles.
