EXHIBITS

Ladies Department. Special mention should be made of the beautiful articles of fancy work entered by the ladies.

Schools and Colleges. The exhibits of the schools and colleges were exceptionally good.

A great deal of interest was shown in the splendid cattle exhibit.

Probably the largest hog even seen in Greenwood, is the Duroc Jersey, on exhibition at the fair.

No little interest was taken in the fine display of poultry.

Officers. The officers of the Piedmont Fair Association are as follows:

rebellion in South Africa, although Premier Botha, who withheld news of the rising led by General De Wet and Beyers until he himself got into action, seems to have inflicted a serious defeat on General Beyers, routing his command and taking a number of prisoners.

The invasion of Angola was not unexpected for Portugal had declared her intention of helping the Allies, and in view of the possibility of a German attack on her colonies, had sent reinforcements to her garrison.

Portugal, if the report of the German invasion is true, is the ninth nation drawn into the war. There is danger of still others following.

POULTRY GOSSIP.

Poultryers should realize that it is easier and wiser to watch for the first symptoms of disease than it is to check or cure it when it has come.

The foe of the fowl is the insect—lice and mites. A very minute drop of oil of any kind puts an everlasting stopper on these small but tormenting creatures.

At this time of year the chickens look ragged and dilapidated and are in full molt.

It is always in order to clean out the poultry house. It can never be done too often or too thoroughly.

Keep all the early hatched pullets and get them started to laying as early as possible.

POULTRY HOUSE FOR THE BACK YARD

The only house that is suited for poultry is one with a dry interior. No one can succeed in keeping hens that produce eggs if they are kept in houses that have damp floors and therefore damp interiors or in houses that are not clean and thus more or less infected with insect vermin.

Sunlight, fresh air and perfect dryness are essential for success in poultry keeping. They are the surest remedies against disease.

Children Have Right To Father's Property

(By Associated Press.) MACON, Ga., Oct. 28.—The United States court of appeals at New Orleans yesterday ruled that the children of W. A. Huff, formerly mayor here, have a right to set up claims to their father's property prior to the consideration of creditor's claims.

The decision reverses a decision by United States Judge Emory Speer here several years ago, which caused Huff to publicly criticize the judge and begin a campaign to have him impeached.

As a result of the attacks on Judge Speer, Huff was convicted of contempt but sentence never has been imposed.

War Likely to Last Longer Than Thought

(By Associated Press.) LONDON, Oct. 29. (1:42 a. m.)—"The German semi-official press has changed its mind and admits the war is likely to last longer than it originally thought," says Reuter's Amsterdam correspondent.

"The North German Gazette," the correspondent continues, "urges the necessity to husband the wheat resources. The newspaper estimates that Germany has sufficient corn for bread for the army and the population until the next harvest, but it adds that the war may last longer and the Germans must be able to hold out until a lasting peace is secured."

"The Crowning Act of Human Effort"

FARMINGTON, Mo., Oct. 28.—Ratification of new peace commission treaties between the United States and 26 other nations was held up as "the crowning act of this decade of human effort" by Joseph Daniels, secretary of the navy, in a campaign speech here tonight.

"I never knew of a fight between two men if they let a day or a week elapse before proceeding to get physical satisfaction after their quarrel," Mr. Daniels said.

"Now that we have these treaties with these nations, great and small, the possibility of war is reduced to a minimum; it is a safe prophecy that nobody living today will see the day when these countries engage in war with the United States."

Carranza Submits His Resignation

(By Associated Press.) WASHINGTON, Oct. 28.—The American government was officially informed today by the minister of foreign relations at Mexico City that General Carranza had submitted his resignation of the national convention at Aguas Calientes on the condition that Generals Villa and Zapata resign their posts in the constitutional army and retire to private life.

American Steamer Detained at Naples

(By Associated Press.) WASHINGTON, Oct. 28.—The American steamer Koonland, from New York for Naples and Greece, with a cargo of copper, has been detained at Gibraltar by the British authorities, according to a report to the state department today from American Consul Sprague.

Consul Sprague did not report the reason for the detention of the Koonland, but, as copper is listed by the British foreign office as conditional contraband, it is assumed the British government's attitude will be similar to that in the case of another American ship carrying copper to Holland.

The state department has asked Mr. Sprague for a fuller report on the matter.

Facing Starvation. NEW YORK, Oct. 28.—One thousand inhabitants of Jerusalem are facing starvation, according to Samuel Edelman, American vice consul in that city, who reached here today on the steamer Anconia.

SEVERAL WARRANTS YET TO BE SERVED

RUMORED THAT POLICE HAVE A NUMBER OF SURPRISES YET IN STORE

SEVEN YESTERDAY

B. T. Peale Pleaded Guilty in Five Cases and Compromised at \$100.

It is rumored that the police force has a number of surprises in store for the citizens of Anderson in the near future. It is stated that they have a number of warrants for offenders in the liquor agitation now attacking as much attention as the European war, and that when these are served there will be even greater surprises.

In order that interest should not lag, yesterday afternoon late seven additional warrants were served. Of these four were on J. E. Derrick, and one on L. H. Ewell, H. T. Ewell and Marion Eskew. The warrants charge that H. T. Ewell, L. H. Ewell and Marion Eskew were guilty of aiding and abetting in keeping and maintaining a place where alcoholic liquors were received and kept for sale.

Bond was given by these defendants as follows: J. E. Derrick, \$200; L. H. Ewell, \$200; H. T. Ewell, \$200; Eskew, not being able to furnish bond, is still in the jail.

Peale Pleads Guilty. One of the defendants in the raid made Sunday night, B. T. Peale, pleaded guilty through his attorney, Mr. Rogers of Bennettsville, and his brother, who came to the city upon hearing that the young man was in trouble. There were five cases against this defendant, but upon his pleading guilty, with the consent of the recorder and mayor, and with the promise that he would leave town and not return, it was agreed by the City Attorney to allow him to pay a fine of \$100, having the fines in the remaining cases suspended.

"Store-News" In The Intelligencer Sells The Goods.

The show trains of the 101 Ranch Wild West show were hauled over the Piedmont & Northern lines yesterday morning to Greenwood. Owing to the burning of one of the feed wires, the trains were considerably delayed and it was late in the day before they arrived in Greenwood.

"NOW More Than Any Other, Is the Time to Advertise"—Says George B. Cortelyou, Former Secretary of Commerce, and Postmaster General of the United States.

Advertising pays. It also pays consumers to read advertisements. Every shopper is annoyed at the sudden marking up of prices by retailers who do not advertise. Intelligent buyers must be struck by the way in which shops that advertise deliver the goods at published prices.

George B. Cortelyou, former Secretary of Commerce and Postmaster-General, now president of the Consolidated Gas Co., of New York, in discussing the changes caused by the European war, urged business men of all classes to put forth every effort to strengthen their position. Of the present he says:

"I do not think this is a time for despair but rather for fresh efforts to push ahead into new fields as well as for the development of old ones, that we may rise to our opportunities and lay the foundations of an enduring prosperity. Least of all do I think this is a time for the abatement of public efforts; indeed, these should be redoubled now, because, if advertising increases demand and stimulates production, this is the time to advertise; and the merchant or manufacturer who keeps his product prominently before the public now is not only proving his faith in the soundness and strength of American industry, and thus setting a good example to his more timid brother, but is certain to reap an ample reward in the material returns that will come to him."

Manufacturers and distributors of well advertised food products, shoes, etc., find that the public is responding to their efforts to push trade. Prices have not been raised by them without notice, for they realize that a good name is better than riches and that the public does not forget fair treatment, etc.—From the New York "Commercial."
