#### BUT ONE RIGHT COURSE

Anderson has declared war on the blind tigers, and is prosecuting ofbacked by the strongest of alliespublic opinion - seems to be to rid Anderson of these miserable sites, if such be possible. Anderson is to be congratulated upon activity for the blind tiger is one of the most dangerous of all criminals. Homicides and lesser infractions of the peace, often have their start the joint of the blind tiger.

Every one who is at all cognizant of facts and conditions, knows this to be true. So how can any city afford to pursue any course except one of prosecution for those who illegaldispense intoxicating drinks? Any course except one of law and order will inevitably mean the ruin of som young men, and the lowering of a community's morality, There is no reason for and every reason against. the blind tiger. Our laws are design d to crush him, and each citizen should demand that these laws be en forced so far as possible.

There was a time when so-called lubs flourished in Greenville when drinks could be bought with little trouble. But these places of resort were closed and for some time ha blind tiger has been on the jump n this city. He does not yet dare to show himself in the open. But he will return if ooccasion offers, for he is intrepid in his work. So this city should not relax in its efforts to exert every power to crush out this class of men who live by breaking the laws and by damaging society. We have been diligent in the past, and are diligent now. Let us continue to be.

The News is taking no part in the disagreements which have arisen beween certain departments of the city. It is standing now, as ever, for straight out law enforcement, and expresses now, as it has in the past, the wish that all reasonable steps will be taken to prevent the recurrence of flagrant violations of the law, and as far as possible, prevent the violation of the liquor laws which are not open, but on the sly. It is argued sometimes that the sale of liquor contrary to law cannot be stopped. But it can be reduced to a minimum, and this is our duty. What if all violators cannot be made to mend their ways, does that absolve us from our duty to do our best toward check ing the violations? Laws against murder do not entirely prevent it. There is no law which at some time is not violated, so the argument that the iilegal sale of liquor cannot be stopped, hence there is a little necessity to try, becomes extremely abourd if it

be taken to conclusion. The News is not aware of the plans of the executive ofncers with regard but in the sight of recent events this paper feels that the citizens should be urged against a division which might cause us to lose sight of an object which we all have in viewthe maintenance of the majesty of the law. There is no escape from the con-Nothing appears so much out of clusion that connivance at lawbreak-place as the woman who seems to ing means degredation. This paper does not believe that any official of ers, nor that any official would shield them. But there is a possibility that is once more caught sight of. The differences which exist now are differences as to means, rather than as inion cause a halt to be necessary .-Greenville News.

### GRAND STAND PLAY

The legislature will then have to pass the measure over the Governor's veto and this may not be done before Tuesday. so how in the name of common sense and reason can ballots be printed and day, to say nothing of the proper advertisments being given of the proposed bond issue. Of course this is all a grand stand play, and wi! not fool anyone, except those who wish to be fooled. ### "MOVIES" AND MORALS

There was a time when many people were ready to declare that the fenders with determination. The in- motion picture show was a menace to tention of the city officials, who are the morals of children, who constitute a large percentage of their patrons. Certain classes of pictures presented in some of these theatres, it must be admitted, are not particularly elevating, morally or otherwise. But it is not to be doubted that the "movies" have to a large extent outlived these early prejudices. Like the newspapers, they cater to the public taste, and if the wrong type of pictures are shown sometimes, it is largely because the public, by their patronage, have indiated their preference for that type f show. The motion picture people tudy closely the kind of pictures that ttact most patronage, and conduct heir business on that principle. If he public more freely patronizes unlesirable pictures, that is the kind of pictures that will predominate. But it is almost conclusively shown

hat certain other advantages must be set down to the credit of the motion picture show. It has been frequently aid that saloon keepers complain hat many of the nickels and dimes hat formerly went into their coffers have been diverted to the ticket winlows of the moving picture shows since their extensive operation has ecome established. Now comes The lew York World, and points out that ithin the past year in Brooklyn 53 aloons have gone out of business. thile for the past two years some wo hundred new motion picture plaes have been opened in that city. The World states that while this is not conclusive evidence that the pictures are operating to the detriment the saloon business, it is nevertheless quite convincing evidence

Of course the patronizing of a moion picture show is a very different form of entertainment from that indulged in when a saloon is patronized but the essential point is that each is merely entertainment. Seeing a picure does not satisfy the craving for drink, but many a drink is taken, ot because it is wanted, but because of the fellowship and social contact hat go with it. These are to be had n almost as satisfactory a degree by oing into a picture show, and hence he film is a foe of the glass.

In South Carolina we do not have he saloon, but it may cause some of us to have a kindlier feeling for the pictures, and to be more charitable o some of their faults and imperfections, when we realize that they are apparently a real force against the saloon.

### COMMITTEE OF FIFTY

The plan proposed by Dr. White in his closing service at the Baptist church Thursday evening, that a committee of fifty representative citizens should be organized to co-operate with the authorities in supressing the liquor evils to which the city is heir is a good suggestion, and The Intelligencer wishes it can be followed Certain it is that a sporadic effort at cleaning up the city, will result only in temporary relief. If it is not followed up by some such plan as this, and constant watch be set on the matter, there will be a second growth of the eviles now complained of, and condithis city is the friend of the blind tig- tions will be harder to handle at each recurrence.

In fact, the city is doubtless considerably poorer after each such effort, even after all fines are collected and turned into the city treasury. to ends. Let not this diversity of op- The idea that should govern, and we clieve does govern in this case, is that the evil conditions complained of should cease to exist, and that those who are guilty of the alleged violation should become reliable and industrious citizens of the city. The truth of the matter is, that every good citizen is an asset to the city, and every undesirable citizen is a liability. This is especially true when the city has to spend money to correct the vice

Yes, let us have the committee of fifty, or of one hundred, to add to the effectiveness of the good work being done by the city authorities. Will not someone take the initiative and call for a meeting to organize its committee and get down to business Anderson must be a clean city, and it can be. Every good citizen will aid in

### THE PIEDMONT FAIR

making it so.

The Intelligencer desires to compliment the spirit of the promoters of the Piedmont Fair for the splendid way in which they have made it possible for the resources of Greenwood and adjoining counties to be displayed attractively and made to advertise the great opportunities offered in the Piedmont section of South Carolina. It was great, and will do much good, not only to Greenwood but to all this section. It required work to do this, and enthusiasm, but those Greenwood folks have a great amount of the ability to perfor, and boosting comes as astural to them as for ducks to swim.

# Dr. White's Closing Appeal

The following is a more detailed "Let whiskey alone and it will let report of the plan proposed by Dr White in his closing service at the Baptist church Thursday night. This service was a most impressive one and will be long remembered by those

present; Dr. White on "Social Service and 'ivic Itightcousness."

At the close of the meeting Dr White expressed in words certain and positive, his hope that the citizen: would make Anderson the beautiful city. Beautiful because of righteous-ness. He said "Anderson should have a committee of 50 representative citi-zens whose duty it would be to work in conjunction with the chamber of commerce and the law enforcement powers as the strong arm of influ-The work of this committee would be to advance every interest that made for permanent growth, primarily, however, the advancement o morals. This is what Anderson needs and my interest in this city makes me hope you will organize and see to it that the town is kept clean and beautifu! Make it a safe place for your son and

### Peoples We Should Know.

When one enters the newspaper sublishing business, one must know the kind of people among whom the newspaper is expected to circulate. The clothing merchant, before he "lays in" a stock of goods, must have information about the climate in which his customers dwell. A clothing merchant does not bring heavy furined overcoats to South Carolina.

Buenos Aires has long had the most beautiful street in America, the finest theat, e and the best equipped newspaper plant. We have been reconciled to these things. But how does Philadelphia like the fact that the pride of Argentina now leads her in popula tion—, anking after New York and Chicago? Forty-five years ago, when the first census was taken, Buenos Aires had a population of 177,000. Today the population of 177,000. Today the population bers ten times that. We suspect it is the announcement that the Argentina capital is to have another subway that will surprise Philadelphia. delphia most of all. Somehow we North Americans have never thought of the countries south of us as requiring subways. It is worth the whole of our papers to print more South American news at this time, to familiarize their readers with South American aims and achievements. If we are to make the most of our chance in that direction, we must know more of and more highly respect

the countries we would serve as bankers and manufacturers. We suppose that there is even greater ignorance in the United States greater ignorance in the United States about scores of cities in Brazil and Chile—orderly and prosperous coun-tries. Because revolution has been common in some of the Spanish-Amecommon in some or the spanish American republics, the average citizen of the United States leaps to the absurd conclusion that revolution is the normal condition of the whole of the South American continent.

Dr White quoted the words of this mar of prominence as follows: "I was reared by a Godly mother and father and we tried to raise our boys right we never drank or brought whiskey into our home. We kept the home happy and did our best. Did these legalized sins let us alone? No, the hand of sin reached into our home and sent two of our boys to drunk-ard's graves." ### Conscientions.

Mrs. Trotten, being a conscientious woman, wanted a conscientious maid It took a long search through employment agencies to find one sufficiently well grounded in the rudiments of religion. The maid finally secured was a new a-rival and Irish. Among her first instructions was the art of saying her mistress was not at home when she was. One visitor who called under these conditions is responsible for this story:
"Is Mrs. Trotter in-" she said, when

the door was opened in respo her ring.
"No," replied Bridget, stoutly, "she's not at home and may God forgive me for the lie I'm tellin' ye.'" Whereupon she slammed the door in the visitor's face and that was the end of it.—New
