CRUISER EMDEN SUNK IN A RUNNING FIGHT

Undeterred by Losses, the Germans Again Return to the Charge.

(By Associated Press.) LONDON, Nov. 10.—(12:51 p. m.)—It was officially announced in London today that the German cruiser Emden has been driven ashore and burned. The losses among the officers and crew of the Emden are reported to have been very heavy. The Emden was destroyed by the Australian cruiser Sydney. She was driven ashore on an island of the Cocos, or Keeling group, southwest of Java, in the Indian ocean.

The Sydney sighted the Emden yesterday morning. With superior speed she at once closed in and gave battle. The German boat could not escape. There was a running fight, at the end of which the Emden, burning from the shells of the Australian boat, was beached. The casualties on the Sydney are said to have been slight.

TOKIO, Nov. 10.—The German cruiser Emden, pursued by the Australian cruiser Sydney, has been beached on one of the Cocos Islands. According to reports reaching Tokio, the captain and most of the crew of the Emden were saved.

Previous to the engagement with the Sydney the Emden cut the British cable connecting the Cocos Islands with the outside world.

WASHINGTON, Nov. 10.—Bids for new torpedo boat destroyers opened today at the navy department showed the Fore River Shipbuilding company, of Quincy, Mass., the lowest bidder for two of the craft at \$795,000 each.

William Cramp and Sons, of Philadelphia, bid for three boats at \$825,000 each, and the Bath Iron Works bid for three at \$850,500 each. Six vessels are to be built. These vessels will be the largest destroyers ever designed for the American navy, their tonnage running up to 1,110.

RENEW SEIGE ON CARRANZA GARRISON NAGO, Ariz., Nov. 10.—Governor Maytorena's Villa troops opened the renewed siege on the Carranza garrison in Nago, Sonora, early tonight. For thirty minutes the attackers shells into the town doing little damage.

General Hill, commanding the garrison, sent out a skirmishing party in the afternoon, which was sent scurrying back to cover by Maytorena's Yaqui Indians.

Five hundred fresh troops are reported to have arrived at Nogales on their way to reinforce Maytorena. Hill is credited with the intention of bringing up 800 men from Agua Prieta for a rear attack on Maytorena.

BATTLESHIPS PROGRAM WILL BE CONTINUED WASHINGTON, Nov. 10.—The two battleships program will be continued during the coming session of Congress, President Wilson said today. He told callers no change was contemplated in the plans outlined last year and added there would be no increase in the naval estimates.

DECLINES TO COMMENT ON MEXICAN SITUATION WASHINGTON, Nov. 10.—President Wilson today declined to comment on recent developments in the Mexican situation.

RECENT reports that American marines had been landed at Beirut, Syria, were declared by President Wilson to be untrue in his opinion. He added he had received no definite word on the question.

DRAMATIC AUTHOR DEAD LONDON, Nov. 10.—Cecil Raleigh, the dramatic author, died today.

CECIL Raleigh—a name assumed on joining the theatrical profession in 1880—was the son of the Dr. J. P. Rowlands and was born in 1856. He was a prolific playwright and collaborated with the late Sir A. Harris and Henry Hamilton in Drury Lane melodramas, beginning with "The Derby Winner." One of his best-known plays is "The Whip," written in 1905.

WILL TURN OVER GOVERNMENT EL PASO, Texas, Nov. 10.—A telegram from Agustin Calles today said the commission headed by General Obregon had informed the convention that Carranza was disposed to turn over the government as soon as Provisional President Gutierrez and his cabinet could assume control. Carranza previously had asserted he would not accept the convention's action in deposing him.

REMARKABLE CURE OF COUGHS Last winter when my little boy had cough I got him a bottle of Chamberlain's Cough Remedy. I haven't noticed it saved his life," writes Mrs. J. E. Cook, Indiana, Pa. "It not only relieved and relieved his coughing spells. I am most grateful for what this remedy has done for him. For sale by all druggists.

FARM ORGANIZATION.

A worker in the federal office of Farm Management has this to say upon organization in farming: "The greatest profit in farming requires the creation of the greatest value at the least expense. But the deliberate creation of values is the result of labor intelligently applied. Hence the objects to be attained in the organization of the farm business are: "First.—To provide the largest amount of work practicable under the conditions. "Second.—To apply this work at all times to such enterprises and in such manner as will result in the creation of the greatest values. "Third.—So to distribute this work throughout the season that (a) the farmer and the working members of his family may be continuously employed; (b) they may do a maximum proportion of the farm work themselves, thus saving the expense of hired labor, and (c) a minimum of work stock and implements may be required to farm a given area with a given type of farming."

COW TESTING ASSOCIATIONS.

These Organizations Have Proved of Great Benefit in Australia. The cow testing association has demonstrated beyond question of doubt its possibilities of usefulness to the dairy men. It is, in our opinion, one of the most promising means of increasing the profitability of the dairy business. The systematic use of the scales and the tester will pick out the most and the least profitable animals as no eye, however expert it may be, can. It has again and again been shown that even the best judgment and experience sometimes go wrong in attempting to select the best cow. But there is no disputing the scales and the tester records of facts. The mere finding out of the facts about one's cows, important though this is, is not the greatest benefit to be obtained from the cow testing association. The careful and accurate work necessary to obtain a correct statement of the debts and credits against a cow tend to develop in her owner habits of studying his whole business in the same careful and detailed manner. The importance of this phase of the work should not be overlooked. Most of us know altogether too little about our business. We are wont to resent any suggestion that we don't know our own business better than any one else. But suppose we stop and ask ourselves a few questions like these: "I wonder how it cost me to feed a cow a year? What is the value of the labor expended on her? What sum of money does she bring in during the year? How many of us could answer these questions even approximately? We venture to say that no man could join a cow testing association and carry on the work carefully and well without materially increasing his knowledge of his own business, particularly of his cows, and materially adding to his profits.—Sydney Farm Journal.

STAYS FOR WOVEN WIRE. There is usually some trouble in putting up woven wire, especially the light wire used for chicken fences, in such a way that it appears neat and substantial. This is sometimes avoided by use of more posts than are necessary for the support of the fence. To avoid this excessive number of posts and at the same time make the fence neat and effective the method shown

in the sketch is used with good effect. The eight stays are merely strips of one inch by one inch material of a length equal to the height of the fence. These strips are notched at the ends and are then placed along the fence at about four foot intervals, the top strand of the fence being put in one notch and the bottom strand into the other.

TIMELY GARDEN HINTS. Keep suckers off the young blackberry and raspberry bushes. Pinch off runners and blossoms from newly set strawberry plants and the tips of "cap" raspberry plants when two feet high. Watch the newly planted fruit trees and small fruits. Rub off all shoots at the bases and on the trunks of trees and surplus shoots on branches. Allow two shoots to grow on young grapevines. All shrubbery that has ceased to bloom should have the old blooms removed. Cut out any wood that has died since spring. Crimson rambling roses growing on pillars for masses of bloom should be cut back six inches to each stem, after blooming has ceased. Go over all the beds and borders frequently and remove all decayed flowers before they form seed. This will keep them in bloom and preserve the beauty of the garden.—Country Gentleman.

GEORGIA BANKERS PLEDGE SUPPORT

Executive Council of Bankers Association Pledge Georgia's Share to Loan Fund.

(By Associated Press.) ATLANTA, Ga., Nov. 10.—Support of the proposed \$135,000,000 cotton pool plan, under the direction of the federal reserve board, was pledged here today at a meeting of the executive council of the Georgia Bankers' association. Georgia's share of the fund is \$9,800,000. A resolution also was adopted favoring reduced cotton acreage in 1915 on account of the curtailment of the foreign cotton markets by the European war.

SENeca. Special to The Intelligencer.

SENeca, Nov. 10.—Mr. Mec. A. A. Davis died at the home of his brother, Mr. C. A. Davis, on Fairplay street, Monday afternoon at 12:40 o'clock. Mr. Davis had been in failing health for some time, but was thought to be improving. And the end came very sudden and unexpected. Mr. Davis was the youngest son of Mrs. L. O. Davis, who lives a few miles above town at what is known as James Crossing on the Blue Ridge railroad, and a brother of John W. Davis, sheriff of the county. Several years ago he entered business in Seneca, purchasing the Seneca Bottling works, which he conducted for some time, until compelled by ill health to dispose of it. He was a member of the Seneca Baptist church and the funeral was conducted by the pastor of this church. The interment took place in the cemetery here at 5 o'clock Tuesday afternoon.

He is survived by his wife, who was Miss Rutay Stone, and one child. Mr. and Mrs. J. B. Shanklin of Anderson are visiting the home of Miss Sallie Davis near here.

There was a surprise marriage in Seneca Sunday when Mr. Paul Ellis and Miss Jean Kennerly, both of Greenwood, were united in wedlock at the Baptist parsonage by Rev. S. M. Golphin. Miss Nell Kellett and Miss Fannie Broyles, Messrs. T. B. Jones and Frank and Albert Hawkins, of Townville, and Misses Carrie Hunter and Kittle Sleigh of Seneca were among the friends present.

Messrs B. O. Hopkins and Mr. Malen have returned from Abbeville, where they have been conducting a moving picture show.

Cadets Horace Wood and Ben Lee Hamilton of Clemson college spent Sunday with home folks here.

Miss Eloner Norman of Anderson spent Sunday with her parents, Mr. and Mrs. V. L. Norman of the Keowee Inn.

Rev. T. M. Stribling of Cedartown, Ga., is at the home of his brother, Mr. J. P. Stribling, near here, called there by the serious condition of his mother's health.

Willie Hight, a boy employed in the printing shop of the Farm and Factory, was caught in a belt and painfully injured Monday afternoon. Although he escaped without any broken bones or serious injury, it seems almost a miracle that he escaped being killed. He was caught by the belt and thrown several times against the ceiling with sufficient force to break the ceiling every time.

Mr. and Mrs. George Townsend of Anderson have returned from a visit to the family of Mr. W. S. Hunter.

HACK! HACK! HACK! With raw tickling throat, light chest, sore lungs, you need Foley's Honey and Tar Compound, and quickly. The first dose helps, it leaves a soothing, healing coating as it slides down your throat, you feel better at once. S. Martin, Bassett, Neb., writes: "I had a severe cough and cold and was almost past going. I got a bottle of Foley's Honey and Tar and am glad to say it cured my cough entirely and my cold soon disappeared." Every user is a friend. Evans Pharmacy.

"Man is not the creature of circumstances. Circumstances are the creatures of men." So are want ads. If you know how to use them right they accomplish wonders for you. It's the cheapest and best form of paid publicity if correctly applied. Perhaps we can give you a few pointers on how to use the classified columns to the best advantage.

ANDERSON YOU CAN DO BETTER IN ANDERSON. A transaction was completed yesterday in Anderson which began Monday, when two gentlemen (one a painter, the other one was the gentleman who was going to have the job of painting done) walked into the Guest Paint Store in search of some Graphite paint. The salesman quoted a price, stating that his Graphite was the BEST GRADE manufactured, and that he (Guest) would GUARANTEE SATISFACTION and agreed to TAKE BACK ANY UNBROKEN cans of the paint that the purchaser might not use. The painter stated that he could beat the price quoted by forty cents the gallon by patronizing a PAINT MANUFACTURER at Augusta, but after his attention was called to the fact that he would have to pay for the telegram ordering the paint, also the express charges to get the paint here, he and his companion left; but on yesterday they returned and bought the paint from the Anderson Paint Merchant. The Ad Man was present at the first conversation, and was curious to know if the man returned and bought the paint, so he phoned Guest yesterday and was indeed glad to know that the painter bought the paint in the town in which he is earning his living. Now this workman has a real good chance of again seeing that same money he paid Guest for the paint; but what chance would he have of ever seeing that money again if he had sent his order to Augusta? SASSEEN, The Ad Man.

Look Back To Your BOYHOOD'S DAYS

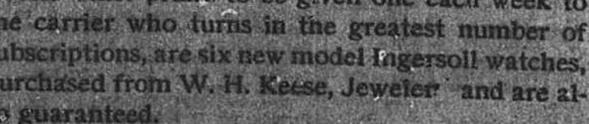

And recall the perfect delight which you experienced in the possession of your first watch—and if you earned the money with which the watch was bought, you prized it just that much more.

Here's your chance to help some deserving boy earn a watch; and if you remember the pleasure your first watch gave you, you certainly will take great pleasure in helping one of these Carrier boys.

Are you a subscriber to the Daily Intelligencer, if not, subscribe today and help the carrier win one of the valuable watches to be given in the Intelligencer Carrier Contest, which started Monday.

The first prize is a handsome 10-year, gold filled case Trenton watch, purchased from Marchbanks & Babb Jewelers, and guaranteed by them. This will be given as a grand prize at the close of the contest.

The other prizes to be given one each week to the carrier who turns in the greatest number of subscriptions, are six new model Ingersoll watches, purchased from W. H. Keese, Jeweler and are also guaranteed.

Japan Will Abide by Original Declaration

(By Associated Press.) WASHINGTON, Nov. 10.—At the Japanese embassy it was said today Japan would abide by her original declaration and restore China the territory of Kiao-Chow, the captured German possession in the Far East, although embassy officials declared such a restoration was not now obligatory. Technically and legally, it was said, as Japan had demanded that Germany surrender Kiao-Chow of its own accord, and as Germany did not do so, Japan was freed of her promise to turn the territory over to China. It was said, however, that no definite or positive announcement would be made at this time in regard to Japan's ultimate decision. It is known that strong influences in Japan are at work toward the maintenance of friendly relations with China, and it is believed here Kiao-Chow will be turned over at the end of the war.

Mail and Toys Arrive From Rotterdam

(By Associated Press.) NORFOLK, Va., Nov. 10.—With 864 sacks of mail weighing 40,000 pounds, and a large quantity of toys on board, the Dutch steamer Westerdijk arrived at Newport News today from Rotterdam. Captain Dejong, her commander, reported that the ship passed several mines in the North Sea and came so close to one that he thought his ship would be blown up. A number of boxes containing toys unloaded from the Westerdijk were marked "American Property." Captain Dejong said this precaution was taken to protect the goods from being confiscated if his vessel was boarded by officers from warships of countries now at war. The Westerdijk was stopped by British warships in the English Channel and was forced to proceed to Southampton where 800 pounds of copper was removed as contraband of war.

Arrested on Eve of Departure for Europe

(By Associated Press.) NEW YORK, Nov. 9.—Charged specifically with the larceny of \$128,655, Richard J. Hartman, former president of the Ticket Brokerage firm of Tyson and company, was arrested tonight on the eve of his departure for Europe. Three indictments against him were handed down today based on the complaint of Mrs. Charlotte R. Mackenzie widow of a former official of the Standard Oil Company. Mrs. Mackenzie, who was left \$640,000 in stock and bonds in 1907 by her husband, is said to be almost penniless. Her story is that she met Hartman in London and that he obtained her signature to papers she did not understand, but which gave him full power of attorney over her property. She alleges he sold her stocks and invested the proceeds in his own enterprises, which failed.

Chicago Yards Will Be Open Sunday

(By Associated Press.) CHICAGO, Nov. 10.—After a thorough disinfection, the Chicago stock yards will reopen next Sunday at midday. Shipments of live stock from non-infected districts there will be received, and slaughtering resumed.

In determining infected districts the county will be used as the unit. Every county where a case of foot and mouth disease has appeared will be prohibited from shipping in live stock.

TURKEY IS FINISHED

(By Associated Press.) ROME, Nov. 10.—Ibrahim Bey, head of the staff of Enver Pasha, the Albanian minister of war, here to negotiate for the lending of assistance by Italy to Albania, said today concerning the situation created by Turkey's entering into the war: "Turkey is finished. As a Musselman I am sorry, but I am convinced that Turkey cannot oppose serious resistance to the Russians."
