THE LESSER CO.

Board of Health Is After Filter Plant

WANTS COMPLETE INVESTIGATION MADE

OTHER MATTERS

Wants President of City in Certain Sections Forced to Install Sewerage.

The regular monthly meeting held by the board of health Wednesday was taken up mostly with discussion of the filter plant and with the covering up of the fruits and vegetables that are offered for sale by the local merchants and fruit vendors. A resolution was proposed by A. H. Dagnall and seconded by Dr. W. H. Nardin, Jr., which called for an inspection of the filter plant of the Southern Public Utilities company, which is located on Cox creek, about a mile north of the city, to see if the plant is large enough to supply the demand of the city. City Engineer Sanders was instructed to make investigation at the plant and to report on same at next meeting. Upon a resolution by Mr. Dagnall which called for the making of the property owners who live within 300 feet of sewer mains and within 300 feet of water mains to install sewerage

within 30 days, if not done it would be termed a misdemeanor and would be used in court to convict persons of not providing same, was seconded by Dr. Nardin and passed by the board. This also included a resolution to the fact that companies making contracts for plumbing and sewer connections would have to have the work completed within 30 days also or else answer a charge for the noncompletion and would be termed a misdemeanor by the board. The furnishing of a vehicle for the food inspector was taken up by the board and it was decided to try and secure the use of the great overhauler's team which is furnished by the city council for driving from section 7 section of the city, this was turned over to a committee composed of Dr. Nardin, and F. B. Crayton to see Mayor Godfrey about the using of the team jointly by Dr. Major and street overseer Gilmer and council granted the request. A committee consisting of Dr. Nardin and Mr. Dagnall was appointed by the board of health to look into the law as to whose orders the food inspector is subjected. A committee was also appointed to make an inspection of the abattoir plant.

As the U. S. N. A. is seeking new markets for her foreign trade, why doesn't somebody grind out some real lullabies—Pa (in Spain) and Ma (in Madrid) surely have sung their's to frizzle by now.

FIRE CHIEF TELLS OF DEPARTMENT'S WORK

REPORT ON FIRES DURING PAST MONTH

ONLY SIX ALARMS

Dr. J. P. Major, City Meat and Mill Inspector. Also Told of Activities During Month.

According to the report of Fire Chief Jackson, made public yesterday, there were six fire alarms during the past month, only two of which resulted in damage.

The report of the city meat and milk inspector, also furnished to Mayor Godfrey yesterday, is interesting. Both reports follow:

Report of Fire Chief. The fire department responded to six alarms during the month of October, and losses were sustained in only two instances, one when the Rev. G. M. Rogers lost a house on Ella street, and the other when the Savannah Valley railroad had a car of cotton to catch on fire and be damaged. Chief Jackson, in his report to the city council, records the following alarms:

J. J. Fretwell, burning trash, no loss. Townsend Lumber Co., explosion, no loss. C. & W. C., damage to cotton \$550. Insurance \$550. E. R. Horton, Gable house beyond city limits.

Rev. G. M. Rogers, Russell house, loss \$1,828. Insurance \$1,059. Anderson College, bon fire. Total loss, \$2,378. Insurance loss \$1,600.

Report of Food Inspector. Dr. J. P. Major, meat, milk and food inspector, has submitted to council a copy of his report for October made to the board of health. The following information is taken from the report:

Cattle inspected and passed, 128; calves inspected and passed, 28; sheep inspected and passed, 3; swine inspected and passed, 55.

Condemned 11 beef livers, 2 sheep livers, 55 swine livers, and one cow. Cow was condemned because of general tubercular condition. Cow weighed 800 pounds. Also condemned 10 pounds of bruised beef flesh and 132 pounds of beef flesh that was rat eaten. Have inspected shipments of meats, all markets and dairies.

Exhibit at Fairs. "Our agricultural department sent a special exhibit to the State fair at Columbia and Spartanburg. The exhibit was good. We have framed a picture which we have in the office of the same.

C. & W. C. Conference. "We held a conference with Messrs. Williams and Dorr of Augusta of the C. & W. C. Ry. with regard to change in freight and passenger schedule into Anderson. There are several conflicting interests in the matter, and it is still pending. Retail merchants generally prefer practically the same service as we now have.

LUMBER COMPANY IN HANDS OF RECEIVER

Assets Are Given as \$7,000,000 With Liabilities of \$1,950,000.

(By Associated Press.) ASHEVILLE, N. C., Nov. 12.—The Grandin Lumber company, owning timber areas in Watauga, Wilkes and Caldwell counties, North Carolina, and the Watauga and Yadkin River Railroad company, operating 26 miles of railroad in this State, were placed in the hands of a receiver today, W. J. Grandin, of Grandin, N. C., being named as the receiver. The suit in equity was started by stockholders of preferred stock in the lumber company and miscellaneous creditors who are not holders of secured paper. The receiver is the president of both companies. Assets are given as \$7,000,000 with liabilities of \$1,950,000. Inability to realize on the assets is given as the cause of the receivership.

CHARLESTON IS A RESERVE CITY

Announced by Federal Reserve Board—No More Cities Under 100,000 Will Be Named.

(By Associated Press.) WASHINGTON, Nov. 12.—The Federal Reserve Board tonight announced the designation of Charleston, S. C., and Birmingham, Ala., as reserve cities, and at the same time declared no more reserve cities under 100,000 population would be named.

Under the federal reserve act a specified portion of the reserves of member banks may be held in reserve and control reserve cities for a period of three years. A large number of applications were received. Those of Tulsa, Okla., and Joplin, Mo., were rejected.

About fifty reserve cities scattered all over the country already had been designated under the national bank act.

Songs Are Insults to Negro Race

(By Associated Press.) BOSTON, Nov. 12.—The old plantation songs, "My Old Kentucky Home," "Oh, Susannah," "Masses in de Cold, Cold Ground," are insults to the negro race, according to speakers who appeared today at a hearing before the Boston school committee. As a result of their protest, the committee voted immediately to withdraw from the schools a book of forty songs recently compiled by the musical director.

The objections to the songs were based partly on the use of the words "darkey," "nigger" and "coon."

Secretary Whaley's Report For Month

At the regular monthly meeting of the directors of the Anderson chamber of Commerce last night Secretary Whaley made complete reports of the activities of the body during the past month. The following is the secretary's report:

"I herewith beg to submit usual monthly report, in this case covering the period between October 7th, last meeting date until today, November 12th.

Finances. "At the last meeting the secretary was instructed to put out collectors on account of dues, we at that time being about \$400.00 overdrawn and several items of expense being unpaid; Beg to report that since that time Mr. Kay has put in about half of his time collecting and has collected a total of \$878.50, which has paid up all of our outstanding indebtedness except about \$125.00 and covered all of our previous overdraft of about \$400.00 except \$64.20, which is the present overdraft. We have still outstanding on dues, like \$2,000.00 dues, but collection on these are slow. If we cannot push these faster is because we have to use more tact than usual, if, however, we can collect 50 per cent of them, we will have sufficient funds to wind out the fiscal year, closing in Feb. 1st, 1915. We have a profit of about \$400.00 in next year's Chautauqua, based on present sale of tickets, which might be used as collateral for any deficit we may sustain because of poor collections this fiscal year. We call the attention of the Board to our Record book, containing all records of expenditures and receipts, open to all members at all times.

Special Paving Committee. "The Committee composed of Directors Watkins, Farmer and Evans, holding tickets to the Opera House, interest of mapping out plans to see that Constitutional Amendment permitting City of Anderson to, assess abutting property owners. A plan was agreed upon, which was carried out. Our understanding is that the measure carried in the General Election and that the city is now arranging for the special election which must be held in the city, and that the council proposes to push the same.

Exhibit at Fairs. "Our agricultural department sent a special exhibit to the State fair at Columbia and Spartanburg. The exhibit was good. We have framed a picture which we have in the office of the same.

C. & W. C. Conference. "We held a conference with Messrs. Williams and Dorr of Augusta of the C. & W. C. Ry. with regard to change in freight and passenger schedule into Anderson. There are several conflicting interests in the matter, and it is still pending. Retail merchants generally prefer practically the same service as we now have.

Mail Clerk on Morning C. & W. C. Train. "We have prepared petition for Morning Mail Clerk on C. & W. C. train and sent same to Congressman Aiken, asking that he endeavor to secure this service, which is badly needed, as it will give persons between Anderson and McCormick a vastly improved mail service. The present service seems to be entirely unsatisfactory. We also held conference with postoffice and mail clerk, Inspector Metz regarding the matter. He was sent here by the Government. He would not state what his recommendations would be, we have reason to believe that he will recommend same. There are several rural routes along this line, who are greatly inconvenienced by present mail service facilities. Anderson merchants are complaining.

Anderson Morning Mail. "There have been innumerable complaints made to us about the lateness of the morning mail to Anderson, and we are taking same up to see if it can be remedied.

The recently organized Anderson County Poultry Association, will hold in connection with our Agricultural Committee, our first organized Poultry Show on the 17th inst. This carries out our idea of organized associations among the farmers for these different things, such as the livestock and Poultry associations, the first being well on its feet. We propose next to organize a grain association.

Opera House. "We expect to open the new Opera House on February 1st. It has been leased for a good sum with responsible parties.

Industrial. "Before the European war broke out, Piedmont Mfg. Co. had decided to locate a waste mill here; it has been deferred; Southern Spices Co. who have a growing business are anxious to come here, but need some small help which we cannot give them now; we are still keeping in touch with them and hope to get them to come to Anderson sometime next year. We have worked hard to get the Littleton Hosiery Mills to move here and could probably have done so under ordinary conditions, they are still considering a new location; Mr. M. V. Richards, Industrial Commissioner of the Southern Ry., has worked with us in connection with locating several different plants here, and is having draws for us now in Chicago a set of plans for a small packing plant. This we will have shortly. Last year we were in touch with the Fox River Lumber Co. in an effort to get them to come to Anderson and put in a creamery and they stated that they would consider the matter seriously next year, or this coming spring. They will want us to get farmers to guarantee to furnish fat from 800 to 1,000 cows, etc. We hope to have an opportunity to do this. They are a very wealthy concern and handle business upon the best basis. Such a plant in Anderson would be of incalculable benefit. We have taken up several other industrial propositions. The secretary mentions these matters so that you will now see we are at work on them. We had good chances to secure several plants. Those chances

QUIT THE CROAKERS AND JOIN BOOSTERS

NORTHERN HOUSE TAKES OPTIMISTIC VIEW

CHEERING LETTER

Thinks the Clouds Are Clearing and Believes That the Business Outlook is Vastly Better.

Anderson business men say that it is genuinely refreshing to hear every now and then, during the present cry of "hard times" of some business man or concern with enough sand in the craw to look the whole world in the face with confidence that the world owes them a living and is going to give it to them.

One of the most cheering bits of literature read in Anderson in many a day was received yesterday by Walter H. Keese & Company from the N. H. White Company of New York and just the reading of this letter is enough to make a man radiate confidence.

The letter says: "The sudden breaking out of war in Europe was such a shock to the world that business halted; and money went into hiding. It took some time to regain our poise and to realize that we are living, that the sun still shines, that crops continue to grow, and have ripened into one of the most bountiful harvests this country ever gathered. We have had a bad scare, but we are getting over it. Conditions are working back to normal.

"The money situation has improved a lot, and will improve a lot more after the new banking law comes into full operation because that will relieve over \$400,000,000 that is now tied up in banking reserves, but will then be available as loanable funds to keep the wheels of business and factories turning.

"The balance of foreign trade commenced running in our favor in September, more strongly in October, and will continue to gain for months to come. When the railroads get the advance in freight rates they are justly entitled to, that will bring them back into the markets as buyers of all kinds of supplies, especially iron and steel products. They are by far the biggest buyers of factory-made articles, and the largest employers of labor of any single interest in this country. When the railroads prosper the steel mills are busy, and when the iron and steel business booms we all make money.

"The cotton planters are up against the hardest proposition to market this year's crop, but the outlook for getting at least a new dollar for an old one is a mighty sight brighter than it was a month ago. If they can get even 10c for cotton this year they can then pay what they owe to the bankers and merchants who have helped them make the crop, and that will make their credit good for 1915.

"We believe fundamental conditions in this country are sound, that the banks are able, and soon will be willing to take good care of every deserving customer; that the European demand for the products of our farms and factories will stimulate business in almost every line and that next year we shall enjoy a return of the prosperity of 1906. If we all quit the ranks of the croakers, and join the army of boosters, we shall be doing our part toward bringing back good times."

Remarkable Cure of Croup. "Last winter when my little boy had croup I got him a bottle of Chamberlain's Cough Remedy. I honestly believe it saved his life," writes Mrs. J. B. Cook, Indiana, Pa. "It cut the phlegm and relieved his coughing spells." I am most grateful for what this remedy has done for him." For sale by all dealers.

"Babies need the ballot," declares one of our State officers of the Suffrage League. Will somebody kindly lend or rent one ballot in good repair until we can snatch a few nice rest? Please enclose directions? For sale by all dealers.

TWO WEEKS BARGAIN SALE

From November 9 to November 21st—Electric Grills, regular price \$5 at \$2.50

It broils, boils, fries and toasts.

Southern Public Utilities Co.

Reliable Remedies

For every ache and pain is a reliable remedy. You can cure the difficulty if you only act in time and act with wisdom. A lazy, torpid, sluggish liver is, without a doubt, responsible for more aches and pains than any other thing, for to it we trace constipation, biliousness, indigestion, headache, etc.

R. L. T.

knocks all these out by going right to the bottom of the difficulty—the liver—and form there strengthens the entire system. A trial proves it. 50 cents and \$1.00 per bottle at your druggists.

Manufactured and Guaranteed by Evans' Pharmacy

Evans' Pharmacy

Three Stores. Responsiveness Due to Indigestion. It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods. I tried every thing that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them. I did find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers.

Wouldn't YOU Feel Ashamed If He Meant YOU?

One of the MOST PROMINENT business men of Anderson, who has lived here TWENTY-TWO YEARS was compelled to ask what was sold in a certain store in Anderson, and WHO conducted the store.

It is a store-room at least twenty feet wide, and it is located "on the Square." This business man passes it DAILY, but there is not sufficient appearance of a lively business to make a man inquire what was going on in there, and as this business man said "I have NEVER YET seen an advertisement in the Anderson papers from that concern, and happening to stop near their door the other day to hold conversation with another gentleman, I asked him whose store it was?"

Could this man have referred to your business? As Hugh Chalmers, the automobile manufacturer, says "If you don't advertise, the world will forget you're in business."

The ONLY trade insurance to be had is Advertising, and the Daily and Weekly Intelligencer is in the Trade Insurance business.

SABERN, THE AD MAN.

Saved Mine Option A WESTERN Mining Engineer, with an option on a valuable mine was about to lose the deal, when, at the last minute, the Western capitalists withdrew their support. With a few hours left in which to find the money, he got New York on the Bell Long Distance Telephone, talked with a banking house and outlined the proposition, which they agreed to finance.

A personal interview by the Bell Long Distance Telephone often closes a trade or saves a situation. When you telephone—smile. SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY
