

Wounded French Soldiers in a Berlin Hospital.

The German government permitted this photo to be taken to disprove statements in the French and British press that wounded enemies do not

get good care when they fall into the hands of the Germans. Here are many Frenchmen cared for in a first-class hospital with every conven-

ience, while the Germans are taxed to the utmost to provide for their own wounded.

Further turn in their favor, shippers are expected to greatly increase their demand.

Attractive Investments In Farms

One 86 acre tract of good land, known as The Ranch Harrison home farm, five miles from Townville, and six miles from Fair Play, on public road, mostly level land. This is a special bargain for cash.

One 65 acre tract, five miles west of the city, five room cottage, two barns, with all necessary out-buildings. This land will easily make a half of cotton to the acre. This will make a splendid HOME farm for some good farmer, and can be bought on VERY REASONABLE TERMS: One third down, with the other in yearly payments.

Lack of space prevents our enumerating other farms; but we have a big list of desirable lands for sale. SEE ME if you contemplate buying a farm anywhere in this county.

Commerical and Financial

New York Cotton

NEW YORK, Nov. 17.—Liquidation of old contracts and southern selling accompanied by reports of easier spot markets in the southwest caused a sharp decline in the cotton market here today. Commission houses were moderate buyers on a scale down, and trading was more active than it was yesterday but still seemed to be restricted by unfamiliarity with the new contract. Numerous inquiries are being received asking whether it is possible to buy and sell contracts for delivery after next February without incurring a prohibited tax. In reply members of the exchange are assuring inquirers that the new contracts, being in conformity with section 5 of the cotton futures law, are exempt from the tax of \$10 per bale and on the late break here this afternoon there appeared to be some improvement in outside demand. The close was steady but within a point or two of the lowest at a net loss of 20 to 23 points.

Liverpool was some 2-1/2 to 3-1/2 points lower at the local opening and after starting at a decline of 2 to 6 points the local market sold some 12 to 17 points net lower. Fallies of some 5 or 6 points followed on covering and investment buying, but there was steady selling of old December which was supposed to come

New Orleans Cotton

NEW ORLEANS, Nov. 17.—Weakness developed in the cotton market today and the close was at a loss of 20 to 35 points, both old and new styles of contracts taken into consideration. Selling was about equally divided between the long and short account. Liquidation of weak long lines, which had been held over from last summer, emphasized the lack of buying power.

The movement is increasing daily and bears expressed the opinion that values would show a still further falling off under its pressure. On the other hand, bulls were confident that further declines would stimulate a demand for both contracts and the actual stuff.

Financial

NEW YORK, Nov. 17.—Further easing of money for virtually all periods was the most noteworthy financial development today. For the longer dates, two to six months, the rate was reduced to 5 per cent., while some 30-day loans were made at a shade lower. A considerable part of the money was put out at 5 per cent., represented renewals of loans made at 6 to 8 per cent. shortly after the outbreak of the war.

Call money ranged from 4 1/2 to 5 per cent., the lower rate prevailing where choice collateral was offered. Dealings in unlisted bonds and stocks were again in liberal volume, but no advances from the previous day were recorded.

Another advance in high grade copper to 12 cents denoted a better inquiry for the metal by consumers, but conditions in that industry as a whole continue unsatisfactory mainly because of the British embargo on our exports.

Readjustment of the foreign exchange situation was being automatically assisted by the heavier exports. The merchandise outflow from this port this week was \$6,000,000 greater than in the preceding week and almost \$7,000,000 more than in the same week last year.

Discounts were inclined to harden in London, because of the final payment tomorrow of a large amount of half-year treasury bills, which will temporarily deplete the money market of its free supply.

Cotton Seed Oil

CHICAGO, Nov. 17.—Active buying, supposed to be largely for eastern exporters, rallied the wheat market today in the last hour, notwithstanding that previously the bears had control of prices most of the time owing to the piling up stocks. Steadiness ruled at the close which was 1-8@3-8 down. Corn finished unchanged to a sixteenth off, oats at a shade advance, and provisions down 15 to 22 1/2.

Grain and provisions closed: Wheat, December \$1.14 3/8; May \$1.12 1/8. Corn, December 67 1/8; May 71. Oats, December 49 1/2; May 53 3/8.

Dry Goods

NEW YORK, Nov. 17.—The sale of 1,000,000 yards of wool overcoating for war purposes was reported today. Cotton goods were steady but quiet. Yarns were steady. A moderate amount of knit goods business was reported.

Cotton Movement

NEW ORLEANS, Nov. 17.—With many spot markets of this country showing declines of from one eighth to one quarter of a cent a pound, cotton exporters today began to show increased interest in the situation. It is said that there still are large November spot commitments to be filled and that December engagements are heavy. Should the market take a

WHERE WILL FARMERS OBTAIN SEED WHEAT?

NOT ENOUGH IN THE COUNTY FOR DEMAND

NONE AVAILABLE

But Few Planters Have More Wheat Than Needed for Consumption and Planting.

"Where will Anderson county farmers get seed wheat enough to sow" was the question asked last night by one well known business man while a discussion was going on as to the amount of wheat to be planted this season by local planters. The speaker went on to say that practically the entire available supply of seed wheat in Anderson county has already been exhausted and Anderson planters have not yet begun to sow wheat.

All told, not more than 10 or 12 Anderson county planters have ever sowed wheat on an extensive scale and each year they have been planting the same wheat. Of the few in the county now sowing wheat to any considerable extent they have been using the same seed used by their grandfathers for the last 50 or 60 years and these men had but little seed wheat to offer for sale.

Throughout the country the same cry is being heard. "Seed wheat is scarce and we cannot supply the demand." Anderson county's supply of seed wheat seems to have been sold out and when the planters prepare to sow about 20 times as much wheat in this county as was ever produced here before, they will be up against the proposition of finding seed enough to plant.

To show that the situation is serious, Furman Smith, the wholesale seedman, when seen yesterday and asked by a reporter for The Intelligencer as to the truth about wheat being scarce, exhibited letters where he returned checks amounting to more than \$400 during the last week to planters in the lower part of the State. All of these planters desired seed wheat for immediate use and the Anderson seed house could not fill their orders.

It is said that this condition is by no means confined to South Carolina and that other states are in the same fix.

Given Eighteen Months.

NEW YORK, Nov. 17.—Jared Flag was sentenced this afternoon to serve 18 months in the federal prison at Atlanta for using the mails to defraud stock investors.

After imposing sentence Judge Rudkin granted a stay of execution and consented to Flag's release on \$50,000 bail, pending appeal.

PEACE PLANS ARE THREATENED

(Continued from Page One.)

on Villa. The letter, however, was mailed several days ago, before Carranza's most recent appeal for time to discuss further the situation with the convent on officials.

WASHINGTON, Nov. 17.—Delayed dispatches today from American consular agents at Aguas Calientes and Mexico City confirmed earlier reports that General Carranza had agreed to resign provided General Villa similarly retired. General Gutierrez, named provisional president by the Aguas Calientes convention, has approved Carranza's condition and unless Villa himself upsets the arrangements peace in Mexico seemed assured tonight.

General Carranza's proposals provided that the first chief would deliver the executive power on the following conditions: First, General Carranza would relinquish his command in the Constitutional army to General Pablo Gonzalez, commander of the east.

Second, General Villa would retire as commander of the north, placing his troops under the orders of Gutierrez.

Third, both Generals Villa and Carranza should leave the country and should give evidence of that fact by appearing at Havana, Cuba, on or before November 25.

In accepting Carranza's conditions, American consular agents believe Gutierrez spoke on behalf of and after consultation with General Villa, who previously had announced that he had placed his own destiny in the hands of Gutierrez and would do whatever he requested. No word has come from George Carrothers, American consular agent, accompanying General Villa, saying what the general's plans would be.

There is some doubt in well informed quarters here whether either Villa or Carranza will actually leave Mexico. It is believed that when Carranza delivers the executive power to Gutierrez at Mexico City the convention will ask Carranza to remain, out of consideration for his distinguished services to Mexico. Similarly it is believed Villa will be asked to stay and that the convention will seek the cooperation of all leaders in reconstructing the national government.

Secretary Bryan felt so relieved over the favorable turn of events in Mexico that he left tonight with Mrs. Bryan for a short stay at his winter home in Miami, Fla. He will return next Tuesday.

Secretary Daniels said today that he had given no orders for American warships at Vera Cruz to withdraw, but they probably would be sent away next week immediately after General Funston's forces evacuated the port. One or two vessels probably will be kept within easy reach of Mexican ports until order is completely restored.

Personal

Guy Thompson of the Lebanon section was in the city yesterday.

Frank Gentry, Jr., of Starr was among the visitors to the city yesterday.

Jule Duckworth of Lebanon spent part of yesterday in the city.

J. B. King and Vance Cooley of Williamston were in the city yesterday.

Synod of Protestant Episcopal Church Opens

(By Associated Press.)

NEW ORLEANS, Nov. 17.—With many prominent church men in attendance, including bishops, clergymen and laymen, the primary synod of the Fourth Province of the Protestant Episcopal Church opened here tonight. The visitors were formally welcomed by Bishop David Seastons, of New Orleans. Addresses were delivered by John W. Wood, general secretary of the Board of missions, and Rev. J. M. B. Gill, of Nanking, China.

The synod is composed of twelve dioceses and two mission districts in the States of Louisiana, Mississippi, Georgia, Kentucky, Tennessee, North Carolina and South Carolina. The sessions will conclude with a mass meeting Thursday evening.
