He will also put in a separate wholesale establishment to manufacture cakes, candies, and other allied commodities, building his own plant, and operating throughout the Carolinas and Georgia.

Mr. Hunt yesterday in company with Judge Fowler inspected the opera house building, and the proposed site for his establishment, both of which are now under consideration, and before leaving for Athens, Ga., which town he also has under consideration, stated that he was well pleased with Anderson and had not expected to find as large and modern a city as he had seen.

He is expected to return to Anderson in about ten days, and take the matter up further.

Belgian Soldiers Trying to Keep Warm With Their Blankets.

The winter, which peace advocates hoped would tend to put an end to the great war, has come to the men in the field in Europe. This photograph shows how cold it is at Ypres, in the north of France. The Belgians shown are holding their heavy blankets closely about them to keep from freezing in the biting wind. The men go about all day with these blankets pulled about their overcoats, because they would freeze if they had no such protection. When the snow is deep their suffering will be much worse.

HELPING THE STARVING BELGAINS

Christmas approaches and to quote the President's Thanksgiving Proclamation, "it has been vouchsafed to us to remain at peace with honor." The duty and the privilege remain of averting starvation amongst the Belgian refugees this winter and for this special purpose the fund has been organized.

It is estimated to date that all the help subscribed in America—and it has been very liberal—including the aid of the wealthy Rockefeller Foundation—does not average more than a few cents for each destitute Belgian—enough to buy food for a few days! The Belgian relief fund has one great ambition—to see that every man, woman and child shall have food, clothing, shelter. This great achievement is happily still possible and to this end we are working with the Christmas Fund of London which has collected for the same purpose nearly \$400,000.

Carlisle Wins Over Alabama Eleven BIRMINGHAM, Ala., Dec. 2.—Effective use of the delayed pass enabled the Carlisle Indians to smash their way to a 20 to 3 victory over the University of Alabama football eleven here today. While Alabama's use of the forward pass was more successful than that of the Indians, Carlisle's defense was impregnable when its goal was threatened.

The Indians scored one touchdown in each of the first three quarters. Alabama's score was made in the final period when Vandegrat kicked a field goal.

WORK WILL BEGIN EARLY IN FEBRUARY Time Set by Officials of C. & W. C. to Begin Laying Brick for Series of Buildings. According to local officials of the Charleston & Western Carolina Railway, when interviewed yesterday by a reporter of The Intelligencer, the real big work on the gigantic construction work to be placed under way here by the C. & W. C. interests, will begin early in February, when the actual work of laying brick and putting in the foundations for the series of buildings to be erected will be begun.

When once started, according to this official, the work will be pushed as rapidly as men and money can make possible. At first the main freight depot and approaches will be erected, after which the train sheds, warehouses, etc., will be put in; and after that the handsome passenger station, which will be a model.

It is generally known that when officials of the Atlantic Coast Line and Charleston and Western Carolina railways were recently in Anderson, inspecting their properties here, that they were so well pleased with conditions that they decided to leave nothing undone to give Anderson a series of terminal improvements such as are seldom located in a city of this size.

Miss Bertha Pearson, of Lander College, Greenwood, is in the city to attend the Cam-Lowe wedding.
