The State Constitution requires all male persons between the ages of 21 and 60 years, except those incapable of earning a support from being married or other causes, and those who served in the War between the States, to pay a poll tax of one dollar. All male persons between the ages of 21 and 60 years who are able to work public roads or cause them to be worked except preachers who have charge of a congregation and persons who served in the War between the States, school teachers and trustees, who are exempted from road duty, may in lieu of work pay a tax of one dollar to be collected at the same time other taxes are collected. Prompt attention will be given all persons who wish to pay their taxes through the mail, by check, money order, etc.

W. A. TRIPP, County Treasurer.

#### NOTICE

Of the Annual Meeting of the Board of County Commissioners.

The annual meeting of the Board of County Commissioners for Anderson County will be held in the Superior's office on the first Thursday after the first Monday in January, 1915. All persons holding demands of any kind against the County not previously presented to the Board are required to file the same with the Clerk on or before the first day of January, 1915, so that they may be examined and ordered paid at the annual meeting.

J. S. ACKER, Clerk of the Board.

Dec. 2nd, 1914.

#### LAURENS PLANTERS SOW SMALL GRAIN

Largest Acreage in History of County Is Found With Arrival of December.

LAURENS, Dec. 2.—The first of December finds the largest acreage sown to small grain in Laurens County within the memory of the present generation. Activity in this enterprise has attracted much attention and commendation from many sources within the past few weeks. During the months of September and October a tremendous crop of oats was put in, and the sowing has continued through the month of November whenever practicable, with the result that practically every farmer, land owner and tenant, too, has a crop of grain, however small, coming on. Some of the larger planters have sown 300 and 400 acres and are not through yet. And one of the promising features of the grain sowing enterprise is that the grain has been put in well; the land has been well prepared and suitable drill plows and other improved machinery has been used in the work. The land has been in excellent condition and the season favorable for getting good stands. Farmers, too, have been careful in the selection of seed, not being content to sow just any variety at hand.

During the past week or ten days the sowing of wheat has been in general progress, many farmers not waiting to get the cotton out of the way before planting in the rows, using drill plows. One of the drawbacks has been the scarcity of seed wheat, many farmers having to order the desired varieties from distant markets. The value of yesterday will retard the work a few days, but the people are thoroughly alive to the situation and will not let up until they have an ample crop of grain planted.

In order to stimulate interest in the grain industry in the county the Enterprise National Bank of Laurens has offered a cash premium of \$25 for the sowing of wheat grown on an acre of land. The contest is under the supervision of J. W. Watts, farm demonstrator for this county, and the conditions are simple.

In addition to oats and wheat, attention has been given in large measure to vetch and clover crops.

**Rich Headache**  
Rich headache is nearly always caused by disorders of the stomach. Correct them and the periodic attacks of rich headaches will disappear. Mrs. John Bishop of Roseville, Ohio, writes: "About a year ago I was troubled with indigestion and had rich headaches that lasted for two or three days at a time. I doctored and tried a number of remedies, but nothing helped me until I began to take Chamberlain's Tablets. The headaches relieved in a short time." For sale by all druggists.

## Commerical and Financial

### Stocks and Bonds.

NEW YORK, Dec. 2.—Business in bonds on the stock exchange today evinced a further reactionary trend, with a wider variety of offerings. Declines in some less conspicuous issues ran from 3 to 7 points and in several bonds, which were subject to reorganization and readjustment, losses were even more severe. This condition was offset in part by a decidedly better inquiry for short term notes and the more active livestock, which in normal times constitute the great bulk of the daily operations. The demand for these securities, particularly notes, came from various quarters. The movement was primarily attributed to the easier money conditions, which have caused an extraordinary piling up of cash at all the leading reserve centers. Lower rates for 30 and 60-day loans are reported today were a natural corollary of this new situation. The financial district derived considerable encouragement from the announcement that hereafter the stock exchange intended to issue daily actual sales as made through its clearing house, together with a comparative table of bid and asked prices. This was generally recognized as another step toward full and regular resumption.

Currently, London cables stated that stock exchange there is likely to reopen in a month, if the British treasury officials sanction such action. A significant development, because of its bearing on the foreign situation was the placing here of a \$5,000,000 two-year 6 per cent treasury note issue by the Swedish government, the proceeds of which, it was said, were to be disbursed in this country in the purchase of various commodities.

Increased confidence in the betterment of domestic industrial conditions was reflected in the extension in the demand for pig iron. Copper metal at 13 cents, suggested some increased buying by home consumers.

October statements of a number of prominent transportation companies, including Reading, Illinois Central, Chesapeake & Ohio, and New Haven, showed variable losses in net earnings, most of which were tempered by greatly reduced operating expenses.

### New York Cotton

NEW YORK, Dec. 1.—Trading in the cotton market here today was less active than on any previous day since the reopening. Fluctuations were narrow and irregular, with the close steady, not 1 point higher on December but generally unchanged to 2 points lower. The opening was steady at unchanged prices to a 2-point advance in response to steady Liverpool cables. Yesterday's late declines in some of the leading Southern spot markets were not followed by increased hedge selling here and there was nothing to indicate any general weakness in the interior, but there were very few buyers around the ring, and prices eased off under scattering liquidation or local pressure.

December rated relatively steady, selling about 4 points higher once during the afternoon. A prominent local authority issued a report before the opening indicating a crop of 15,700,000 bales, excluding linters, and later a Chicago estimate was published of 14,251,990 bales, excluding linters. These figures seemed to strengthen bearish views of the crop in local circles, but created no fresh pressure.

Spot cotton quiet; middling uplands 7.65; Gulf 7.90. No sales.

Cotton futures closed steady.

### Cotton Movement

NEW ORLEANS, Dec. 2.—The total movement of the cotton crop brought into sight for the four months ending at the close of November was 5,187,457 bales, compared with 7,994,440 for last year, 7,811,891 year before last and 7,544,081 for 1911, according to a report made today by Secretary Hester, of the New Orleans cotton exchange.

### New Orleans Cotton

NEW ORLEANS, Dec. 2.—Fear of a large crop estimate from the government next week held buying of futures down in the cotton market today while the fear that the government would underestimate the crop prevented much short cotton from coming out. In the early trading the most active month went 5 to 6 points over yesterday's close and in the afternoon they went a couple of points under. The close was 3 points up to 3 down, compared with yesterday's final prices.

Port receipts thus far this week total only 240,793 bales against 261,991 up to the same time last week. The bulls declared that this proved the strength of the holding movement among farmers, and indicated that the crop already had reached the height of its movement. Bears contended that it was the result of a falling off in the spot demand, consequent upon the complete filling of November engagements.

Spot cotton quiet; sales on the spot 760 bales; to arrive 1,150 bales. Cotton futures closing: January 7.25; March 7.36; May 7.70; October, 7.90.

### Liverpool Cotton

LIVERPOOL, Dec. 2.—Cotton, spot, in fair demand; prices quiet. American middling fair 5.37; good middling 4.68; middling 4.40; low middling 3.94; good ordinary 3.24; ordinary 2.79. Sales 8,000 bales, including 7,700 American and 800 for speculation and export. Receipts 4,021 bales, no American.

### Cotton Seed Oil

NEW YORK, Dec. 2.—Cottonseed oil declined further today under a renewal of liquidation and stop-loss selling on reports of cheaper and freer crude offerings. Final prices were 8 to 13 points net lower for leading months. Sales 20,100 barrels.

### Dry Goods

NEW YORK, Dec. 2.—Cotton goods markets were quiet today. Yarns were dull. Worsted yarns were very firm. Orders for 2,800,000 yards of overcoating and suitings for army use abroad have been placed with domestic mills during the past three days. Knit goods for foreign use were in broader demand. Wool by-products advanced sharply.

### Chicago Grain

CHICAGO, Dec. 2.—Bulls had the advantage in the wheat market today owing to strong foreign demand and reports that Austria would need to import and that Argentine offerings to Europe were scarce. The market closed steady at the same as last night to 3-4 advance. Corn finished 3-4 up, oats unchanged to 3-4 off and provisions varying from 2 1-2 decline to a rise of 12 1-2.

### Live Stock

CHICAGO, Dec. 2.—Hogs weak, mostly 25c lower. Light \$4.40@6.90; mixed \$4.60@7.10; heavy \$5.00@7.10; rough \$5.63@7.75; pigs \$3.50@5.50. Cattle steady to 15c lower. Native steers \$5.00@10.10; western \$5.25@7.50; cows and heifers \$3.25@6.00; calves \$7.10. Sheep weak, 10 to 25c lower. Sheep \$5.50@6.25; yearlings \$6.30@7.50; lambs \$5.50@9.
