DR. B. A. HENRY ELECTED PRESIDENT BY BOARD

MEETING WAS HELD IN CHAMBER OF COMMERCE AT NOON YESTERDAY

ELECT OFFICERS

County Medical Board Under New Leadership for the Next Twelve Months.

The Anderson County Medical Association held its annual meeting in the rooms of the chamber of commerce yesterday at noon, and elected officers for the coming year. The meeting was one of the most successful ever held. Dr. B. A. Henry was elected president to succeed Dr. W. Frank Ashmore, who served for the past year. Dr. H. S. Pruitt was elected vice president and Dr. Olga Pruitt was re-elected secretary and treasurer for the fourth term.

No set addresses were made, or papers read, and the meeting was given over to relating experiences by the several physicians, that had come under their personal observation recently. After interesting talks by Drs. J. C. Harris, C. S. Broedlin, W. F. Ashmore and W. H. Nardin the meeting adjourned, after having been pronounced the most successful ever held by the society.

NEW COUNTY WILL HAVE GOOD AREA

McDuffie County Will Contain 502 1-2 Miles. All Reports Are Filed.

The following article appeared in yesterday's Greenwood Journal: "The commissioners of the proposed McDuffie county have made their report to Gov. Bleasie and all that remains now is for the Governor either to call the election or turn down the proposition. The commissioners met with the surveyors and attorney R. H. Welch in McCormick yesterday and received all necessary reports.

"It is understood that the new county will have an area of 502 1-2 square miles, leaving over 500 in Greenwood, Abbeville and Edgefield. The population in the area to vote on the proposition is 15,000 and the taxable property is in the neighborhood of \$25,000. Three whole school districts and fractional parts of several others are included in the area to be taken from Greenwood. Advocates of the new county are said to be confident that the proposition will carry, but by a small majority."

WANT TRAVELERS TO ARRIVE AT 7:30 A. M.

Several travelling men in the city yesterday stated that the present schedule over the G. S. & A. did not suit the traveling public exactly, as they wanted a morning car to reach Anderson at about 7:30 in the morning. There are many people living on the Interurban who work in Anderson and who must get here earlier than at present, and unless they can they have to drive to town.

It is understood the matter is to be taken up with General Passenger Agent of the P. & N. lines at Greenville, who will doubtless be glad to arrange the matter.

WONDERFUL INTEREST IN THE CREAM ROUTE

Recently Inaugurated in Pendleton and Sandy Springs Sections by Clemson College.

According to Uncle Dave Taylor, who has lately visited various parts of the section of country in the region around Pendleton and Sandy Springs, wonderful interest is being displayed by the farmers there in the cream route which Clemson College recently inaugurated in that part of the county, as recently exclusively announced in the columns of the Intelligencer. He says that heretofore while the Pendleton-Sandy Springs country has been well ahead of other parts of the county or the State in dairying, that there has been no sufficient immediate market, the cream having to be shipped to Atlanta, Charlotte, Charleston, Columbia and elsewhere, Anderson—taking only a small part. Now the farmers are enabled to turn over their cream and butter fat to the route wagon of the college and once monthly get their butter and cream checks. By this means an immediate cash market has been secured, which is paying the farmers handsome cash dividends on their dairying investments and proving of incalculable value to the whole countryside.

Later, said the popular Sandy Springian, so well known in Anderson, the number of farmers making a business of furnishing butter fat and cream to the route will have grown so large that it will be necessary to locate in Pendleton, and later at Sandy Springs and Anderson creameries, which will be a revolution in conditions in the county, thus providing a monthly cash money (dairying) crop to the farmers, and turning over to them hundreds of thousands of dollars annually. It will literally transform the county. No one who has not visited Wisconsin, Illinois or Iowa can appreciate the vast importance of the work, as it means a new revenue to all farmers, and incidentally the giving to the county of a class of industries which guarantees the permanent future of the county.

SPARTANBURG MUSIC FESTIVAL IN BALANCE

After Twenty Years of Achievements Great Institution May Fall.

SPARTANBURG, Dec. 2.—After 20 years of achievements, during which time it has become recognized as one of the great annual musical events of the country, the fate of the Spartanburg music festival is said to be hanging in the balance. An official call for a meeting of the directors of the Spartanburg Music Festival Association will be held tomorrow night. The meeting is called to decide whether there will be a festival next spring or not and is therefore very important.

It costs more than \$10,000 to give this festival and though it has lost money only upon three years in the 20 it has been given, the loss last year was heavy, amounting to more than \$2,000, a fact that is evidently having its influence in bringing about the present crisis. At the close of the festival last spring the loss was announced and immediately, in order to assure the life of the festival a campaign was launched to sell tickets amounting to \$8,000 for the festival of 1915. Subscriptions were made to tickets amounting to \$6,000 and it was believed the festival had been saved.

No announcement has been made as to the difficulties that have arisen since that time so there is naturally intense interest in the developments of the meeting called for tomorrow. It was understood that the Danmooch Orchestra and possibly artists had been engaged for the next festival. Practically all of the great singers of the world with the exception of Caruso have sung in this festival and its patronage has been from all the Southeastern States.

FAVORS BONDING CITY TO PAVE THE STREETS

Rufus Fant Says Every Citizen of the Town Should Get Behind the Proposition.

"I sincerely hope Anderson may be spared the ignominy of ever having again to present to the stranger and home folks alike the disgraceful appearance of the city's streets for the past few days; it is an outrage that a wealthy, prosperous city the size of Anderson, the fifth largest city in the state, affords such streets. Every citizen of the city should get behind any move made to give the town fifteen to twenty miles of paved streets. It is the imperative work before Anderson and something must be done. Of course the abatement property law bill will help, and be the hammer by which the streets can be paved. I hope personally I may never again have to drive down such streets. It is simply an outrage," said Mr. Rufus Fant yesterday, when discussing the matter with a group of business men. "We should get rid of such conditions and not let it happen again. This should be the last winter under such appalling conditions. Here is a city of 20,000 people, alive, prosperous and growing, and Oh, such streets!" Mr. Fant favors voting bonds at the earliest possible moment, and believes that 80 per cent of the voters, and especially laboring people, who need work, and property owners, who desire the improvement, will stand back of the bond issue.

HOME OF LEO GEISBERG DESTROYED BY FIRE

FURNITURE PRACTICALLY ALL SAVED BUT HOUSE BADLY DAMAGED

MADE USELESS RUN

Fire Department Was Given Wrong Address; and Had a Two Mile Chase.

An alarm of fire was turned in yesterday afternoon at 3:25 o'clock, which, after quite a misunderstanding as to where the fire was located, was finally discovered to be on West Franklin street instead of West Market, as was reported. The building was the property of Mrs. Eva Edwards, and was occupied by Mr. Leo Geisberg and family.

Mr. and Mrs. Geisberg were away from home at the time, their children playing in front of the house. The fire seems to have originated in a closet which was directly against a chimney, and was probably caused by a defect in same. The plastered walls and metal roof on the building prevented what would have been a disastrous fire on account of the delay on the part of the fire department in arriving.

It was said that all losses are fully covered by insurance. Chief Jackson, in a statement to a reporter for The Intelligencer, stated that the alarm was phoned in over the telephone and seemed to be the voice of a child talking, who stated that the fire was on West Market street. After making all haste to the edge of the city limits, without discovering the fire, the bell rang again, calling them back to the station where the proper directions were given.

The automobile truck, of course, was in splendid shape for a two mile run in the heavy mud, but the horses that pull the hook and ladder truck, were about all in after their long run in search of the fire.

The water pressure was fine and the firemen had things going their way in a few minutes after arriving.

JNO A. AUSTIN'S IN NEW STORE

All that Mr. John A. Austin needs in his make-up to appear as Santa Claus is the whiskers and costume; for he has the size, and shape, and the jovial, kind disposition, which the keen desire that all children shall enjoy Christmas.

Any person who stood and watched him working at the almost endless task of moving a store, and the rearrangement of its stock, would see at a glance that he took great pleasure in his work; and after a short talk with "Uncle Johnny" it was easy to understand why the children like to go to his store to buy their toys.

Mr. Austin told a reporter for The Intelligencer yesterday that notwithstanding the European war, he had as many, and as nice a lot of toys as he had ever carried for Christmas, and that he wanted each and every one of them to come and see them. That he would have his stock arranged, O. K. by the end of this week, and for them to make their parents bring them down to Santa Claus headquarters to see the many beautiful toys and pretty dolls, etc., that were awaiting old Kris Kringle's arrival in Anderson for distribution among the good children of Anderson and vicinity.

Mr. Austin also said that while he made lots of friends down on the corner, he was glad indeed to get upon the "Square" that while he had always done business "on the square" his store house had never been looted "on the square," and he was delighted with his new location.

PROMINENT MAN HERE

Former Governor Gary of Spartanburg, Spent Yesterday in Anderson.

Former Governor John Gary Evans of Spartanburg, was among the business visitors to Anderson yesterday, coming over in the afternoon from Greenville, where he has been in attendance upon court. Mr. Evans expressed himself as pleased with the optimistic outlook, and is firm in the belief that conditions are fast becoming normal. He believes that with the beginning of the new year our people will return to normal conditions again, and that there will be an era of prosperity ushered in that will offset the temporary setback we have had.

COMMITTEE HELD SPECIAL MEETING

Discussed Grain Conference to Be Held Here Monday and Appoint Officers.

The special committee of arrangements, appointed to map out details for the grain conference, to be held here next Monday, met in special session this morning at the Sullivan Hardware Co. offices, and after discussing the proposed conference at much length, decided to appoint Hon. B. F. Mauldin, president of the Bank of Anderson as chairman for the meeting and also selected Judge S. Fowler as the gentleman to make the introductory talk at the meeting. Other talks are yet to be selected, including Mr. S. A. Burns, president of the Anderson County Livestock Association, who has taken a very prominent part in the upbuilding of the county, and who is especially interested in grain production.

The publicity department of the local Chamber of Commerce will today send out 1,000 postal cards to various parts of the county, reminding all grain planters of the necessity of attending the meeting.

The hour for the conference has been set at 1 p. m., as it has been arranged that court will adjourn and the dinner hour thus utilized. This hour, it is believed, will better suit the convenience of all. And especially will it suit the farmers.

MEETING OF BELGIAN RELIEF COMMITTEE

Details as to Plan for Getting Relief to Suffering Belgians will be Explained.

There will be a meeting of the Belgian Relief committee at the rooms of the chamber of commerce this afternoon at 3 o'clock, at which time Rev. J. Fuller Gibbons, who is very much interested in this work, will have a detailed statement of the conditions surrounding the matter of making contributions to the relief of these sufferers across the water. A telegram reviewed by Mr. Gibbons yesterday and Henry Clews, treasurer of the Belgian Relief committee, New York, stating that he had forwarded all details as to the plan for getting substantial relief to those unfortunate whose homes were destroyed and who are now dependent on the generosity of the world for subsistence. Mr. Gibbons states that he hopes all members of the committee will be present this afternoon.
