### KAISER'S TROOPS BATTLE IN LODZ

Germans Expect to Unite Forces For a New Attack on the Allies.

LONDON, Dec. 3.—With a lull in the battle in the west, which has be-come a heavy cannonade at widely separated points, with only occasion-al infantry attacks, interest centers

in the struggle between the Russians and Garmans in the east.

On the other hand, German experts believe that defeat for the Russians would enable the German general's to unite all their forces for another blew against the Allies in the west.

There has been no news for some days of the lighting in the Caucasus or in Egypt, but throughout the whole of Africa more liveliness is anticipated, now that General Christian DeWet has been captured and General Louis Botha can carry out his original plans of moving against German Southwest Africa; the first Australian and New Zealand contingents have been landed in Egypt for operations against the Turks, and Portuguenese reinforcements have reached Anogla to take the offensive against the Germans on their African borders.

The political event of the day was the premier of Italy's announcement that nothing hat intervened to prompt link to alter the policy of reutsilia.
