BETTER MAIL SERVICE NOT WARRANTED NOW

MATTER OF PUTTING MAIL CLERKS ON C. & W. C. TRAINS REVIEWED

RELIEF IN SIGHT

Present Schedules Are Only Temporary as is the Mail Service.

Steps which were taken some time ago by the Anderson Chamber of Commerce and other interested parties to have certain improvements carried out in railway postoffice service on the Charleston & Western Carolina Railroad has resulted in the second assistant postmaster general writing a letter to Congressman Wyatt Alken in which the former states that it is the understanding that the present schedule on the C. & W. C. railroad is but temporary and that if train service is restored to Augusta the department will consider restoring the railway postoffice service accordingly.

Washington, D. C., Nov. 30, 1914.
Hon. Wyatt Alken, Abbeville, S. C.
My dear Sir:
Again referring to your letter of October 24th, and to the letter of the Anderson, S. C. Chamber of Commerce, relative to the service in the Anderson & Augusta R. P. O., I have

to state that when the trains were discontinued between McCormick and Augusta it was necessary to curtail the R. P. O. service so as to operate between Anderson and McCormick only. As at present arranged the clerk runs in trains 5 and 6, leaving McCormick at 8:10 a. m., and returning leaving Anderson at 3:35 p. m. Closed pouches are carried in trains 21 and 22 between Anderson and six of the ten offices located on this line, while four of the intermediate offices have closed pouch exchanges with Spartanburg & Augusta R. P. O. trains 2 and 1 via McCormick. Trains No. 21 and 22 are freight trains and subject to delay and it is thought that the conditions would not warrant placing a clerk in these trains. It is understood that the present schedule may be but temporary, and if train service is restored to Augusta the department will consider restoring the R. P. O. service accordingly.

Yours very truly,
JOSEPH STEWART,
Second Assistant Postmaster Gen.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts can not injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney diseases.

FROM SEPTUS

Well the rain has come just in time to save this part of the country from being all sowed down to wheat and oats.
It looks now that there's not enough land left for a decent corn crop and one thing sure if there's much cotton planted here next spring there will have to be some small grain plowed up.
As far back as we can remember the farmers of this section have been talking of quitting cotton and guano but this is one time, without ceremony, frills or flounces, they are going to do this stunt.
Heretofore, it was all talk and no acting—this time it is all acting and no talk.
We have heard numbers and numbers of farmers express themselves as not going to use a spoolful of ready-mixed guano in 1915.
They are going to try one crop either with oak leaves and acid or meal and acid or just straight acid.
Today our farmers are in the worst shape that they have been in since the Civil war but if they will follow the policy for five years as outlined for next year they will then be in the best shape that they have been in since the Civil war.
Brother farmers, stay in the middle of the road that you have blazed out for yourselves, turn neither to the right nor to the left to listen to the sweet talk that will be given you next spring in the way of "omeo guano," "acid dressing," etc., etc. If you can make the next crop without owing the fertilizer man one red cent then so much the better, for by raising less cotton with less commercial fertilizer you will be helping your-

THE PLEASURE OF DOING YOUR CHRISTMAS SHOPPING NOW

It will be a satisfaction to you to devote a little while every day, from now on, to thinking of the most appropriate Christmas gift for you to give to this friend or that, and to contemplate an ever increasing array of neatly betissued packages laid by to wait the coming of Christmas.
Every day from now on the numbers of such shoppers will increase until the "peak of the load" is reached just before Christmas.
But the early comers will find
These Superb Stocks at their best.
Many a unique thing that cannot be replaced, once it is gone.
Whole groups of merchandise, coming from abroad, which will hardly be duplicated.
Less hurry in shopping, hence better attention.
Besides the unsalish satisfaction in making things vastly easier for the sales people, the delivery, and the whole store service.
