(By Associated Press.) NEW YORK, Dec. 9.—The broader inquiry for investment issues which followed the recent announcement that the stock exchange will reopen next Saturday for dealings in stocks, lost one of its scope today. Prices as a whole were fully maintained and in one important instance—the New York city 5 per cent three-year note—a new record of 104 1/2 was attained. Bonds were inclined to react in the later dealings, the underlying issues of some southern roads showing marked declines.

Stocks moved irregularly according to lists submitted by the exchange, and the number of issues showed some contraction. About the only important stock that sold above yesterday's best was Reading.

Exchange on Berlin and Hamburg, while less active than recently, over shadowed all other features in the market for foreign remittances. Cables on Berlin touched 93, the highest quotation of the present movement.

Proposals for the shipment of a large amount of steel ties to Europe suggested a renewal of foreign buying of this character and the domestic situation was improved by the placing of some 1,700 orders for freight cars. General buying of miscellaneous orders was in excess of recent weeks, according to trade authorities, but far below the normal.

New York Cotton

NEW YORK, Dec. 9.—Reports of increase southern spot offerings and New Orleans selling orders gave the cotton market rather an unsettled tone today, and the close was steady at a net decline of 2 to 9 points.

The market opened steady at a decline of 1 to 2 points in sympathy with easier Liverpool cables. Trading was very quiet during the morning but offerings increased shortly after midday and there seemed to be very little buying power around the ring. December was relatively steady while March and the later months closed about 8 to 9 points net lower.

Details of the proposed cotton loan plan, as published before the opening created rather bearish impression on sentiment. The main factor on the afternoon decline, however, appeared to be the increased southern offerings, and reports of an easier turn in the spot situation.

Table with columns for month (January to October) and price points (low, high, close).

New Orleans Cotton

NEW ORLEANS, Dec. 9.—Cotton fell away under the pressure of hedge selling today, preserving a good tone until late in the session but closing easy at the lowest of the day, a net loss of 8 to 12 points. Some investment buying was noted in the morning, but in the afternoon the market had little support.

The loss of one-sixteenth in local spot prices and of one-eighth at Dallas, where middling was quoted at 6 3/4 and sales of 14,149 bales were reported, created rather an unfavorable impression. In shipping circles it was said exporters were bidding three dollars a hundred pound for cotton room from Gulf ports to Bremen. Locally, two of the largest steamship lines entering this port withdrew freight rates to English ports. This was taken to mean by some that their ships

had already booked full cargoes but by others was thought to mean that a naval battle might be impending.

Foreign exports for the day totalled 24,954 bales, bringing exports for the season up to 1,460,237 bales. Spot cotton quiet; sales on the spot 300; to arrive 1,000.

Cotton futures closing: January 7.04; March 7.18; May 7.37; July 7.57; October 7.82.

Sales 3,000 bales, including 5,300 American and 500 for speculation and export. Receipts 20,233 bales, including 18,843 American.

Futures closed quiet. May-June 4.10; July-August 4.16; October-November 4.26 1-2; January-February 4.31 1-2.

Cotton Seed Oil

NEW YORK, Dec. 9.—Cotton seed oil was higher early on the firmness of crude oil but prices turned easy later under selling by the west and an attempt on the part of refiners to liquidate some of their holdings. Final prices were unchanged or 2 points net higher for leading months. Sales 14,700 barrels.

The market closed steady. Spot 5.85@6.00; December 5.88@5.88; January 5.96@5.98; February 6.07@6.11; March 6.17@6.18; April 6.26@6.29; May 6.37@6.38; June 6.47@6.49; July 6.56@6.58.

Dry Goods

NEW YORK, Dec. 9.—An order for 500,000 yards of wool khaki for army overcoats and suitings for foreign shipment was placed here today. Worsteds were firm. Wool shoddy and coarse wool were active and advancing. Cotton yarns were dull. A general revision in bleached cotton was expected.

Money Market

Chicago Grain

CHICAGO, Dec. 9.—The illness of the German emperor and possibilities of his becoming a factor for peace had much to do today with a decided downturn in wheat. The market closed heavy, 7-8@1 1/2 to 1 1/8 and provisions varying from 5c decline to a rise of 2 1/2.

NEW COUNTY ROADS ARE UNDER CONSIDERATION

COMMISSIONERS CONSIDERING TAKING OVER TWO HIGHWAYS

OTHER MATTERS

Passed Upon at Regular Monthly Meeting—Six Seek Admission to County Honor.

Propositions looking toward the taking over of two new roads by the county, one in the lower section and the other at Pendleton, are under consideration by the board of county commissioners, the matter having been presented to them at their regular monthly meeting Tuesday morning.

One of the new roads begins at Dr. W. G. Witherspoon's mill box and extends in the direction of Brown's Ferry, across Savannah river. The commissioners agreed to accept the road provided the grades are of satisfactory nature. The other road extends from Pendleton to Fant's grove, and in this instance the board decided to accept the highway provided the grades are satisfactory.

The commissioners passed on a large number of claims and the petitions of some six persons who wish admittance to the county home. The county home has at present 55 inmates, which is about the capacity of the institution. As a rule the home has a population of about 40 people.

Mr. King expressed himself as highly pleased with the affairs of the county hospital. The upper porches have been converted into sun parlors by enclosing them with glass. The institution as present has about as many inmates as it can conveniently care for, according to the supervisor.

The annual meeting of the board will be held on Thursday after the first Monday in January.

Orders Departure of British Colliers

PANAMA, Dec. 9.—Colonel Goethals issued instructions today for the immediate departure from Panama of the British colliers Kirnwood and Roddam. That was done to avoid any question of the good faith of the United States over the observance of neutrality.

The incident arose from inquiries made by Sir C. Mallet, the British minister resident, as to whether these colliers would be permitted to coal British warships in waters of the canal zone.

Won't Leave Philadelphia.

PHILADELPHIA, Dec. 9.—"I won't leave Philadelphia," said Connie Mack, of the Philadelphia Athletics, today when his attention was called to a report that he might manage the New York American League baseball team next year. "I am well satisfied here," he added, "and I am laying plans for the 1915 season. I may have to build up a new team but I have done that before."

FIRST AMERICAN TO WEAR GRAND CROSS OF THE LEGION OF HONOR

President of France Bestows Highest Honor of the French Government Upon Myron T. Herrick in Recognition of His Services While Ambassador to France.

(By Associated Press.) NEW YORK, Dec. 9.—The Grand Cross of the Legion of Honor is on its way from the President of France to Myron T. Herrick, in recognition of his services to the French people while ambassador to France. Mr. Herrick was decorated yesterday with a red ribbon emblematic of the cross, by the captain of the steamship Rochambeau, acting on wireless orders from the French ambassador at Washington, who said he was acting under instructions of President Poincaré.

The decoration was pinned upon Mr. Herrick's coat as soon as the steamer reached the French port, and it was all American sovereignty. Announcement of the bestowal of the honor was made today when the Rochambeau docked. The Grand Cross of the Legion of Honor is the highest honor which the French government can bestow. There are, including Mr. Herrick, only 45 living persons throughout the world, who have been thus honored.

A spectacular welcome was given the retiring ambassador and his wife when the vessel docked. The passengers lined the rail and cheered as Mr. and Mrs. Herrick walked down the gangplank; and the cheering was taken up by hundreds of persons who had come to the pier to greet him on behalf of the city, State, nation and the State of Ohio.

Mr. Herrick declined to talk for publication upon his experiences in France.

Mr. Herrick appeared to be annoyed when he heard he had been mentioned for the 1916 Republican presidential

Uncle Dave's Letter

The great fundamental principle of all human law is to command what is right and prohibit what is wrong. All human law, then, as based upon divine law and grows out of it. It is a simple and yet a magnificent conception. The great first cause that some scientists talk about, the great counting energy that holds creation up, about which some philosophers talk, the great supreme intelligence about which others talk, all mean one thing and only one, and that there is one great, supreme, indefinite spiritual personality in the universe the we call God; that he is eminent constantly, just as you and I in our spiritual personalities are eminent constantly and consciously in our entire national bodies, which are builded around our spiritual personalities. That He has a way for things to go! There is only one right way.

They fool the people and, strange to say, the people do not seem to care. The devil hates the church, but he likes the work some high-brows do in it. Were half the power that fills the world with terror, were half the wealth bestowed on camps and courts, Given to redeem the human mind from error, There were no need of arsenals or forts. Advertise. Some of the greatest inventions of history have existed—did exist—but are unknown—things that might have pushed civilization forward by years and years—lost and buried through lack of advertising. Advertise. There's somethin' to be thankful for, no matter how things go. No end to all our blessings, of we only count 'em on.
