

# "TIZ" GLADDENS SORE, TIRED FEET

"TIZ" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters and bunions.

"TIZ" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "TIZ" brings restful foot comfort.

"TIZ" is wonderful for tired, aching, swollen, smarting feet. Your feet just tingle for joy; shoes never hurt or seem tight.

Get a 25 cent box of "TIZ" now from any drugist or department store. Use just twice forever—wear smaller shoes. Keep your feet fresh, sweet and happy.

**Bull Moose Lose Job.**  
The Bull Moose party, in addition to losing its legal standing in several states by reason of the small number of votes cast at the recent elections for the candidates, has lost in the net 12 of its 19 members of the House; and it has also lost the only job it

as a party, ever had. It is the custom for the majority party in the House to allow one special employee to the minority, to be appointed by the minority leader. The minority leader, as is well known, is the man whom it puts up as its candidate for speaker, so that the special employee fills a position analogous, in some respects, to the Speaker's secretary—he is the secretary to the unsuccessful candidate for speaker.

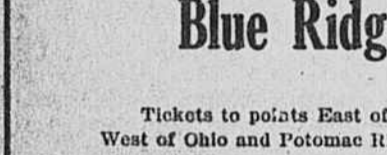

Two years ago, the Republican party was so badly split up by reason of the Bull Moose movement that there were three caucus candidates for speaker, representing the three recognized parties—Clark, Democrat, Murdock, Progressive, and Mann, Republican. Out of the goodness of their hearts, the Democrats allowed Mr. Murdock, the Moose candidate, the usual minority "special employee," at a salary of \$1,800 a year. The pending legislative appropriation bill, however, which was prepared and is under the charge of Representative Johnson of Spartanburg, contains no provision for the special employee to the leader of the Bull Moose party—which is more recently called, by the way, the "bull mouse" party. The membership of the party in the next house will be only 7, and already the Republicans are predicting that there will be only Republicans and Democrats in fact. Mr. Murdock, the Moose leader, will not be in the next congress, having been nominated for the senate by the Kansas Progressives. He was beaten for election by Charles Curtis, the "old line" Republican.

Democrats from Wisconsin. Much interest has been taken in

Washington this week in the appeal of Governor McGovern, of Wisconsin, to the courts of that State to review the election for United States Senator, in which he was, on the face of the returns, beaten by the Democratic candidate, Paul O. Husting. The courts have decided in favor of Mr. Husting, and the matter is ended.

There is some speculation as to just what this means with reference to Senator LaFollette's influence in the State. Senator LaFollette has long been known to be opposed to the millionaire lumberman, "Uncle Ike" Stephenson, as his colleague in the Senate. The anti-LaFollette wing of the Republican party seemed to have the upper hand in Wisconsin this year, but there is some doubt as to whether or not Mr. LaFollette's influence was not largely thrown to Mr. Husting. Certain it is that his enemies, although they secured control of his party in the State, got little out of it, on account of the success of the Democratic candidate for the Senate. It is universally believed in Washington that Mr. LaFollette in 1912 voted for Mr. Wilson. His opposition to both Taft and Roosevelt was well known.

**Jacob Ruppert Pays \$400,000 for a Ball Club**

Jacob Ruppert, Jr., of New York City, one of the richest brewers in the country and for several terms a member of congress as a representative of Tammany Hall, has bought the New York club of the American league for a price somewhere between \$400,000 and \$500,000. The club has been owned since it was organized by Frank Farrell and William S. Devery, former chief of police of New York. They have made some money from it, but the club has never been a big winner, and has been managed so poorly that it failed to be the money maker it might have been. Baseball men feel certain that under the vigorous management of Col. Ruppert a club which would amount to something in big baseball might be built up in New York.

The coffee that mother used to make wasn't really any better than the percolated stimulant of today—but your appetite was more appreciative.

**RUSSIANS TAKE MANY PRISONERS**  
Czar's Men Capture Four Thousand and Austrians Including Staff Officer.

(By Associated Press.)  
PETROGRAD, Dec. 23.—(via London, Dec. 24.) 1:59 a. m.—Russian troops near Fuchow, Galicia, today surprised the 26th Austrian brigade, according to reports received here, and virtually annihilated it with machine gun fire.

During the last two days of fighting in southern Galicia the Russians are reported to have captured 4,000 prisoners, including a major of the general staff and five other officers, besides three heavy guns and seven machine guns. In this region the Russians are said to be moving small detachments through the mountain passes.

The Novoe Vremya's correspondent in the Sochaczew neighborhood, Russian Poland, reports that along a 12-mile front the Russians have packed four regiments of heavy artillery, 150 light field guns and three corps of infantry. The Russians allege that Polish-German sympathizers are using windmills in the vicinity to signal the Germans concerning Russian movements.

**Regrets Necessity of Postponing Celebration**  
LONDON, Dec. 24.—(12:55 a. m.)—Commenting regretfully on the necessity of postponing the celebration of the peace ceremony marking one hundred years of peace between English-speaking nations, the Times today expresses the nation's gratitude to America for material proofs of sympathy and affection and for work done for war victims. The article details a long list of American war charities and adds:

"In all history there has been no work like it. Never before have we received from another people proof so moving of interest and regard. We are not an offensive nation, but the American self sacrifice and warm kindness have sunk deep into our hearts.

"If we can not unite today with our American friends in a great peace celebration we can at least bear testimony to the unparalleled munificence of their charity and the good will they are showing to all, but not least to our allies."

**Congress Adjourns For the Holidays**  
(By Associated Press.)  
WASHINGTON, Dec. 23.—Congress suspended business today and went home for Christmas. Both houses adjourned to meet again Tuesday, December 29.

The holiday recess finds the legislative work well advanced. The constitutional amendment for woman suffrage probably will come up early in January. Several committees will report appropriation bills soon after the recess and house leaders expect to clear up the session's business by March 4.

**Recovers Property Valued at \$100,000**  
(By Associated Press.)  
MINNEAPOLIS, Minn., Dec. 23.—Mrs. Caroline M. King today won her suit against Carleton Hudson, of Chicago, to recover property valued at approximately \$100,000. Federal Judge Amidon, in his decision, characterized Hudson as "a minister of darkness who exhibited all the qualities of a confidence man, a black-maller and loan shark."

Hudson, who posed as a financier, recently was taken from Chicago to New York on a charge of having fled 20 years ago while under a bond of \$1,500 for alleged forgery committed under the name of J. J. Lee.

**U. S. at Threshold of Greatest Prosperity in Many Years**  
European Nations Have Placed Contracts in the United States for More Than \$300,000,000 Worth of Supplies Since the Beginning of the War.

(By Associated Press.)  
NEW YORK, Dec. 23.—European nations have placed contracts in the United States for more than \$300,000,000 worth of supplies since the beginning of the war, according to Charles M. Schwab, president of the Bethlehem Steel Corporation, who returned from England today on the Lusitania. Mr. Schwab declared that as a result of this buying the United States now was at the threshold of the "greatest period of prosperity it has seen in many years."

Mr. Schwab went to England to cancel provisional contracts he had made with the British government for the building of submarines. He did this, he said today, after having been advised by Secretary Bryan that for an American concern to supply submarines to any of the belligerent nations would be a violation of neutrality.

The contracts given up, he said, were worth more than \$15,000,000 but he was unable to secure others while abroad for the supply of various munitions of war. He declined to say with what nation they had been negotiated.

"The next big problem the United States will have to face," said Mr. Schwab, "will be developments of transportation facilities to handle the tremendous increase in manufacturing and commercial enterprises."

"The period of prosperity that I predicted on my last return from Europe is about on us. The contracts placed with American manufacturers by Europe call for delivery within the year, and I look to see a big revival of business in every line."

Mr. Schwab on his previous trip, was a passenger on the Steamship Olympic, when that ship went to the rescue of the dreadnaught Audacious. He declined today to confirm or deny the incident, pleading that he was honor bound not to speak of it.

Asked today if the Audacious did go down, his reply was:

"It certainly did."

**KANSAS CITY, Mo., Dec. 23.**—Figures announced today by the Commercial Club show that five million dollars worth of horses and mules have been marketed through Kansas City to the British government. One manufacturer alone has supplied to the same market half a million pairs of shoes for soldiers. The exports of 52 flour mills in this district have been 21,000 barrels this year compared with 75,000 barrels last year.

**ALLIES' ATTACKS EASILY REPULSED**  
Germans Have Retained All Positions Captured on the Richebourg Canal.

(By Associated Press.)  
BERLIN, Dec. 23.—That the attack launched yesterday by the Allies in Belgium were easily repulsed by the Germans; that the French troops are showing greater activity in the vicinity of Camp de Chalons, and that the French forward movement in the vicinity of Sillarie, Rheims, Souain and Perthes, have been partly repelled, were the features of the announcement issued today by the German headquarters.

The text of the statement follows: "Attacks in the region of Lombardeyde and to the south of Bixchoote have been easily repulsed by us. At Richebourg L'Avoue the English again were driven from their positions yesterday."

"Notwithstanding despite counter attacks we have retained all the positions which we captured from the English on the Richebourg Canal from Aire to La Bassee. Since December 20 750 British and colored soldiers have been captured by us and five machine guns and four mine throwers taken.

"In the neighborhood of Camp Chalons the enemy is showing greater activity.

"Attacks to the north of Sillarie, southeast of Rheims, at Souain and at Perthes have been partly repulsed by us with heavy losses to the French."

"The situation in East and West Prussia is unchanged.

"Battles for possession of the branches of the Bzura River (west of Warsaw) continue.

"The situation on the right bank of the River Pilica remains unchanged."

**Will Reduce Its Rediscount Rates**  
(By Associated Press.)  
RICHMOND, Va., Dec. 23.—The Richmond federal reserve bank, serving the fifth district, will reduce its rediscount rates, the change to be effective on December 25, according to the statement of Governor George Seay tonight. The official announcement will be made tomorrow. The present rate of 5 per cent. for all 30-day paper will be extended to paper maturing in 60 days, while the present rate of 5 1/2 per cent. for 60-day paper will be extended to 90-day paper. Six per cent. will be charged for all rediscounts of more than 90 days. Governor Seay said tonight that the reduction in rates was effected because of the lessening demand for rediscounts on the part of the member banks.

**Atlanta Also in Line**  
ATLANTA, Ga., Dec. 23.—Governor McCord, of the federal reserve bank of the sixth district, here, announced tonight that effective December 25, the rediscount rates of the Atlanta bank would be the same as the new rates of the Richmond bank. These provide for a reduction of one-half of one per cent on the charges for 30 to 60 and 60 to 90 day maturities.

**Clemson Missing From the Schedule**  
(By Associated Press.)  
ATLANTA, Ga., Dec. 23.—Clemson and Sewanee, which have been football opponents of the Georgia School of Technology several seasons, are missing from the 1915 schedule of the local institution, which was announced tonight by Prof. W. N. Randle, chairman of the faculty committee on athletics.

The schedule follows: Games in Atlanta: October 2, Mercer; October 9, Davidson; October 16, Transylvania; October 30, North Carolina; November 6, Alabama; November 13, Georgia; November 25, (Thanksgiving) Auburn.

Games abroad: Louisiana State at New Orleans.

**Capital City News**  
Special to The Intelligencer.  
COLUMBIA, Dec. 23.—The State will meet the interest on the State debt, amounting to about \$130,000 on January 1st, but the State officials and clerks in the various State offices will not get their December salary checks before Christmas this year as has been the custom, said Comptroller Jones this morning. The Comptroller General hates to break the custom but it is made necessary by the lack of funds in the State treasury on account of the closeness of the people in paying taxes.

Only one new enterprise was issued today, that of the Wagon and Buggy Works of Spartanburg with a capital of \$3,000, the petitioners being O. L. Johnson and B. T. Legg.

It is announced in Chester that A. G. Brice, formerly a member of the House and who unsuccessfully opposed Attorney General Peoples last summer, is a candidate for the State senate from that county for the vacancy caused by the death of Senator P. L. Hardin. So far Mr. Brice has no opposition. The date for the election will be set by Lieutenant Governor Smith.

**Announce Schedule**  
PROVIDENCE, R. I., Dec. 23.—The Brown baseball schedule, announced today, includes one game with the University of Virginia at Providence, R. I. on April 30.

**South Carolina's Problem**  
Of 180,000 farmers in South Carolina, 30,000 or 40,000 will be able to take care of themselves in the present period of depression; they will make their farms pay in 1915.

The big problem is presented by the other 140,000, of whom nearly 100,000 are negroes.

The prosperity of 40,000 will not make prosperity for the State—it will not make prosperity for the merchant, the banker, the real estate owner, the carpenter, the painter, the railroad man, the doctor and the newspaper. From only one-fifth of all the improved lands in the State (which are one-third of the whole acreage of the State) it spells continued depression and "hard times," not only for the inept and ignorant farmer but for the business man and mechanic in town, too.

Richland taxpayers can well afford an extra levy to assist Richland farmers who need advice and direction. It would be a profitable investment to put so many farm demonstration agents in the field at this time that every farmer in the county would receive a visit from one of them in each week. So can the other South Carolina counties.

Here are the conditions of the problem to be faced in South Carolina:

About 10 million acres of land are under plow.

Three-fifths, at least, of the farm labor is backward and ignorant, in constant need of direction and instruction.

A present and grim necessity to abandon ONCE the inherited cotton growing habit handed down for more than a century and substitute other crops.

What better investment can the taxpayers make than to contribute generously to enable the ignorant and untalented farmer to make the change in agricultural methods without loss and suffering?

If the property owners and leading business men and thinking men of South Carolina longer shut their eyes to the fact that ignorant labor is a far more ponderous trouble than the European war, then they will deliberately welcome disaster.

**Are Women Bearing More Children Than Ever?**  
In the January Woman's Home Companion Editor M. B. Hall writes an important and interesting article entitled "What Women are Really Doing." She has made a most thorough examination of the Thirteenth Census and she answers with figures many of the false and sensational ideas about women that are circulated. She takes up the subject of women in industry, of marriage, divorce, and child bearing and gives many highly interesting facts. Following is an extract:

"But great that marriages are increasing and that the increase in divorce is neither great nor of direful meaning, the alarmist platform has still another proof that marriage is a failure. The last foothold of the theory is that children are decreasing. Women are not bearing children as they once did."

"It is pretty difficult, even with the best of census figures, to find out just what has happened in the last one hundred years to the population of the United States. It has suffered serious vicissitudes, such as the Civil War, making it impossible to know what was happening in a large section of the country. There has been a gradual but even stress of immigration pouring into it. It has increased in true proportion to the population. The fact that the children are decreasing, the negro and the lower races which has caused the increase. The true American is not increasing. Thus the platform of the Thirteenth Census speaks better of the true American population than any other source. The country has not only increased in population but it has increased in the number of children. It has increased in the number of children since 1870."

"Let us not be misled by the heart does not change. It demands the mate, always has, always will, and the mated mate will in turn demand the child. They can not get by their own heads and their own hands."

"Their children may be born in a cottage, they may be born in a palace and not a single one of them may ever know the difference between the two. The wife may be a slave and the husband may give himself a score of liberties in earlier generations would have frowned on, but what has all that to do with the foundations of life?"
