The many friends of Hon. W. T. Bowen will regret to learn of his sickness. He was confined to his room some days last week, but is recovering. May he soon be himself again.

Twenty-five marriage licenses are on file in Judge Newbery's office, which means that fifty people have married since the first day of July when the law went into effect.

Dr. J. L. Bolt, of Easley, still stands by his Pickens friends. He frequently makes visits in this vicinity to his former patients. The truth is, it's hard for Pickens to give him up.

Miss Mary Swann, of Atlanta, is the guest of the family of Mr. R. A. Bowen. Miss Swann has many friends in Pickens, having taught in the Graded School during the administration of Prof. Dendy.

The names of several who have neither worked nor paid road tax have been handed to the commissioners, and if you wish to prevent an interview with a pretty ugly fellow you will do well to step in and see the treasurer. You know who you are, and do not wait for a face to face notice.

Mr. D. F. Pace has opened a first-class lunch room in connection with his other business in the old Pickens Bank building, where he will serve lunches at all times. This part of the business will be in competent hands, and if you wish a good meal be sure and call on "Dock," and get a square meal on a round table.

Automobile Agency for Pickens.

Folger, Thornley & Co. have closed the agency contract for pickens county for the Mitchell Automobile, and within a few days will have a carload on exhibition at their store. The Automobile is here to stay and is an all-round business and pleasure conveyance, in the use of which travel is almost as inexpensive as the horse and buggy.

For use in the country it is equally adapted, as its ample power and light weight commends it to the farmer, while the same qualities also fit it to encounter without difficulty the worst of roads and hills and such adverse weather conditions as its equipment of top and side curtains renders it always ready for use without preparation.

The Mitchell car is made by the same company that makes the famous Mitchell wagon, which has been sold here for the past ten years and which is, so well known all over this country. They make the best medium priced car on the market today and we bespeak for these gentlemen a good business along this line.

Little Gussie White, son of Mr. and Mrs. J. S. White, died September 9th, after an illness of a few days. He was 4 years old, and a bright child, indeed, who won the love of all who knew him. He bore his sufferings bravely for one of his age. The family have the sympathy of the entire community in their sad bereavement.

This lovely bud so young, so fair,
Called hence by early doom,
Came to show how sweet a flower
In Paradise would bloom.

Ere sin could harm or sorrow fade,
Death came with friendly care
The opening bud to heaven conveyed,
And bade it blossom there.

Opening Day in Pickens.

The fall opening of millinery and dry goods attracted quite a large crowd of ladies last Friday and Saturday. Many from Liberty and Easley and the surrounding country were here. The headgear is something new this time. Instead of being so extremely large, the hats seem to extend upward, many of them having a peaked crown. There seems to prevail a touch of the Wild West among them. Any way, they are the very latest styles and none will make a mistake by purchasing hats in Pickens. The stores were tastefully decorated, the dry goods beautifully displayed, and the merchants smiling and pleasant.

Badly Injured.

Fay, the five-year old daughter of Mr. Hubbard Smith, of Easley, was run over by an automobile late Tuesday afternoon and seriously injured. The machine was being driven by Mr. Warren Smith, of Liberty. Full particulars could not be obtained, but up to the hour of going to press she was in a very serious condition.

The Health of the Town.

The most important thing to any community is health, good health. A place which is sickly will soon lose people. If they do not die they will move away. This town has always been noted for its delightful climate and healthfulness, but at this season of the year unless the sanitary laws are closely observed, sickness may break out and cause trouble. This is not a complaint against our worthy mayor and city officers, but vigilance is the price of good health. It is not known by the present management of this paper what has been done by our authorities to clean up the town, but urge that this feature be not neglected. It is better to put up with poor streets and suffer other inconveniences than to neglect the sanitation of the town.

THE IMPROVED JACK-SNA'PER DISTRIBUTOR
With Grain Drill Attachment.

THIS is the most perfect machine for drilling grain that can be purchased. It is very light, compact, and well balanced. Yet it is simple, strong, and durable. The quality of the work that it does is not equaled by any other machine. The guano and the grain are discharged through separate spouts so that you can tell just how much of each you are using. And you can always see just what you are doing. The guano is distributed by the well known knocking principle. The grain is drilled by an agitator driven by a chain from the wheel. This insures a steady, regular and even drilling of the grain. The Grain Drill Attachment can be taken off or put on in a moment's time. By removing same you have a simple Guano Distributor. You should have one of these tools. It will make your lighter and your crops more abundant.
