

# GALOMEL MAKES YOU SICK, UGH! IT'S MERCURY AND SALIVATES

Straighten Up! Don't Lose a Day's Work! Clean Your Sluggish Liver and Bowels With "Dodson's Liver Tone."

Ugh! Calomel makes you sick. Take a dose of the vile, dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, que, if breath is bad or ur, just try a spoonful of Dodson's Liver Tone.

I guarantee—Go to any dealer and get a 50-cent dose of Dodson's Liver Tone. Take tonight and if it doesn't

straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Shelton says that there are marriages in heaven because there must be some way to distinguish it from the other place.

**To Drive Out Malaria**  
And Build Up The System  
Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents. Adv.

**Quick-Witted.**  
Clerk (run into by somebody in the dark)—Clumsy idiot (perceiving his boss)—that I am!—Boston Transcript.

**Tetterine Cures Ringworm.**  
Wysackling, N. C., June 2, 1908. Enclosed you will find \$1.00 for which please send me at once Tetterine. It is a dead shot on ringworms. W. S. Dudley, Tetterine cures Eczema, Tetter, Ring Worm, Itching Piles, Rough Scaly Patches on the Face, Old Itching Sores, Dandruff, Cankerred Scalp, Bunions, Corns, Chilblains and every form of Scalp and Skin Disease. Father Adam may have had troubles of his own, but at any rate Eve never flashed his old love letters on him.

**Insured Against Loss.**  
No one ever doubts the curative powers of Hanford's Balsam after once using it for external ailments on man or beast. Countless unsolicited testimonials from users of this valuable remedy show what it has done for them, and the manufacturer's guarantee insures your satisfaction or the return of your money. Adv.

Not so many people twang guitars as formerly, but the crop of phonographs is on the increase.

Keep Hanford's Balsam in the stable. Adv.

Don't judge a disinfectant by its smell.

No Profanity.  
"What did he say about the artificial lake in the garden?"  
"Said it wasn't worth a dam."

## Had Pellagra Seven Years Thanks God He's Cured

Cowards, S. C.—David G. Pate, of this place, writes: "I am glad to say to you, after waiting forty days, that I still feel like I am cured of pellagra. I had this disease for the last seven years. The fourth day after beginning your medicine I went back to work and have been able to do my work ever since. I thank God for your remedy."

There is no longer any doubt that pellagra can be cured. Don't delay until it is too late. It is your duty to consult the resourceful Baughn.

The symptoms—hands red like sunburn, skin peeling off, sore mouth, the lips, throat and tongue a flaming red, with much mucus and choking; indigestion and nausea, either diarrhoea or constipation.

There is hope; get Baughn's big Free book on Pellagra and learn about the remedy for Pellagra that has at last been found. Address American Compounding Co., box 2090, Jasper, Ala., remembering money is refunded in any case where the remedy fails to cure.—Adv.

**Too True.**  
"Miss Gladys, do you like automobile speeding?"  
"I think it perfectly killing."

**NOTHING SO EFFECTIVE AS ELIXIR HABEK FOR MALARIA, CHILLS & FEVER.** Chief of Police, J. W. Reynolds, Newport News, Va., says: "It is a pleasure to recommend Habek for Chills and Fever. Have used it when necessary for 20 years and have found no remedy as effective." Elixir Habek 50 cents, all druggists, or by Parcel Post, prepaid, from Kiozewski & Co., Washington, D. C. A Good Move—Habek Liver Pills. 25 cents 50 pills.

Some women make good wives, and some wives make good husbands of what they marry.

It takes at least sixteen summers to make one summer girl.

## THERE IS NEED FOR DUAL-PURPOSE COWS

Pontiac Artis—Holstein-Friesian—Official and Semi-Official Records: Yearly Record, 861.53 Pounds of Fat From 21,834.7 Pounds Milk; Seven-Day Record, Begun Not Less Than Eight Months After Calving (267 Days), 15,331 Pounds of Fat From 400.3 Pounds Milk; Best Thirty-Day Record, 103,548 Pounds Fat From 2,488.5 Pounds Milk; Best Seven-Day Record, 25,369 Pounds Fat From 550 Pounds Milk.

The combination beef and dairy cow has been thus described: A cow that is large, strong and vigorous, full of energy and abounding in vitality; physical organization and digestive capacity such that she is able to turn to the best advantage the roughage of the farm, converting it into merchantable products; that she yields large quantities of most excellent milk fit for any and all uses; that heredity is so firmly established that she is able to perpetuate herself through the production of strong, healthy calves; and that when for any reason her usefulness in the dairy is at an end, she fattens readily and makes excellent beef.

No one will deny the need of a dual purpose dairy breed in America—one that is primarily a dairy breed but that will also furnish desirable beef. The old system of beef production resting on free range, cheap lands and cheap feed is even now a thing of the past. Meats of all kinds are, year by year, advancing in price; and if the working people are to have beef at all within their means, it must come

and that the average cow does not give a return of exceeding \$40 per year for the labor invested and food consumed.

With increasing land values and cost of labor and feed, such a return gives little or no profit; and it is up to the farmer-dairyman keeping average cows to find out why he is working without compensation. If the average dairy herd in the United States produces just enough to induce its owner to keep on working, it is evident that many cows are kept at a loss, and that if the average production could be raised a nice profit would result. It is also evident that the only way to raise the average is to improve the methods of caring for the cattle and also the cattle themselves. By improving the methods, it is quite likely that the better three-fourths of the cows would produce as much profit as all now do, and the one-fourth now kept at a dead loss might be sent to the block without decreasing the output of dairy products. The man who milks cows merely for the pleasure he gets out of it, provided he can afford it, may confer a favor on humanity, but does not show good judgment, and the sooner such men can be induced to change their methods the better it will be for the whole dairy industry.

Improvement in conditions is necessarily slow. The greater part of the owners are lethargic; but there is always a progressive portion that is looking for better things, and this portion will in time leave the whole mass. The main cause of this lethargy is ignorance. Few men would keep unprofitable cows if they knew which were kept at a loss; but they do not test the cows individually and so cannot know.

All progress in dairy husbandry, aside from improved methods of caring for the cattle, must depend upon improvement by selection and by breeding. By selection of the best cows, and breeding to the sons of best cows, in time a great improvement would be shown; but this process is too slow when there is a quicker way. That quicker way is to make use of the improved dairy breeds for the obtaining of bulls with which to mate the selected cows. An improved breed is one that is able to convert food into valuable products more profitably than could the breed or breeds from which it was derived. Also it must be so thoroughly established that it will breed true. The breed which should be carefully bred to is the one that excels in the profitable production of milk, butter, cheese and veal, and also beef production.

Produce of a Prize Winner.

from the dairy herds of the country. Except for beef for the few who are able to pay very high prices, cows can no longer be kept merely for the calves produced; practically everywhere the dairy cow must take the place of the beef cow. Since these facts are indisputable, farmer-dairyman seeking to improve their herds for dairy purposes should keep the item of meat production constantly in mind.

How many cows there are in the United States that are kept for milk production, except for such figures as are found in the census tables, is unknown; but it may be safely stated that the number exceeds 20,000,000.

## MARKETING THE PEACH CROP

One successful Way is in Car Lots and That Means Co-operatively—Some Essential Hints.

(By W. H. WICKES, Arkansas Experiment Station.)

For conditions where the markets are comparatively distant there is just one way to market peaches successfully on a commercial scale, and that is in car lots. This generally means co-operatively, as few growers have enough of any one variety to make up a car lot themselves. Growers in the same community should plant the same variety in order that they may ripen at the same date. It is almost impossible for a peach grower to live by himself. Therefore do not expect to go into a community, no matter how well the soil and climate are adapted to the cultivation of peaches, and expect to make a success of five or ten acres of peaches unless you have a good local market. Better get a few neighbors to go in with you and plant a few acres and market co-operatively. Form a co-operative association and, if possible, affiliate with a larger central market agency.

As for peaches, the trade uses the bushel basket and the six-basket crate. Nearly all the markets prefer the bushel basket, and there it is, in most cases, the more desirable package.

Proper picking, grading and packing are essential features in peach marketing.

**Fresh Water for Cows.**  
Fresh, clean water is particularly important during hot weather and a fresh supply should be given the cows at least three times a day.

## SEPARATOR IS QUITE USEFUL

To Secure Last Cent of Profit Out of Dairy One Must Take Every Precaution to Get Most Milk.

The modern dairy is very different from the dairy of the old time, and to get the last cent of profit out of your labor, and out of your cow, you must take every precaution for securing the largest quantity of milk and for getting from that milk the largest quantity of butter and cream.

One way is to get a separator and then to learn how to use the separator. Then you must study the food problem. You must keep an account with every cow. If you have three or five or ten, do not average the production of milk. Keep a separate account with each cow and find out whether each cow is producing enough to justify you in feeding it and caring for it. This is the foundation of success in the dairy.

## PROPER ROOSTS FOR CHICKS

Always Use Flat Pieces About Three Inches Wide—Allow Plenty of Room for Them to Grow.

Do not give the growing chicks any opportunity to roost upon the cross studdings. If such are used in the construction of the house cover them with a slanting piece of wood which makes it almost impossible for them to perch on.

The roosts should also not be round, as such roosts are apt to cause crooked breast bones. Always use flat roosts about three inches wide and of sufficient capacity to accommodate the number of chicks comfortably, allowing plenty of room for them to grow.

**The General Says:**  
Know why and know-how are essential to any success. Every one of us has to acknowledge that the same sort of military preparedness that fits a nation for its defense is the most effective principle in making an industry of any kind serviceable and profitable both to manufacturer and consumer.

**This Great Roofing Organization Is Trained Like an Army**  
Three enormous mills—offered and manned by the best trained force ever enlisted in an industrial army—three huge factories that are run like clockwork. Military exactness in the securing and selection of raw material, and in every step from then on until the finished product is distributed and sold.

Constant readiness—being prepared every minute for the work to be done the next—Right there you have your finger on the great, essential reasons for the unflinching satisfaction every user finds in

# Certain-teed

## ROOFING

This roofing certainly has no superior. It is the best roofing that can possibly be made and it is manufactured in and guaranteed by the largest Roofing and Building Paper Mills in the World. 1-ply is guaranteed 5 years; 2-ply, 10 years, and 3-ply, 15 years, and this guarantee means the minimum life of the roofing. Thousands of *Certain-teed* Roofs all over the country are outliving the period of the guarantee.

When the General first entered the field the cost of roofing was two or three times more than it is today and the quality was not as high as *Certain-teed* is today. By reason of his enormous output the General has not only been able to bring down the cost and selling price of roofing, but he has also been able to raise the quality to its maximum. Today every fifth roll of roofing sold bears the *Certain-teed* label.

*Certain-teed* roofing, shingles, wall boards, felts, building papers, etc., bearing the General's name, are sold by your local lumber or hardware dealer at very reasonable prices. Don't send your money away for these goods. Patronize your home dealer.

**Results.**  
Employer—I'll hire you on one condition. You must get results.  
New Office Boy—Say, I'll get them and the batteries and the hits and the errors within half an hour after every game.—Judge.

**CUTICURA SHAVING**  
Is Up-to-Date Shaving for Sensitive Skins. Trial Free.

Prepare razor. Dip brush in hot water and rub it on Cuticura Soap held in palm of hand. Then make lather on face and rub in for a moment with fingers. Make second lathering and shave. Rub bit of Cuticura Ointment over shaven parts (and on scalp if any dandruff or itching) and wash off with Cuticura Soap and hot water, shampooing same time. One soap for all—shaving, shampooing, bathing and toilet. It's velvet for sensitive skins. No slimy mug. No germs. No waste of time or money. Free sample each, if you wish. Address postcard, "Cuticura, Dept. XY, Boston." Sold everywhere.—Adv.

**Behind the Times.**  
Mrs. Knicker—Are they old-fashioned?  
Mrs. Backer—Very; they have boiled shirts and fried steak.

**Important to Mothers**  
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Chas. H. Fletcher* In Use For Over 30 Years. Children Cry for Fletcher's Castoria

**A Heroine.**  
Ray—Have you heard of my engagement?  
Ray—No—er—who's the plucky girl?

To cool burns use Hanford's Balsam. Adv.

Looks Down on Common Folk.  
"That aviator is quite uppish."  
"Considers himself one of the aristocracy, I suppose."

We know of no liniment that equals Hanford's Balsam in its healing properties. Adv.

Explained.  
"I hate to serve on juries."  
"So do I. It is such a trying duty."

If all you need is an opportunity, get busy and make one.

**Paxtine**  
A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ills, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At druggists, 50c large box or by mail, sample free. The Faxon Toilet Co., Boston, Mass.
