PICKENS SOUTH CAROLINA

\$88,000

is Pickens county's quota in this drive for War Savings Stamps. South Carolina is at the bottom of the list in purchase of them.

We can't stay at the bottom. Let's go get 'em!

When we purchase \$88,000 worth it will be that much saved.

Everybody must do their part. Come in and let us explain.

LOCAL AND PERSONAL

Miss Sunie Gibson is on a visit to her brother, John Ed Gibson in Philadelphia.

Charlie Curtis, of Jamison, Orangeburg county, visited friends in Pickens this week.

Married by J. B. Newbery at his office, June 10th 1918, Miss Viola Hodge and W M Kennedy of Liberty.

Secretary of War Baker announced Monday that there are more than 700,000 American soldiers in France.

Harry Robinson, son of Mr. and Mrs. C. E. Robinson of Pickens, is very sick with pneumonia at the Greenville hospital.

Dr. T. A. Seawright of Pickens has been appointed district deputy of Coosaw Tribe No. 83, Improved Order of Red Men.

Messrs. T. L. Bivens, Ernest Felger, L. C. Thornley and J. E. Boggs are spending this week at Thornley's camp in the mountains, trout fishing.

Dr. F. S. Porter attended a meeting of the state council of defense at Columbia last Thursday. He is Pickens county's member of this body.

Bennett Powers spent several days of last week with his family in Pickens recuperating from an attack of measles. He is a flagman on the Southern R. R. with headquarters in Atlanta.

County treasurer O. T. Hinton has sold his home with six acres of land to F. H. Hopkins for a consideration of \$3,750. Mr. and Mrs. Hopkins expect to move into their new home about the first of August.

Word received from Louie Thornley, who is in the navy hospital at Portsmouth, Va., suffering from pleurisy, states that he is getting along as well as could be expected. His father and mother have recently been at his bedside.

Nearly everybody in Pickens were looking at the eclipse of the sun thru smoked glasses last Saturday. The eclipse commenced exactly on schedule time, 6:28 p. m. and was nearly total. As an eclipse we would pronounce it a "success."

Miss Marie Freeman carried the mail on Pickens route 2 several times for her father last week. She is regular substitute on this route, but this is the first time a lady has ever delivered mail on a Pickens route. She makes a good one.

J. Alonzo Brown of Catechee announces this week that he is a candidate for probate judge of Pickens county. He is no stranger to our people, but is known thruout the county. He was in the race four years ago and received a handsome vote.

R. H. Julian of the U. S. navy visited his brother, J. W. Julian, in Pickens this week. Mr. Julian has made several trips across the ocean conveying troops and seen several submarines. He says he saw one submarine sunk by a U. S. destroyer.

James P. Carey, Jr., of Pickens is seriously considering entering the race for congress from this district. He states that much pressure has been brought to bear upon him to enter the race and he will make his decision in a few days. If he does decide to run he will make it lively for his opponents.

The announcement of G. Wash Bowen for probate judge of Pickens county was received too late last week for local mention, but it really needs no other mention than the announcement, as Mr. Bowen is so well known to our people. He has served this county most acceptably as commissioner for several terms.

A. L. Mills, who was drowned in Laurel park lake near Hendersonville Sunday, was well known in Pickens and he one time owned the Ellis place near the camp ground. Mr. Mills was a prominent Greenville banker and was trying to save a man from drowning when he lost his life. The man he was trying to save was also drowned.

The Pickens graded school closed its 1917-18 session with the exercises held in the auditorium Monday night. The program published in The Sentinel last week was carried out most successfully, each number being greatly enjoyed by the large audience present. Dr. D. M. Ramsay delivered an address of much beauty and power and of great worth to all who heard it. The commencement sermon was preached in the Methodist church Sunday morning by Rev. Mr. DuBose, pastor of Easley Presbyterian church. It was a wonderfully good and practical sermon and eagerly listened to by an exceedingly large congregation.

Millers' Certificates

The Sentinel office has a small supply of Millers' Certificates in stock which are being sold at 40c per hundred.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. Sold by Dr. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 76c. Hall's Family Pills for constipation.

If you want to insure your crop against loss by hail, see W. L. Matheny or Frank McFall at Pickens. They have an attractive proposition for good farmers.

Send the home paper to that boy of yours in France. Several Sentinels now go to France every week. There is nothing else the boys over there would rather have than news from home—a letter first, the home paper next.

Local News Items From Central Town

Rev. Eugene Pendleton preached the Baccalaureate sermon last Sunday night at the high school here. His subject was "Unity Out of Diversity."

Mr. Ralph Ramseur and wife and M. M. Richey motored to Greenville last Sunday afternoon.

Edgar Martin of Camp Sevier visited his parents Mr. and Mrs. Monroe Martin here for the week-end.

Mrs. J. W. Hopkins and little daughter Ruth, attended the commencement at Limestone College recently held at Gaffney where her daughter, Miss Greta graduated.

Dr. J. D. Bearden has remodeled his Ford. Now it has the appearance of a "racer."

Henry Rowland was off of the road Sunday, spending the week-end with his parents Mr. and Mrs. C. G. Rowland.

There was a call meeting of the quarterly conference of this charge at Lawrence Chapel last Sunday for the purpose of electing delegates to the district conference.

The club roll book of the Democratic party is now open at Central Mercantile Co. Be sure to get your name on the roll if you want to vote.

W. T. Earle says to side-dress cotton with his guano is cheaper than labor. Mr. Earle ought to know—I think he is trying both.

S. W. Clayton and Ben Leigh of Camp Sevier visited the former's parents here for the week-end.

Paul Clayton has not expressed himself yet as to just what he will do when school is out here.

No one appreciates the man now who talks against this government. The Town Council here recently received posters from the authorities to be put up in town informing every one what the end will be if he feels he must fight the administration.

Mr. J. E. Bridges our J. of P. has recently purchased himself a Ford.

Mayor J. H. Ramseur is in New York for a few days on business.

You can get The Sentinel 8 months for \$1.00.

Littleton College

Has just closed one of the most successful years in its history. The 37th annual session will begin Sept. 25th.

Write for new illustrated catalogue, also and QUICKLY for particulars concerning our special offer to a few girls who can not pay our catalogue rate. Address J. M. Rhodes, Littleton, N. C.

FERTILIZER

We will have about 1,500 tons of 10-5-0, about 1,500 tons of 15 per cent acid and about 150 tons of meal for sale

This 10-5-0 is a corking good goods to side-dress cotton and corn and to use under corn in the first planting. Sixteen per cent acid can be used and is used advantageously under corn planted after stubble and under bottom corn, and cotton seed meal gives a good account of itself anywhere and besides 150 tons is hardly enough meal for the cows, let alone using any for fertilizers. And then we have soda which can be used along as is thought best. An early stand of cotton seems assured this year and if farmers can get their cotton thinned out and cleaned out and the second application of fertilizer (this 10-5-0) applied by June 15th it will pay handsomely to make this second application. We do not advocate making the second application late. We believe a great deal of money has been badly spent in buying fertilizer for late applications. It makes more stalk and leaves and bolls, but the bolls don't open—especially if there is an early fall. Second applications of fertilizer to cotton made before the 15th of June pay well. From what we can gather there promises to be a considerable demand for fertilizer a little later for second applications for cotton and corn, so we have adopted the miller's rule: "First come, first served." We will not contract to sell more than we can make and deliver. So place your orders early.

If there is too much ammonia in the fertilizer used in making your second application to your cotton, it will make the weed grow too fast to fruit properly, just as too much rain will give you all the stalk you are looking for, but the stalk will grow too fast to fruit as it should. This 10-5-0 goods we are manufacturing has the ammonia and the phosphoric acid in the right proportion to make plant food to furnish fruit with the weed. It is an ideal fertilizer for the second application and should be applied just as soon as you get your cotton thinned out and cleaned out. You want to feed your crop along as it grows just as you feed your mules as they work. You don't feed your mules enough Monday morning to last them until Saturday night. And you should not think of trying to feed them enough in April to last until October. And that is just what you are doing with your cotton. Along in July and August, when your cotton is fruiting and needing food worse than at any time in its life, when the strain on it is greatest, the food supply is greatly weakened and growing weaker every day, the result is your cotton "sheds." If it were properly supplied with plant food it would not shed.
