Many Furs Shipped from S. C.

State taxes on furs and hides during the past trapping season amounted to \$15,492.80, according to statistics made public by A. A. Richardson, chief game warden.

"Very few people in the State," Mr. Richardson said, "realize the number of skins from fur-bearing animals shipped beyond the limits of the State each year.

"Our records show that during the past trapping season were shipped from South Carolina:

"442 otter or red fox skins.

"51,065 raccoon, grey fox or mink skins.

"86 skunk skins.

"43,969 opossum or muskrat skins.

"Those furs were bought by Northern and Western fur houses, and the tax paid on same totaled \$15,492.80— one half of which goes to the schools of the State, as does also one-half the hunting license money, and the other half is used for the enforcement of the law.—The State.

Editor and General Manager WILL ROGERS

The Hero of the War

Ever since the War was over Nations have been arguing over "Who won it." And if the discussion is not stopped we may have to have another War just to decide who won the last one. If we ever do go into another War, have it understood there is to be a Referee, and at the finish he is to announce "Who Won and how much." In the last War we paid Transportation both ways and rental on the grounds, and now all England and France say is, "We didn't get there soon enough." Germany dont seem to ever have uttered any complaint on the lateness of our arrival, so that just shows you, you cant please everybody, even for Humanity's sake. I must bring the word "Bull" Durham in this even if I have to drag it in by the horns. It just struck me, and after careful examination of complaints and statistics, I find that "Bull" Durham was the only thing connected with America during the War that France and England havent been able to criticise. It must be good.

P.S. There is going to be another piece in this paper soon. Look for it.

SIXTY-FIVE YEARS AGO!

In 1860 a blend of tobacco was born—"Bull" Durham. On quality alone it has won recognition wherever tobacco is known. It still offers the public this—more flavor, more enjoyment and a lot more money left at the end of a week's smoking.
