B. P. DAVIES, Editor and Proprietor.

THURSDAY, JULY 16TH, 1925.

SUBSCRIPTION RATES:

One Year \$1.50 Six Months .90 Three Months .50 (Strictly in Advance.)

A Wise Selection.

The People-Sentinel wishes to congratulate the South Carolina Press Association upon its selection of Robert Lathan, editor of the News and Courier, as president of the organization.

We extend him our very best wishes for a successful administration of the duties of his office.

Savannah Is Awakening.

Savannah is awakening to the trade possibilities of this section of South Carolina and is making strenuous efforts to corral the patronage that has been going to Columbia and Augusta.

Next Monday two scout cars will leave the Georgia city to "log" a route through this section that will be travelled by a party of 100 Savannah business men early in September.

This week a water carnival is being held in Savannah in connection with the opening of the splendid new bridge across the Savannah River which will probably attract thousands of visitors.

Columbia and Augusta are sleeping on their rights in view of the fact that each have splendid new highways leading from this section and also have the advantage over Savannah in the matter of distance.

Welcome, General Prosperity.

Barnwell and Barnwell County are coming into its own again!

Early in the Spring, an excellent crop of asparagus netted good prices.

A short time later, a fine yield of cucumbers brought thousands of dollars into the county.

Today, cantaloupes and watermelons occupy the center of the stage, the latter especially playing a leading part in that all-star production, "The Return of Prosperity."

In the very near future, the farmers of the county will begin to harvest what promises to be the largest crop of cotton in many years, provided they are blessed for the next few weeks with the most favorable seasons that they have been enjoying and the boll weevil does not take too large a toll.

Gone (we hope forever) are the long faces and dismal wails of hard times, to be replaced by the smile that won't come off and the hope of an abundant and abiding prosperity.

As a local business man expressed the situation this week, the farmers are drunk with prosperity and are deaf to the siren-call of boom-mad Florida.

General Prosperity, in behalf of the citizens of Barnwell County, we extend you the glad hand of welcome and express the hearty wish that you will now make this section your permanent abode!

Colossal Ignorance.

"When it comes to the question of knowing whether there is a God, I am ignorant. . . . I have no opinion one way or the other." Clarence S. Darrow, Chicago lawyer, savior of Leopold and Loeb and volunteer defender of Prof. John T. Scopes, alleged violator of the Tennessee law against the teaching of evolution in the public schools, is quoted as saying.

Ignorant of the existence of God Almighty! And he made in His image! Shades of the chimpanzee and baboon! Why, the monkeys themselves would disclaim kinship with such a being if they could learn of such ignorance!

Ignorant of the existence of God! To what, may we ask, does Clarence S. Darrow attribute his existence? To what does he attribute the sun and the moon and the stars? The thunderbolt and the cyclone? The perfume of the flowers and the verdant green of the trees? The beasts of the field and the fowls of the air and the fishes of the sea?

Ignorant of the existence of God! Unlike Ingersoll, he does not deny

His existence—he merely pleads ignorance. But, mark well this prediction, like Ingersoll in his last hour on earth, Clarence S. Darrow, by his own confession the most ignorant man in the world, will cry out to that God of Whom he is now ignorant to save him from eternal damnation!

Thank God for that simple, child-like faith in a Supreme Being that is the bulwark of Christianity in this sin-soaked, jazz-crazed world of ours!

An Advertising Record.

(Ed. Note.—The following editorial was written for last week's issue of The People-Sentinel, but was crowded out by advertising:)

July is considered one of the duller months in the year in newspaper offices. There is usually a decided shrinkage in advertising and job work patronage. Why this should be so is hard to explain, as people must eat and dress in the summer as well as in winter. In fact, the contention is made that we wear more clothes during the hot months than in cold weather for the reason that we change our clothing oftener. Be that as it may, The People-Sentinel last week contained MORE paid advertising than has ever been published before in any newspaper in Barnwell County in a July issue.

That record would seem to indicate that people appreciate the value of advertising in The People-Sentinel, with its circulation several times as large as that of any other newspaper in Barnwell County. We are proud of that record and take this opportunity to thank our many friends and customers for the generous support that has made it possible.

And while we are "blowing our own horn," we might say that we have received scores of compliments during the past few weeks on the excellent paper that is being published. We appreciate these bouquets and enjoy a pardonable pride in publishing what our friends so kindly term "the best weekly paper in the State." Hardly that, perhaps, as there are many able minds directing the editorial policies of South Carolina's weekly press, but we thank them just the same for their generous approval and will try at all times to merit their "well done." Readers of this paper, however, find that from week to week there are many news items of county-wide interest that appear in no other newspaper in Barnwell County. It takes that to create reader-interest. Reader-interest creates circulation, circulation creates more advertising, and more advertising makes possible a better newspaper. There we have the circle—but it is not a "vicious" one, if you please.

We believe that advertisers find this a better medium by which to reach their prospective customers for the following reasons:

The People-Sentinel offers a circulation greatly in excess of that of any other newspaper published in Barnwell County.

Our advertising rates are LOWER per hundred of circulation than those of any other newspaper published in Barnwell County.

It is the official newspaper of Barnwell County. It is all-home print, live, newsy and well printed.

It is "Barnwell County's Best and Most Popular Newspaper" because everybody says it and circulation proves it.

Mr. J. S. Plexico, of Kline, renewed his subscription to the People-Sentinel while in the city Wednesday.

Mr. and Mrs. G. Norman Snelling left this week for Hendersonville, after a pleasant visit to the former's parents, Judge and Mrs. J. K. Snelling. Mrs. Snelling will also visit them in Atlanta before returning home.

Health and Home

CARE OF CONVALESCENT IN SUMMER

For those who are just recovering from a serious illness the problem of food is a serious one. The patient, though well on the road to recovery, is usually weakened by the rigors of disease and the excessive heat is wont to sap his energy. Hence, the foods that are consumed during this period should be considered carefully as to digestibility, food value, ease of assimilation, purity and sterility. These are important in any food but especially so when the consumer is not strong and healthy.

In most cases, the one who is convalescing consumes milk in large quantities. This food contains all of the elements that are essential to the body. If milk is pure and germless, it is easily digested and assimilated.

Where the milk supply is uncertain or the quality not of the best, evaporated milk should be employed. It is sterile; it is just pure milk with about sixty per cent of the water removed. Its double richness may be modified, if desired, by the addition of water or it may be used just as it is, where rich, creamy dishes are desired.

Many people make the mistake of confusing evaporated milk with condensed milk. They are not at all similar in appearance, composition or taste. They cannot be used for the same purposes; condensed milk is a combination of sugar and milk; evaporated milk has no added sugar, being pure milk of double-rich quality and food value.

Following are recipes of easily prepared dishes and foods that are well suited for the invalid and the convalescent.

Loganberry Cream.

- 1/2 cup evaporated milk 1/2 cup loganberry juice 1/2 cup water 2 tbsp. lemon juice Pinch salt

Put all ingredients in a Mason fruit jar, and shake thoroughly. Chill and serve in glasses filled 3/4 full of ice chips. Raspberry, blackberry, and cherry juice may be used instead of the loganberry.

Iced Cocoa.

- 3 tsp. cocoa 1/2 cup sugar milk diluted with 1/2 cup water with Pinch salt 1/2 cup water 1/2 cup evaporated 1/2 tsp. vanilla

Mix cocoa and sugar thoroughly and add the 1/2 cup water and boil over a low flame for 15 minutes. Scald the diluted milk and add cocoa syrup and salt. Continue cooking for 15 minutes in double boiler. Add vanilla. Chill and serve with whipped cream.

Seeing Christ in Men

St. Vincent de Paul made it a rule of his life to be always looking for the Christ in every man he saw or met. When that is a master-thought in anyone, in that person all men see Christ.—Dr. R. F. Horton.

Our Destiny

We make our destiny by our thinking, and the only determinism in nature is furnished by the verdict of the mind. The course of history is the course of thought.—Harold Begbie.

Wonderland Is Located

There has been much speculation as to the location of the ancient kingdom of Thule, described by the Greek traveler and astronomer, Pytheas, as "the wonder country on the edge of the earth." Norwegian scholars now claim they have solved the age-old mystery and located Thule in the northern part of Norway.

In his book, "The World's Ocean," Pytheas says: "The barbarians pointed out to me the place where the sun goes to rest for the night. It so happened in that wonderful country that the night was very short, only two hours."
