CORN GROWERS WILL STAGE KEEN CONTEST

Savannah, Ga. — Notwithstanding some sections of the state suffered a drought during the summer season, there was lots of fine corn produced in Georgia this year, and many of these specimens will be seen at the sixth annual State Fair. They will be entered in competition for the premiums offered to encourage greater activity in corn growing. The collection is expected to be an evidence of much improvement since the 1924 show, when wonderful progress was noted.

A swimming party was greatly enjoyed by several families at Sweet Water Saturday.

Frequent Bilious Attacks

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief. A neighbor told me of

BLACK-DRAUGHT

Liver Medicine

and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep, and could do twice the work."

Bilious attacks are "seasonal" with many people. Millions have taken Thedford's Black-Draught to ward off such attacks, and the good results they have reported should induce you to try it.
