

ARTHUR BRISBANE WILL WRITE FOR THIS PAPER

Arthur Brisbane, the highest paid editorial writer in the United States, will be a regular contributor to The People-Sentinel. A contract has just been completed whereby his column, "This Week," will appear regularly in this paper. This is one of the biggest features that any weekly newspaper can offer its readers, but in addition to the Brisbane column, beginning this week, The People-Sentinel will also offer its readers a cartoon by A. B. Chapin one of the best cartoonists in the country; a comic strip, "Folks in our town," by Edward McCullough, another cartoonist of note; a poem by "Uncle John"; late news pictures of important happenings and of people in the limelight; late news stories, and several other features—by special writers.

All of the above is in addition to the large amount of local and county news that is gathered every week for readers of The People-Sentinel. Many of these items of county-wide importance appear in no other paper in this section until a week later.

Made Possible by "Autocaster." These important features, the first of which make their appearance this week, are made possible by a contract with the "Autocaster News Service," of New York. They come in matrix form to this office, where they are cast into printing plates by means of a special casting box.

Big Help to Advertisers. The installation of a stereotyping plant is a big help to advertisers in The People-Sentinel and is a service that, so far as is known, is offered in Barnwell County by this paper alone. For example, an advertiser may have a "mat" of an advertisement he wishes published. Heretofore, it has been worthless unless it was sent to another city to be cast, with the consequent delay and expense. It is now possible to have the cut cast right here in Barnwell without any delay or expense.

Isn't that a service worthwhile? And isn't it proof conclusive that The People-Sentinel is one of the leading weekly newspapers in South Carolina? Doesn't it show that the publisher is abreast with the times and is constantly striving to give his readers a newspaper and a service that is second to none in the State? No Increase in Price. And all without one penny's increase in the subscription price! A big, newsy, eight to ten-page all home print newspaper, filled with live local and county news, special articles, news pictures and many other features at only \$1.50 a year! Where else can you spend that amount to better advantage?

And readers of The People-Sentinel may rest assured of this fact: As means present themselves for improving the paper, they will be adopted. What more can you ask? Mr. W. T. Aycock, of Bennettsville, is in the city this week.

HOME BANK OF BARNWELL

Celebrates Fourth Birthday.

Master Solomon Blatt, Jr., son of Mr. and Mrs. Solomon Blatt, of this city, celebrated his fourth birthday anniversary Thursday afternoon of last week by entertaining a number of his little friends. During the afternoon delightful refreshments were served.

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

OUR INVISIBLE FOES.

A happy state of mind is that in which we believe that we haven't an enemy in the world. There may be good reason for not distributing such serenity. But there are, in fact, millions of deadly foes about us, invisible, unrecognized, until it is forever too late in many instances to check their depredations.

The invisible foe is ever a menace to life. We may combat the known enemy—or, if he is too big for us, we may beat a retreat; but the thug in the alley, reasons that dead men tell no tales. It is the concealed weapon that does the harm. The deadly submarine is an invisible foe, terrible in action, and yet the microscopic germ kills more!

It is my purpose in this series of articles, to discuss "our invisible foes" from the standpoint of one who has been for thirty-three years an active clinician, and who is still so, engaged in the honorable effort to keep men and women fit, believing that life may be prolonged, and the world be made better thereby.

It would be an eminently wise measure if our Public School Boards would add the subject of bacteriology to the course of study, providing at least a working knowledge of the subject, which would enable the student to defend himself against many of the active foes of comfort and health, which continually beset him.

If you, dear reader of this paper, are interested in health and its consequent longer and happier life, for yourself and family, we shall try earnestly to contribute thereto, by kindly advice gleaned from the field of experience.

NEXT WEEK: WHERE FIRST TO FORTIFY FOR HEALTH

CITATION NOTICE.

State of South Carolina, County of Barnwell. By John K. Snelling, Esq., Probate Judge.

WHEREAS, John K. Snelling made suit to me to grant John H. Doe letters of administration of the estate of and effects of Greene Pollock, Sr. THESE ARE, THEREFORE, to cite and admonish all and singular the kindred and creditors of the said Greene Pollock, Sr., deceased, that they be and appear before me, in the court of Probate, to be held at Barnwell, on Saturday, September 5th, next, after publication thereof, at 11 o'clock in the forenoon, to show cause, if any they have, why the said administration should not be granted.

Given under my hand this 24th day of August, A. D. 1925. JOHN K. SNELLING, Judge of Probate. Published on the 27th day of August, 1925, in The Barnwell People-Sentinel.

The Mark of Quality

25 Years of Firestone Service

to Highway Transportation

25 years of anticipating the requirements of motorists—making manufacturing processes more certain—producing a higher standard of quality—25 years of unswerving adherence to the Firestone pledge, "Most Miles per Dollar"—summarizes Firestone's record of service to car owners. Firestone factories have grown from a small building approximately 75 x 150 feet to mammoth plants having floor area of over 60 acres—from a capital of \$50,000 to over \$50,000,000—from an annual sales volume of \$100,000 to over \$100,000,000—all in the short period of 25 years.

This Firestone record could only have been made through furnishing the public with outstanding values and is, consequently, your assurance of quality and lowest prices. If you would like to know more of this wonderful record, ask your Firestone dealer to send you an illustrated folder. With today's high cost of crude rubber and other raw materials, Firestone's opportunity to serve the public was never better, due to its great volume and special advantages in buying, manufacturing and distribution.
