

## NEW SUPERINTENDENT IS PLEASED WITH PROSPECT

FINDS EXCELLENT SPIRIT OF CO-OPERATION.

All Signs Point to Heavy Enrollment.  
Pupils Urged to Purchase Books This Week.—List Published.

The 1925-26 session of the Barnwell school will begin Monday, Sept. 7th, at ten o'clock. Every effort is being made to make this the most successful year in the history of the school. A very competent and, with few exceptions, an experienced corps of teachers has been secured. All the teachers will be here, Saturday, the 5th, for the first teachers' meeting that afternoon. Prof. Fowler has already moved here and begun preparations for the session and the opening day. He expresses himself as being well pleased with the prospects for the session, with the corps of teachers, secured and with the excellent school spirit of the town and the fine spirit of helpfulness and co-operation found among the patrons and citizens of Barnwell.

All signs point to a heavy enrollment. Mr. Fowler makes the special request that every pupil possible be present on the opening day with the necessary books, pencils and paper ready to begin work. He also asks that each patron get acquainted with all of the teachers as soon as possible, especially all the teachers of the grades in which they have children. This does not mean merely to meet them but it means to really know them in order that there may be the feeling of mutual freedom from restraint in each others presence, so that there may be complete understanding of the problems of each child and the fullest co-operation between parent and teacher in the solution of these problems.

A list of the books to be used is published for the information and convenience of the patrons.

Pupils beginning this year will not get their books until told to do so by the first grade teacher.

All pupils who have promotion cards or who are sure as to the grade in which they will be are requested to get their books and bring them to school on the first day. Assignments for regular recitation on Tuesday will be made Monday.

Getting the books this week before school opens will save unnecessary confusion and rush for the pupils, parents, teachers and those who handle the books. It will also eliminate delay in getting the pupils started into regular work.

Miss Lena Cave, who is to handle the school-books, has the list of books for each grade and will check each list in order to prevent mistakes and duplications. Parents and pupils are requested to examine the list carefully and check with the books used last year, in order to avoid duplications by buying copies of books not completed last year and used again this session.

The books are in stock at the city hall, in the Harrison building. Do your book buying early and avoid the rush.

It is understood that there are a few pupils who failed in some studies last session who have studied during the summer to make up these deficiencies in last session's work. An examination will be given for such pupils on Tuesday, which, if passed, will entitle the pupil to promotion on trial for one month. If the pupil gives evidence during this month of being able to keep up with the higher grade, the promotion will be made permanent. If the pupil does not do work that entitles him to a place in the higher grade he will be sent back to the lower grade at the end of the month. No pupil who has not been promoted and who does not pass these examinations will be permitted to enter a higher grade than he was in last session.

Those pupils who expect to take these examinations are requested to register their names, grade and examination with the superintendent before school opens.

List of books for Barnwell school:  
FIRST GRADE—Child's World Primer and First Reader. Practical Writing Manual No. 1. Practical Drawing Manual No. 1.

SECOND GRADE—Child's World Second Reader. Arnold's Mastery of Words Book I. Morey—Little Folk's Number Book. Practical Writing Manual No. 2. Practical Drawing Manual No. 2.

THIRD GRADE—Child's World Third Reader. Arnold's Mastery of Words Book I. Robbins and Row: Work and Play With Language. Modern Primary Arithmetic. Practical Writing Manual No. 3. Practical Drawing Manual No. 3.

### Leads Pirates

Bill McKetchnie, manager of Pittsburgh Pirates and "the wonder man" of 1925 baseball. Inset is Fred Clarke, who led the Pirates in other penant days—and now helps McKetchnie keep the Pirates out in foot.

Fourth Reader. Arnold's Mastery of Words Book I. Studies in English Book I. Smith: Modern Primary Arithmetic. Brigham and McFarlane Essentials of Geography First Book. Ritchie-Caldwell—Primer of Hygiene. Practical Writing Manual No. 4. Practical Drawing Manual No. 4.

The pupils of this grade must also take either Home Economics or Physics. Books for these subjects will be assigned at the opening of school.

ELEVENTH GRADE—Word Theme Building. Literature and Life, Book IV. Chardenal Complete Course in French. Stephenson: American History. Options: Same as for 10th grade.

### Ten Hours From Broadway.

Cheraw, Aug. 29.—Ephraim Herlong, of St. Matthews, made a record on a motorcycle today. He left New York at 4 o'clock this morning and at 2 o'clock he was talking to acquaintances in Cheraw. He frequently made 90 miles an hour, he says, with speed cops after him whom he left behind. He intends to spend the night in Columbia. He left in great spirits and glee over his accomplishment.

## This Week

By Arthur Brisbane

WHEN IS MAN OLD?  
WASHING MACHINE PROGRESS.  
\$1,000 FOR EACH OF US.  
ROLLING THEM DOWN.

WHEN is a man old?  
A Civil War veteran of Illinois, aged 88, is told by the judge that a man 88 "has no business to get married."

A Pennsylvania man of ninety-one settles property on his children, then marries a woman of 45, who says her new husband is "old in years only."

Jacob Wettler, Swiss embroiderer, only seventy-four years old, shot himself, saying life wasn't worth while at that age.

"When he is forsaken, withered and shaken, what can an old man do but die?"

Some men are as old at fifty as anybody can be. Molke at ninety was younger than many of the junior officers that stood in stiff respect about him. A man is old when his mind stops working along new lines.

The people of America have about doubled their incomes in a few years. The cash that Americans earn, or receive from investments, rents, from inherited property, etc., is not far from ONE HUNDRED MILLION DOLLARS A YEAR, almost a thousand dollars for every man, woman, and child.

For every 100 homes in the United States there are 29 washing machines. That shows progress, and room for more progress.

The family without a washing-machine, unless the washing be "sent out," proves that some woman is condemned to needless slavery.

An electric washing machine and wringer, costing a few cents a day for current, makes of washing an amusement instead of hard work.

It makes it possible in a large family, with a busy mother, for the growing boys and girls to do the greater part of the week's washing and relieve the mother.

American ladies, it appears, entertain Parisians by wearing their stockings rolled down, showing all of the knee and part of the leg bare, below a short skirt.

Such women would represent the United States more usefully at home in front of American wash-tubs with their sleeves rolled up instead of having their stockings rolled down in Paris.

But there is a hygienic value in bare knees. All Esquimaux women, even in coldest Arctic weather, arrange for an opening at about the knee to let the air in. If they didn't do that, they would die for lack of oxygen.

Weak fish will find it hard to survive in the automobile endurance contest. One big company announced another cut in prices yesterday, making the fourth cut in a year.

The highest engineering skill and business ability are devoted to giving the public high grade automobiles at the lowest prices. That's valuable work.

When will commercial genius show the same energy in cutting the price of food "delivered?"

A scientist says that the young people of today have become "motor car wise." By instinct they avoid automobiles and adapt themselves to traffic. Older people seem unable to learn.

Even chickens and dogs have learned something. They stay out of the road and are killed less frequently than they once were.

It would be good news if the young people of the generation would be "whiskey wise" in addition to being motor car wise.

During the next few years there will be more young people killed by whiskey than old people killed by automobiles.

A plague of butterflies, causing motor engines to become overheated, by clogging the radiators, suggests a gruesome possibility.

If the insect tribes with their horrible fertility, should get out of control, they could fill the air, destroy all vegetation, starve, suffocate and devour the human race and all other animals.

Nature fortunately attends to these things. Even the insect plagues of Egypt sent to punish sin did not kill all Egyptians.

## World's Greatest Values Now More Outstanding Than Ever

166,369 Hudson-Essex sales for the eight month period ending August 1st represents the largest six-cylinder output in the world's History. This enormous production makes possible the finest quality at the lowest prices Hudson-Essex ever offered. The same management which established the Hudson Motor Car Company, now, as for sixteen years, controls and directs the design of its product and policies of the company.

### So She Sold the Eggs

A relative in Iowa got address cards mixed, and by mistake sent 17,000 eggs to Mrs. F. T. Murphy in Boston. To save her kin a loss, she rented a store room and sold them all—at 25 cents per dozen less than regular retail price.

## All You Expect

Federal Tires give you all you expect in service, and in most instances a little bit more. They are built to give extra mileage even under extraordinary conditions.
