BUSINESS IS GOOD. SHE DIDN'T CRY. PITY POOR NEW YORK. THINKING IS HARD.

Business IS GOOD. Tell that to your inquiring friends. The value of crops will be TEN THOUSAND MILLION DOLLARS. Farmers are more cheerful, prices good.

Commercial business in cities is improving steadily. Extraordinary showings will be made for August by many department stores and other big institutions.

The state of New York pities itself because it pays \$500,000,000 income tax, almost a third of the entire national tax.

New Yorkers shouldn't forget that if they pay \$500,000,000, it is because forty-seven other States send all their wealth to New York banks, spend millions in New York shops and hotels, and allow New York's high finance to tap with its corporations and its interlocking ownerships the sources of wealth all over the United States.

Since New York gets the income, it should be content to pay the tax.

"President Coolidge will leave the coal situation for the present to Congress and hopes there will be no profiteering in the meantime." So reads the dispatch.

That is a large hope, for "in the meantime" many dealers have raised the price fifty cents a ton. With the public, panic-stricken, rushing to buy, that means comfortable profiteering.

Mrs. Elsie Eaton Newton, Ohio lady, found herself facing the emptiness of life, with her two daughters married. Many ladies would have sat down to have a good cry. Mrs. Newton went to Marietta College, worked hard, got her A. B. degree, with her two grandchildren sitting in the audience, to cheer.

Now she is Dean of Women in Marietta College, and happy.

There is no life emptiness, except in the brain. Keep that busy and life is all right, even if your daughters are married and your husband dead.

The next generation will read about "the navy patrolling the route," to save the fliers if necessary, and that will seem as strange as to send an automobile with a carrier pigeon in case it should fall down.

Mr. Monkle in New York, to prove gratitude for the recovery of his son, supposed to be hopelessly ill, will build a 65-story building, partly religious, partly commercial, made up of a church and a hotel, with 4,500 bedrooms. Ten per cent of profits will go to missionary work, looked after by the son. The father will look after the profits.

The dining room will hold 2,000 in the tallest building, thus far, in the United States.

This religious building contrasts interestingly with the old sinful Tower of Babel, which probably was about one-half the proposed height of this 65-story hotel.

The great Bernard Shaw, in a mood of unusual but accurate humility, says the world a thousand years hence will know nothing about him except that the great French sculptor Rodin, once made a bust of Shaw, biographical dictionaries will contain this:

"Shaw, Bernard; subject of a bust by Rodin; otherwise unknown."

Even that's an overstatement, for in a thousand years Rodin won't be remembered any more than Shaw.

Rodin in art, 1,000 years from now will be as unimportant as Kipling in literature or Shaw in philosophy.

After war broke out, the Czar put Russia on a cold water basis, stopping the sale of vodka absolutely.

This column then suggested that absence of whiskey would mean more cold thinking by Russians, and that one result of such thinking would be the absence of the Czar. That prophecy was fulfilled.

Now Bolshevism restores vodka to its old alcoholic power—about forty per cent.

Men to whom thinking is new dislike the unpleasant sensation and effort.

And governments that want to rule in peace find their work easier when the crowd ruled is well supplied with whiskey.

"THANK MY LUCKY STARS! I TOOK THIS KARNAK"

"I'll Tell Anybody Under The Sun It Took Karnak To Do The Work For Me, And It Sure Did Do It," Says Charlotte Man.

"When I tell you that since taking this new medicine Karnak I can eat anything I want and feel as fine as a fiddle afterward, it means more than you might think it does, for before I got this medicine fifteen years suffering from indigestion had gotten my stomach in such bad condition it simply rebelled against any kind of food," declares T. R. Harwell, of 1011 Siegel St., Charlotte, N. C.

"Yes sir, everything I ate hurt me," continues Mr. Harwell. "Food would sour and form gas on my stomach which was terribly pain-

full and aggravating. I felt so weak and bad for the past several years that I was forced to stop work at times and take a rest-trying to build up my run-down condition. I would simply get to the place where I wasn't able to go.

"Well sir, I thank my lucky stars that I finally decided to try Karnak. Why, three bottles of this medicine has set me eating like a house afire, and my food is now doing me the good it should be doing and is not causing me one bit of trouble afterward.

"I'll tell the world I'm thankful to be rid of all the suffering I went through with, and I'll tell anybody under the sun that Karnak is what it took to do the work for me."

Karnak is sold in Barnwell exclusively by Mace & Deason; and by the leading druggist in every town.
