## Old--But True Big Oaks From Little Acorns Grow

The old saying that "Big Oaks From Little Acorns Grow" applies with exceptional triteness to the accumulation of a Savings Account. As small an amount as ONE DOLLAR may be used as the acorn from which seed you may grow your own oak tree of Savings. And in later life its sturdy growth will protect you from the storms and its spreading branches will shelter you from the burning shame of old age poverty. We want to help you get started saving—let us tell you about the different plans we have for your use.

"If you have money, we want it." "If you want money, we have it."

# PACKARD

TWENTY-ONE years ago Old Pacific, a one cylinder Packard, made the first complete trip across the country. It took forty days, for roads were poor, where there were any at all.

Now a Packard Eight has completed the trip without a single stop of either car or motor, covering 3965 miles in seven days.

During it is nearly 4000 miles the motor oil was not changed. Yet analysis at the end of the trip showed it to be 98% pure lubricant. The chassis was completely lubricated every hundred miles while the car was in motion.

The Packard Eight can be had in ten body types, four open and six enclosed. The Packard Eight Club Sedan is pictured—\$4890 at Detroit.

The Packard Six and the Packard Eight are the only cars offering the chassis lubricator and the motor oil rectifier, the most important improvements since the electric starter.
