## Paid-in-Advance Plan in Effect October 1st

As previously announced, the strictly paid-in-advance subscription plan was adopted by The People-Sentinel on October 1st and, beginning this week, the paper is being mailed to paid-in-advance subscribers only. In the future, the mailing list will be revised each month and the names of those whose subscriptions have expired will be dropped. However, due notice will be given subscribers a week or two ahead of the expiration date in order that they may renew if they so desire.

Notice is hereby given that the subscriptions of all whose labels are dated "Nov. 25" will expire with the last issue in October and they are urged to send in their renewals now. To do so will save this office the trouble and expense of sending out notices.

The publisher does not want to lose a single subscriber but no exception can be made to the new rule. He does not question the ability to pay nor the integrity of anyone, but the paid-in-advance plan applies to ALL—rich and poor, high and low, white and black.

## Frequent Bilious Attacks

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated, I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief. A neighbor told me of

and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—got rid of the bile and have my usual clear head, feel full of pep, and could do twice the work." Bilious attacks are "seasonal" with many people.
