## The BULL'S EYE

Editor and General Manager  
 WILL ROGERS

I see where some of the Foreign Nations say they are going to FUND their debt to America, and all the Papers are all excited about it. But the BULL'S EYE is a Paper that never misleads our readers (either one of them). FUNDING a debt means about the same thing as having a fellow that has owed you for years, come to you and say "I am going to make arrangements to take up that loan I owe you just as soon as I can collect it from some fellows who owe me." So don't by any means get FUNDING mixed up with PAYING. The two have nothing in common. These Nations are just stalling until another War comes along and the first thing you know our debt will be four Wars behind. We have enough saved up to fight again, but they are using it now to enforce Prohibition.

Oh, yes, "BULL" DURHAM. I like to forgot to mention that. Well, that is what the Foreign Nations are paying us in. "BULL" DURHAM without the DURHAM.

*Will Rogers*

P. S. There is going to be another piece in this paper soon. Look for it.

THE SOUTHERN SERVES THE SOUTH

## Will the South join in financing its own railroad needs?

Southern capital is being invested in many new enterprises along the lines of the Southern Railway System.

An even greater gain in production and prosperity in the South in the next ten years than was witnessed in the last ten seems inevitable.

But industry can expand no faster than the railroads that bring fuel and raw materials, and carry the finished products to the markets of the country. Money must be invested in railroads as well as factories, if industry is to be efficiently served.

That much of this new railroad capital should come from the South itself seems a natural result of the growing investment wealth of the South.
