THURSDAY, DECEMBER 17, 1925.

Sufficient unto the day is the weevil thereof.

There are no statues of men who felt sorry for themselves.

Much that passes for philosophy is no more than a good digestion.

Wisdom is merely the reaction that follows contemplation of receipted bills.

A woman's declining years come before the age of thirty. After that she is glad to accept.

Every normal youngster passes through an age when it seems that the crass old world can't understand.

The meek shall inherit the earth. But there won't be much fun in a world peopled exclusively by henpecked husbands.

Those statues to Christopher Columbus in various parts of the country commemorate a prominent foreigner who didn't come over here to lecture.

Big Dance at Allendale.

Allendale, Dec. 23.—On Tuesday, December 29, the big Holiday Dance of the Christmas season will be held at the Town Hall in Allendale under the direction of the Gala Club headed by Edward Oswald and DeLacy Shuman. Music for this occasion is to be furnished by Van Pelt's Famous Georgia Orchestra of Augusta, which is looked upon throughout the South as one of the best obtainable for dance music and the occasion is being looked forward to as one of the events of the season.

About Your Health  
Things You Should Know

ALCOHOL

I am aware of treading dangerous ground in discussing alcohol even as medicine, it has no other legitimate use, but that any agent good for sickness should be destroyed, I emphatically deny. Gold leads the world as a basic instigator of crime. But no zealot would abolish gold. It must be endured for the good it may do.

More aged people die of pneumonia than of any other disease. It is here that alcohol in medical administration, is at its best as a life-saver. It has added years of life to those for whom life is most precious. Alcohol is nearer a specific in the dreaded influenza than any other drug we possess. Alcohol has supported the typhoid victim over the crisis, and started him on the highway of health. These virtues should maintain it in the ranks of our most valuable medicines. Opium kills. Its habit is the most tenacious and degrading—yet we never hear about prohibition and destruction of the poppy. The politician cannot use opium as a monkey-wrench to throw into somebody's political machinery, so he permits it to be regulated in a logical, legal way without ostentation, as is being done today. The abuse of alcohol is well-known, making of it a very bad master, instead of a most valuable servant.

**Notice of Final Discharge.**  
Notice is hereby given that I will file my final account with the Hon. John K. Snelling, Judge of Probate for Barnwell County, and petition the said Court for an Order of Discharge and Letters Dismissory on Monday, the 18th day of January, 1926.

OUR RELIGION? NOT ENOUGH.  
NO ROUGE—HEALTHY.

THE LIGHT CITY.  
KNOWN BUT TO GOD.

A gentleman from the East brings what he calls a glorious proposition—one religion to fit everybody. No more religious quarrels or prejudice.

It won't happen. Each race wants to select its own gods, with approved characteristics.

Some individual said lightly, "An honest God is the noblest work of man." The higher the man, the nobler his type of god. A Congo savage worships an idol with a pink nose.

The ancient Greek said that if camels had a god their god would have four legs and a hump, which is true.

We are taught that God made man in his own image. There is no doubt whatever that among pagan gods in THEIR own image, lending to him their own hatreds, animosities—vengeance, love of gold and silver, fondness of the blood of animals, etc.

There will be no "religion to suit all men" until you have a different race of men.

High fashion decrees that ladies from now on must get stockings that match their complexions.

The will be no trouble about that. Modern fashion makes it easy for a lady to change her complexion to match her stockings if she can't find exactly the silk stockings she wants.

A girl with no rouge on her face wins the health prize at Barnard College. Miss Elizabeth Metzger, twenty years old, is five feet four and one half inches tall, weighs 120 pounds. She wears high heels, but you can't expect everthing. No rouge or lip stick ever touches her skin. She gives the pores of her face a chance to breathe, and that means health.

Other young women please take notice. A beautiful complexion that can be bought by the ounce shouldn't interest any young man worth marrying.

The human body can get used to anything, except too violent changes. The same can be healthy under the Equator, with the thermometer at 120, or near the North Pole, at 40 below zero.

But you could not change from the Equator to the North Pole in five minutes without risking life.

Young women should remember that—but they won't. In England thousands of girls now have dangerous colds and influenza because they wear "Russian Boots" up to their knees for several hours, then change suddenly to light slippers for afternoon and evening parties. Beware of sudden changes.

America's biggest city, New York, does things on a big scale. So do dozens of other American cities, from Seattle to Miami and from San Diego to Portland, Maine.

Our European friends read with amazement that a young American Arthur S. Williams, boss of the electric light industry, sells in New York City more electricity than is used by twelve European countries with a combined population of 109,000,000.

The twelve countries that use less electricity than New York City alone are: Greece, Denmark, Latvia, Jugoslavia, Poland, Turkey, Switzerland, Sweden and the Netherlands. New York uses 5,000,000,000 kilowatt hours per year.

Illinois discovers that a bill passed, quietly, makes it possible to set free young Leopold or Loeb, or any other criminal, that might have "the price."

Virtue wonders how such a bill could slip through the Illinois Legislature.

The non-virtuous wonders how MUCH a law of that kind would be worth in the hands of "practical men."

Many soldiers lie in graves with no name. What would you write about such graves? The War Department has approved this inscription: "Here rests in honored glory an American soldier, known but to God."

**Editor's Note:**—Through special arrangement with The Educational Book Co., N. Y., this newspaper now offers its readers this interesting feature, "QUIZ," being extracts from that book, endorsed by Eugene C. Gibney, Director of Extension Activities, New York Board of Education. These puzzles will be found intellectual as well as instructive.

Dear "Davia Pfiddleerope":  
Thank you very much for sending me "Hitcasmar Distrse." Could you lend me "A ledhls Hslytor fo Gelnadn?" In these "Dhar Mitse," I cannot obtain it. I get "Uro Tlamun Deftin," "Lervot tsitw," yesterday; he was with "Yabaron Derug," the "Culnomecmrai Llatryve." Did you know that "Tillet Ridrot" has been turned out of "Hot Dio Utyicorsi Hpos," and "Medboydan Osm," is written over the door? Your friend "Tamrai Huzltleew" has "Tager Xtateiccosm" about his book "A eatl fo wto Sicstis." Have you heard about "Eht Ymytrsefo Wnedi Ddoor?" He is said to have stolen several copies of "Cwickki Rappse," and "Katscheec yb Ozb."

Much love from,  
"HLANCIOS KYLINCUBY."
