THE SOUTHERN SERVES THE SOUTH

A day's work on the Southern

When a railroad system extends for 8,000 miles across eleven states and employs 60,000 workers, it does a big day's work.

Here are the figures of an average day on the Southern Railway System:

Trains operated	1,270
Passengers carried	50,000
Carloads of freight loaded on our lines and received from other railroads	8,000
Ton-miles produced	32,000,000
Tons of coal burned in locomotives	14,000
Wages paid	\$220,000
Materials purchased	\$135,000

It takes management, and discipline, and a fine spirit of cooperation throughout the organization, to do this work day after day, and maintain the standards of service that the South expects from the Southern.
