# The Answer to Virginia.

(The most widely read editorial ever written, stated the Reader's Digest in its December, 1935, edition, appeared 36 years ago in the New York Sun, has been reprinted by the Sun annually at Christmas time ever since, and has been quoetd in a score of languages the world over. This world-famous "Santa Claus editorial" was an answer to the following letter:

Dear Editor: I am eight years old. Some of my little friends say there is no Santa Claus. Please tell me the truth.

-Virginia O'Hanlon.

The editorial writer who was assigned to reply to Virginia at first disdained the task as trival, then found himself warming up to a real opportunity, and finally wrote the words that millions, since then have warmed to read. The answer follows:)

Virginia, your little friends are wrong. They have been affected by the skepticism of a skeptical age. They do not believe except they see. They think that nothing can be which is not comprehensible by their little minds. All minds, Virginia, whether they be men's or children's are little. In this great universe of ours, man is a mere insect in intellect, as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole truth.

Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist, and you know that they abound and give to your life its highest beauty and joy. Alas! How dreary would be the world if there were no Santa Clus! It would be as dreary as if there were no Virginias. There would be no romance to make tolerable this existence. We should have no enjoyment, except in sense and sight. The eternal light with which childhood fills the world would be extinguished.

Not to believe in Santa Claus! You might as well not believe in faries. You might get your papa to hire men to watch all the chimneys on Christmas Eve to catch Santa Claus, but even if they did not see Santa Claus coming down, what would that prove? Nobody sees Santa Claus, but-that is no sign there is no Santa Claus. The most real things in the world are those that neither children nor men can see.

You tear apart the baby's rattle and seen what makes the noise inside, but there is veil covering the unseen world which not the strongest men that ever lived could tear apart. Only faith, fancy, poetry, love, romance, can push aside that curtain and view the supernal beauty beyond. Is it all real? Ah, Virginia, in all this world there is nothing else real and abiding.

## CORN-HOG PAYMENTS RATE

## SET ABOUT SAME AS 1935

The rates of adjustment payments to farmers cooperating in the 1936proximately the same as those paid in connection with the 1935 program, County Agent Boylston says.

Farmers who comply fully with the provisions of the two-year contract will receive corn payments in 1936 at the rate of 35 cents a bushel on the number of bushels obtained by multithe farm by the number of adjusted corn acres. The term "adjusted acres" tion under the new contract.

For example, Boylston explains, if a farmer with a corn base of 100 acres and an appraised yield of 20 bushels to the acre makes an adjustment of 20 per cent. or 20 acres, his total corn payment will amount to \$140 (35 cents times 20 bushels times 20 acres)-less the pro rata share of the local administrative expenses.

Hog adjustment payments will b made at the rate of \$1.25 a head on the number of hogs in the market hog base. In order to receive the maximum payment, however, a contract signer must produce a number of hogs between one-half of his base and the full base number. Deductions will be made at the rate of \$2.50 for each hog he fails to produce up to 50 per cent. of his base and of \$5 for every hog produced in excess of his base number.

. Under the 1935 contract, both corn and hog payments were made in two installments. Under the new contract, two corn payments will be made in 1936: the first, at the rate of 20 cents a bushel, about Aug. 1st or as soon as possible after first compliance is checked; and the second, at the rate of 15 cents a bushel ,about Dec. 31st. Hog payments, under the "modified current production payment plan," however, will be made in one installment about Dec. 31st, 1936, or as soon as possible after final compliance has been checked and certified. As under the previous contracts, the expenses for local administration of the program will be taken out of both the
