HE PEOPLE RSDAY, OCTOBER 25, 1877.

AL MISCELLANY

RANCE.-Read the advertisement utson & Co., Insurance Agent,

voen Our,—Many important com-cations are unavoidably crowded hle week. DEST. The commission to

tigate the county debt will meet to-morrow, and con inue in sesuntil it concludes its labors.

IE EVENING DEMOCRAT.-We have ved a number of this new venture urnalism. It is edited and pub d by J. D. Kennedy, Jr., in Charles-We wish the Democrat and its isher every success.

R. QUATTLEBAUM. - We call attention he advertisement of Dr. Quattlem, dentist, at Williston, S. C., and n our knowledge of his character capacity we can confidently remend him to such of our friends may beed the services of a dentist.

MALL GRAIN.-We are glad to see t our planters are preparing to seed arge area in rye, wheat and cate s fall. One of our most successful were of small grain tells us that in s latitude it should be sown between first and fifteenth of November, ould be used with four or five bushof wheat.

Da I. H. ALEXANDER. - We are pleasin being able to announce to his ends and patrons that this genial ntleman and first class dentist will in our town about the first of Nomber. His stay in our midst, will, fortunately, be limited, and parties sirous of securing his valuable seroes had better apply to him as early fter his arrival as practicable. It is ot necessary for us to recommend Dr. lex ader, as he finds his work his est friend in that respect. He does ood work and does it cheap. His atrons are his advertisers.

THE PUBLIC PRINTING .- We have a advertising the Treasurer's noices free of charge, and expect to do he same by all important notices of he Board of County Commissioners in the School Commissioner, for the uformation of our readers. These advertisements are given to The Senunel by the officers who control them, as they have a right to do, and The Sentiael gets pay for them, which we also think is perfectly proper. In other words, THE PROPLE gets the advertising of three of the public offices and The Sentinel gets the advertising of three of the public offices.

URIAR DONN .- Every lover of horse A-sh in old Barnwell will be glad to hear that Captain Dung has returned to the village with his usual fine fall stock of horses and mules. He is at his old quarters and will be glad to see all his friends. He has marked his stock down to the lowest CASH prices preferring to make a small profit with the "bird in the hand" than to make a large margin and take the chances of capturing "the bird in the bush." The Captain says that "bird in the bush" is a most delusive creature, and don't make friends with such as depend on catching him, so he has concluded to staff, has gone and Dunn it. He pur let that bird alone, "Dick" is the name of the "dandy" horse of the drove, and If you don't think he just beats anything you ever saw in the way of a stylish animal and a quick and graceful mover, just come to Barnwell and inspect him. The Captain takes a worthy pride in exhibiting his fine qualities.

W. H. Cole's New and Greatest Show of Earth.

By reference to our advertising columns it will be seen that W. W. Cole's Circus, Menagerie, Museum, Aquarium and trained Animal Exposition of Wonders, &c., all combined in one great show, will appear in Blackville, Wednesday, November 7th, and all of which can be seen for the small sum of fifty ceats for adults and half price for children under 9 years of age. The immense size of this concern and the thousands who daily visit this mammoth city of exhibition tents enable Mr. Cole (the proprietor) to offer to the public one of the grandest and most stupendous exhibitions ever seen South, and will perhaps be the last op-portunity our citizens will ever have to witness such a grand and imposing

DAYS' DOINGS IN BLACKVILLE

The town was very lively on Saturday. There was a large trade both in By James M. Ryan, Esq., Judge of Probat cotton and "corn." The corn was not sold by weight, but by measurement, and I am sorry to say that some of tets of Administration on the estate and the folks bought more than they could conveniently carry, and the town authorities had to take the matter in hand and accommodate the overload: ed ones. And yet they paid for the storage very reluctantly.

The charades came off according to appointment. There was a full house and everybody seemed to enjoy themselves. Of course it was a success The charades was a success-Jacob's Well was a success -the cake was a uccess to the one that won it-in fact everybody was a success ; but THE success was that young lady with those pretty white teeth that conversed with me over the back of the bench.

The town is still on the improve. Another new firm has been established and the Avenue has now a wholesale and reteil establishment. At least so the sign says. I suppose it is said to be wholesale because they sell "through a holee," but the (re)tail is beyond my grasp. The firm is an enterprising one, however, for rather the house is as you "enter" in the side and "prize" open the drop-door,) and you may hope to add an additional "ad" to the number you already have in your columne. If you have an agent here he should call on the new house at once, d covered from tour to five inches buy a nickle's worth of pinders, sit depth. One pound of blue stone down and eat them without offering anybody any like a Legislator, and

then solicit a double-column "ad." There was a dance and social at the residence of Mr. Mike Brown on Monday night. The moon was full; the sky clear, making the evening very inviting. There was quite a large assemblage of the fair ones of our town, and enough young gentlemen to "pair off," as they say in Congress. Prof. Heath was also there, and succeeded, as usual, in filling the room with "links of sweetness long drawn out," The weather, the occasion and all collateral circumstances were propitious and the result an evening of splendid enjoyment to all. Quid Nunc, when asked what he thought of such entertainments, replied: Dum vivimus vivamus. His fair luterrogator answered: "We will continue the conversation when we meet again," So we will end this as the sereals "To be continued." The corp mapla was still alive on Monday, and although buyers were not so plentiful, still there was one who was so eager to quiet the market that he purchased more than he could carry away, and the town council was again called on for assistance. A dump cart was pressed into service and the corn well sacked up, and the sack "soaked up," was hauled down to

Myers' warehouse and put up. At 7:30 in the evening the corn was taken away and the storage paid. These speculators will save storage by using more discretion in their "day's doings." Some of them who were still able to get away with their purchases Saturday evening, were yet so much overtoaded that they could not restrain their groans. One in particular, went into the wrong barn and made such a display of his joy that he was soundly congratulated Monday morning. The buggy whip is still sound and uninjured. Sic semper for that distemper. One of our fellow-townsmen, antici

Saturday and on Monday morning concluded he'd try his mettle in a shaft | Odom, deceased, as follows: Two Mules wagon. He moved off in fine style for about a square, and then took the position of a soldier. He then went through the movements of eyes right and left, balance step, mark time, made one or two efforts at "sitting up" and then came to the parade rest. He tention until one of the clock agents gave the command, when he moved charge and gave the command, which pany," of Barnwell County. he promptly obeyed, moving off in double quick time, which he soon increased to the run. You would have sworn he was a regular artillery "hoss' now as the "sub" on the calson went whirling to the front. Gemini! didn't the dust fly! But the proudest exhibition must come to an end, and so did this, and that very suddenly. "Sub" come back, when he had grabbled the sand out of his eyes, and got a half a
