Saw 10,000 Stars.

Union, Feb. 9.—Telling his wife that he was feeling perfectly well except that he seemed to be seeing ten thousand stars. Melvin Revis, in a moment after she had left the room, suddenly expired, his spirit going thus quickly to the stars that he had seen glimmering.

R was about 5 o'clock last Saturday morning at Lockhart Mills village in this county that Revis had gotten up early so as to make the fire. He seemed to be in his usual spirits and health, but telling his wife about seeing the stars, decided that he would wait and lie down while she was cooking the breakfast.

While she was preparing the morning meal preparatory to his taking up his day's work in the Lockhart Mills, his children heard a queer noise, and on rushing to the bedside where he had lain down, found that he was already dead.
