The Savannah News points out six needed reforms to the constitutional convention: A reduction of the number of Senators and Representatives, and of legislative expenses; a prevention of continual amendments of the code, biennial sessions, a two years term for Governor, a reduction of the homestead, and a removal of the capital to Atlanta. The News is moderate.

Bill Arrp, late of Georgia, the man who furnished the witticisms and odd sayings which Charles H. Smith prepared and published some years ago, was accidentally killed near Decatur, Texas, on March 5th. He fell from a wagon loaded with corn, the wheels passing over his neck, killing him instantly. He was a remarkable man—perfectly illiterate, but replete with original ideas and witty sayings; he rarely ever spoke without saying something pithy.

More About Hanson.

Christian Hanson, the criminal who gave such a touching story of the committal of crimes to avoid starvation, has proved a humbug and a liar. Despatches were received from Ohio denying that any such robberies had been committed or that Hanson had ever been in the Ohio penitentiary. A reporter of the Herald interviewed him a second time, and producing the despatches received an acknowledgment from Hanson that his story was a fabrication out of the whole cloth. He had been a thief and had been incarcerated in prisons and penitentiaries several times but for minor offences. He wept copiously while making his confession, and expressed contrition for his mendacity. He renewed his protestations, however, of repentance. The Tombs still contains him, until Judge Kilbreth decides what to do with him.

Hayes to Hampton and Chamberlain.

The result of the recent Cabinet meeting has been the sending on Friday of a duplicate letter from Hayes to Chamberlain and Governor Hampton. The letter states that the President proposes to take into immediate consideration the affairs in South Carolina, so as to determine his duty, under the constitution, in the premises. It continues:

"It will give the President great pleasure to confer with you in person, if you find it convenient to visit Washington, and confer with him in thinking such a conference the readiest and best mode of placing your views as to the political situation in your State before him. He would greatly prefer this direct communication of opinion and information to any other method of ascertaining your views upon the present condition and immediate prospect of public interests in South Carolina."

If such a course is impracticable, the President desires a letter or a message by the hands of some responsible delegate stating what impediment exists in the way of the peaceful organization of a single government in the State. He claims to desire to put an end as soon as possible to all appearance of military interference in this State. The letter is of course non committal.

VEGETINE

Strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous system.

Vegetine

Is not a vile, nauseous compound, which simply purges the bowels, but a safe, pleasant remedy which is sure to purify the blood, and thereby restore the health.

Vegetine

Is now prescribed in cases of Scrofula and other diseases of the blood, by many of the best physicians, owing to its great success in curing all diseases of this nature.

Vegetine

Does not deceive invalids into false hopes by purging and creating a feebly appetite, but assists nature in clearing and purifying the whole system, leading the patient gradually to perfect health.

Vegetine,

Says a Boston physician "has no equal as a blood purifier. Hearing of its many wonderful cures, after all other remedies had failed, I visited the laboratory and convinced myself of its genuine merit. It is prepared from barks, roots and herbs, each of which is highly effective, and they are compounded in such a manner as to produce astonishing results."

Vegetine

Is acknowledged and recommended by physicians and apothecaries to be the best purifier and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

PROOF

WHAT IS NEEDED.

BOSTON, Feb. 13, 1874.

Mr. H. R. STEVENS: Dear Sir—About one year since, I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and after using several bottles, was restored to health and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health. Respectfully yours, U. L. PETTINGILL, Firm of S. M. Pettingill & Co., 10 State St. Boston.

FEEL MYSELF A NEW MAN.

NATICK, Mass., June 1, 1872.

Mr. H. R. STEVENS: Dear Sir—Through the advice and earnest persuasion of Rev. E. S. Best, of this place, I have been taking VEGETINE for Dyspepsia, from which I have suffered for years. I have used only two bottles and a ready feel myself a new man. Respectfully, Dr. J. W. CARTER.
