WAR IN EUROPE.

Russia makes a formal declaration against the Porte.-The first battle.

A formal declaration of war by Russia against Turkey has been made. Prince Gortschakoff has sent the following note, dated April 24, to the Turkish Charge d'Affaires: "The earnest negotiations between the Imperial Government and the Porte for a durable pacification not having led to the desired accord, my august master sees himself compelled, to his regret, to have recourse to force of arms. Be therefore so kind as to inform your government that from to day Russia considers herself in a state of war with the Porte."

England will and must protect her commercial interests, and as she owns the larger part of the Suez Canal, it is not surprising that she will employ all her force to protect that interest. From that protection will spring England's complicity in the European war.

Mr. Layard, British Minister at Constantinople, is stated to have informed the Porte that England had guaranteed the integrity and independence of the Ottoman Empire only under the conditions laid down by treaties stipulating for the exercise of control by the powers. The Porte having contested this right, it has forfeited the benefits guaranteed by these treaties and England could not intervene with her army in its behalf.

An immense crowd witnessed the removal of the Russian insignia from the portal of the Embassy at Constantinople.

The Gortschakoff circular regrets that Russia finds herself under the necessity of proceeding single handed to realize the wishes of Europe. Russia has in view the improvement of the condition of the Christians and not territorial agrandizement.

War gossip says when the Russians cross the Pruth the Turks will send a large force of Circassians to destroy the railroads.

Andrassy now favors the mobilization of the Austrian forces sufficient to protect Austrian interests.

The Russian army entered Roumania, a disaffected province of Turkey, on Wednesday.

The Russian naval authorities have suspended navigation between the Crimea and Caucasus. Russia has promised Roumania independence and a royal title.

The Austro-Hungarian army at Pesth is placed *couchant* for any emergency.

Turkey is bringing timber from Transylvania for the bridges over the Danube.

There are only 7,000 Turkish troops in Crete, and the people are organized for an insurrection.

The Italian squadron, which sailed from Taranta under sealed orders, is bound for Salonica.

Twenty thousand Russians are concentrated on the Pruth, and will soon be ready to cross.

Ameer, of Kashgar, is assembling an army on the Russian frontier of Khokand.

The Turks have made the most active preparations for the war. The sultan, in his proclamation to the army, says:

"Russia has declared war and we are forced to take up arms. We have always wished peace, and listened to the advice of the powers in this respect, but Russia wants to destroy our independence, and so, if Russia attacks us, God, who protects right and justice, will grant us the victory. Our soldiers will defend with their blood the country gained by their ancestors, and with the help of God, maintain the independence of the Osmanli. The nation will protect the wives and children of the soldiers. Should it be necessary, the Sultan will go to the army and raise the standard of the Kalifat and the Sultanat. The Sultan is ready to sacrifice his life for the honor and independence of the country."

The first engagement of the war was fought at Tchurukson, near Batourin. After some fighting the Russians were routed, with a loss to about eight hundred.

Ninety men were lately brought out from New York to Port Royal to complete the force required to run the big monitor Dictator, which will shortly leave that port for the North.

VEGETINE

VEGETINE has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

SHE RESTS WELL.

SOUTH POLAND, ME., Oct., 11, 187[illegible].

MR. H. R. STEVENS:

Dear Sir—I have been sick two years with the liver complaint, and during that time have taken a great many different medicines but none of them did me any good. I was restless at nights and had no appetite. Since taking the Vegetine I rest well and relish my food. Can recommend the Vegetine for what it has done for me.

Yours respectfully,
MRS. ALBERT RICKER.

Witness of the above,
Mr. Geo. M. Vaughan, Medford, Mass.

VEGETINE.

Thousands will bear testimony (and do it voluntarily) that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer."

SAFE AND SURE.

MR. H. R. STEVENS;

In 1872 your Vegetine was recommended to me, and yielding to the persuasions of a friend, I consented to try it. At the time, I was suffering from general debility and nervous prostrations, superinduced by overwork and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose, and under its persistent use I rapidly recovered, gaining more than usual health and good feeling. Since then I have not hesitated to give Vegetine my most unqualified indorsement as being a safe, sure and powerful agent in promoting health and restoring the wasted system to new life and energy. Vegetine is the only medicine I use, and as long as I live I never expect to find a better.

Yours truly, W. H. CLARK,
120 Monterey Street, Alleghany, Pa.

VEGETINE.

Vegetine thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

The following letter from Rev. G. W. Mansfield, formerly pastor of the Methodist Episcopal Church, Hyde Park, and at present settled in Lowell, must convince every one who reads this letter of the wonderful curative qualities of Vegetine as a thorough cleanser and purifier of the blood:

HYDE PARK, MASS., Feb. 15, 1876.

MR. H. R. STEVENS:

Dear Sir—About ten years ago my health failed through the depleting effects of dyspepsia; nearly a year later I was attacked by typhoid fever in its worst form, it settled in my back and took the form of a large deep-seated abscess, which was fifteen months in gathering. I had two surgical operations, by the best skill in the State but received no permanent cure. I suffered great pain at times and was constantly weakened by a profuse discharge. In so lost small pieces of bone at different times.

Matters ran on thus about seven years, till May, 1874, when a friend recommended me to go to your office and talk with you of the virtue of Vegetine. I did so, and by your kindness passed through your manufactory, noting the ingredients, etc., by which your remedy is produced.

By what I saw and heard I gained some confidence in Vegetine.

I commenced taking it soon after, but felt worse from its effects; still I persevered and soon felt it was benefitting me in other respects. Yet I did not see the results I desired, till I had taken it faithfully for a little more than a year. When the difficulty in the back was cured, and for nine months I have enjoyed the best of health.

I have in that time gained twenty-five pounds of flesh, being heavier than ever before in my life, and I was never more able to perform labor than now.

During the past few weeks I have a scrofulous swelling as large as my fist gather on another part of my body.

I took Vegetine faithfully and it removed it level with the surface in a month. I think I should have been cured of my main trouble sooner if I had taken larger doses, after having become accustomed to its effects.

Let your patrons troubled with scrofula or kidney disease understand that it takes time to cure chronic diseases, and if they will patiently take Vegetine, it will, in my judgment, cure them.

With great obligations I am,
Yours very truly,
G. W. MANSFIELD,
Pastor of the Methodist E. Church.
