SHE RESTS WELL.

SOUTH POLAND, ME., Oct., 11, 1876. MR. H. R. STEVENS: Dear Sir-1 have been sick two years with the liver complaint, and during that time have taken a great many different medicines but none of them did me any wood. I was restloss at michts and had good. I was restless at nights and had no appetite. Since taking the Vegetine I rest well and relish my food. Can recom-mend the Vegetine for what it has done for we

VEGETINE.

Thousands will bear testimony (and do it voluntarily) that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer."

SAFE AND SURE.

MB. H. R. STEVENS ; Ma. 11. 16. STEVENS; In 1872 your Vegetine was recommend-ed to me, and yielding to the persuasions of a friend, I consented to try it. At the time, I was suffering from general debili-ty and nervous prostrations, superin-duced by overwork and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose, and under its persistent use I rapidly recovered, gain-

system from the first dose, and under its persistent use I rapidly recovered, gain-ing more than usual health and good feeling. Since then I have not hesitated to give Vegetine my most unqualified in-dorsement as being a safe, sure and pow-erful agent in promoting health and res-toring the wasted system to new life and energy. Vegetine is the only medicine I use, and as long as I live I never expect to find a better. D

The Anson HARDY PAPER CUTTER is by far the best machine which can be ob-tained for a less price than one hundred dollars. It is of great strength. These machines have always taken the highest stand. It is the only machine to which is applied the Patent Movable Cutting Board. This device has a reputation of itself: by it, the cutting board can be in-stantly and accurately moved, so that a perfect cut is insured. This is a very im-portant point in the machine, and one that is possessed by no other. It greatly reduces the labor of preparation in work-ing the paper backward and forward. We cannot too strongly recommend the advantages of this patent movable board. It is worth the price of this machine, and It is worth the price of this machine, and purchasers should fully understand how highly it is to be valued."—Geo.
