BRIC-A-BRAC.

Hayes has snubbed Mosby.

The Radicals in Mississippi have about concluded to run no ticket in that State.

The Natchez (Miss.) Democratic wants a negro on the Democratic State ticket.

The New York Herald has ascertained that Harvard's boys' brains measure sixteen inches round the upper arm.

The Nicholls government has already tracked up the defalcation of Packard's subordinates to the tune of \$155,000.

Dr. Nathan R. Smith, of Baltimore, died a few days ago. He was probably the greatest surgeon in the country.

The government is about to abandon the idea of having the United States represented at the Paris Exposition.

Apologetically a New Hampshire paper says that if it devotes more space to the potato-bugs than to the Legislature, it is because the bugs are doing the most work.

The Springfield Republican says the cheers for Hayes at Woodstock came from the people; those for Chamberlain from the politicians on the platform.

The printers of New York point with pride to the fact that only three members of their craft are inmates of Auburn prison, among twenty-seven clergymen, forty-two lawyers and thirteen doctors.

The Columbus (Ohio) Sunday Herald pretends to know that Grant would have recognized Packard if Stanley Matthews had not begged him to restrain his royal hands.

The Milwaukie Sentinel says that if the President means what he says in his order "postmasters will now go to work and learn the retail price of postage stamps and endeavor to build up a trade."

George Francis Train says no one need be "surprised that a nation besotted in ignorance, stupefied with superstition, soaked in alcohol, steeped in tobacco and gorged with meat, should come to a disgraceful end in the delirium tremens of Presidential fraud!"

General Toombs says that his appearance in the Georgia Constitutional Convention will be the last official act of his life, and he hopes to make it the most memorable. He is very much interested in the Eastern question, despises the Ottomans, and wants the Russians to conquer.

Secretary Thompson occupies at Washington the ill-omened Sickles mansion on Lafayette Square, a showy building that looks twice as showy by comparison with its plain and sombre neighbors. There Sickles lived when he shot Key, and Colfax occupied the house while he was Vice-President and was caught lying about Credit Mobilier.

It stated that Rev. Dr. Hepworth's "Church of the Disciples" is not the only church in New York which is likely to be subjected to foreclosure proceedings. Most of the fashionable churches are paying great sums of interest, and the mortgages upon some sixty churches and religious societies are said to aggregate \$2,367,886. All over the country extravagance in the construction of churches prevails to a greater or less extent.

Amongst the graduates at the University of Pennsylvania last Thursday was a quiet old gentleman, aged above seventy years. He received the degree of Doctor of Philosophy after passing a course of full scientific examination. It was Stephen Townsend, father of George Alfred Townsend, the well known journalist. Without college advantages in early life, he studied and graduated in medicine at the age of fifty-five, and in the sciences at seventy-one. The under graduates gave him a shout as he placidly took his sheepskin and degree of Doctor of Philosophy.

A citizen of Raleigh has four children, a son born on the 4th of July, 1874, a daughter on the 4th of July, 1875, a son on the 4th of July, 1876, and another on the 4th of July, 1877.

VEGETINE

—IS MY FAMILY— MEDICINE; I WISH NO OTHER.

PROVIDENCE, April 7, 1876. MR. H. R. STEVENS—DEAR SIR: When I was about 8 years of age a tumor broke out upon me, which my mother tried to cure by giving me herb teas and all other such remedies as she knew of, but it continued to grow worse, until finally she consulted a physician and he said I had the salt rheum, and doctored me for that complaint. He relieved me some, but said I could not be permanently cured as the disease originated in the blood. I remained a great sufferer for several years, until I heard of and consulted a physician, who said I had the scrofulous humor and if I would allow him to doctor me he would cure me. I did so, and he commenced healing up my sores and succeeded in effecting an external cure, but in a short time the disease appeared again in a worse form than ever, as cancerous humor upon my lungs, throat and head. I suffered the most terrible pain, and there seemed to be no remedy, and my friends thought I must soon die, when my attention was called, while reading a newspaper, to a VEGETINE testimonial of Mrs. Waterhouse, No. 364, Athens Street, South Boston, and I formerly residing in South Boston and being personally acquainted with her and knowing her former feeble health, I concluded I would try the Vegetine. After I had taken a few bottles it seemed to force the sores out of my system. I had running sores in my ears which for a time were very painful, but I continued to take the Vegetine until I had taken about 25 bottles, my health improving all the time from the commencement of the first bottle, and the sores to heal. I commenced taking the Vegetine in 1872, and continued its constant use for six months. At the present time my health is better than it ever has been since I was a child. The Vegetine is what helped me, and I most cordially recommend it to all sufferers, especially my friends. I had been a sufferer for over 30 years, and until I used the Vegetine, I found no remedy. I use it as my family medicine, and wish no other.

MRS. B. C. COOPER, No. 1, Joy Street, Providence, R. I.

Vegetine.

The range of disorders which yield to the influence of this medicine, and the number of defined diseases which it never fails to cure, are greater than any other single medicine that has been hitherto been ever introduced for by any other than the proprietors of some quack nostrum. These diseases are Scrofula and all eruptive diseases and Tumors, Rheumatism, Gout, Neuralgia and Spinal Complaints and all inflammatory systems, Leers, all Syphilitic diseases, Kidney and bladder diseases, Dropsy, the whole train of painful disorders which so generally afflict American women, and which carry annually thousands of them to premature graves; Dyspepsia, that universal cause of American manhood, Heartburn, Piles, constipation, Nervousness, Inability to sleep, and Impure blood. This is a formidable list of human ailments for any single medicine to successfully attack, and it is not probable that any one article before the public has the power to cure the quarter of them except Vegetine. It lays the axe at the root of the tree of disease by first eliminating every impurity from the blood, promoting the secretions, opening the pores—the great escape valves of the system—invigorating the liver to its full and natural action, cleansing the stomach and strengthening digestion. This much accomplished, the speedy and the permanent cure of not only the diseases we have enumerated but likewise the whole train of chronic and constitutional disorders, is certain to follow. This is precisely what Vegetine does, and it does it so quickly, and so easily, that it is an accomplished fact almost before the patient is aware of it himself.

BEST REMEDY IN THE LAND.

LITTLE FALLS, N. Y., Sept. 23d, 1876. MR. H. R. STEVENS: Dear Sir—I desire to state to you that I was afflicted with a breaking out of blotches and pimples on my face and neck for several years. I have tried many remedies, but none cured the humor on my face and neck. After using two or three bottles of your Vegetine the humor was entirely cured. I do certainly believe it is the best medicine for all impurities of the blood that there is in the land, and should highly recommend it to the afflicted public. Truly yours, P. FERDINE, Architect.

Mr. Ferrine is a well-known architect and builder at Little Falls, N. Y., having lived there and in the vicinity for the last thirty-three years.

Vegetine,

A MATCHLESS FAMILY MEDICINE compounded from vegetable ingredients which are regarded as standard remedies of the Materia Medica. A trial experience has established this compound as far as superior to others claiming like character. SIMMONS' HEPATIC COMPOUND has nothing in its composition that can possibly injure the most delicate. Its taste is not unpleasant, does not nauseate or gripe, and yet it acts on the Liver and Bowels just as effectually as Calomel or any of the preparations of mercury, without injuring the constitution or debilitating the system. Many people suffer with Torpid Liver and Constipated Bowels and require something to stimulate these organs. From some peculiarity of constitution, they cannot take calomel or blue mass. To such Simmons' Hepatic Compound will be invaluable. It does not produce large watery actions that weaken and depress, but acts mildly, producing no depression. It simply stimulates nature to act. Hence, how invaluable to the sufferer.

—FOR SALE BY— W. E. AIKEN, McMASTER & BRICE, Winnsboro, S. C. R. W. BRICE & Co., Woodward's, S. C. DOWIE & MOISE, Proprietors, July 3-2w Charleston, S. C.
