BRIC-A-BRAC.

Mark Twain is going to New Orleans soon.

When Mr. Gladstone was presented to Mrs. Grant, that lady addressed him as "Mr. Blackstone."

Mrs. Frances Preston Blair, relict of the late Francis P. Blair, and mother of Hon. Montgomery Blair, is dead.

President Hayes, his Cabinet and Vice-President Wheeler have accepted invitations to attend the Vermont Centennial.

Congressman Townsend was made an LL.D. by Williams College the other day, his alma mater, in her old age, forgetting that she had given him the degree ten years before.

Minnie Sherman-Fitch's diamonds, the Khedive's present, still lie in the treasury vaults, because neither her father nor her husband is willing to pay taxes on them.

Mr. Beecher declares that there is nothing in the story of his reconciliation with Tilton, but he thinks there is something in the story that Tilton and Moulton have fallen out.

Mrs. General Sherman has not been to Rome, but has been living quietly in St. Louis, and hasn't even heard of the golden rose which it has been said the Pope would present her.

John H. Gear, the gubernatorial candidate of the Iowa Republicans on a prohibition platform, is said to derive part of his income from the sale of beer by the barrel and wine by the case.

Burdette, the Hawk-Eye humorist, has an invalid wife who requires his constant attention. He has been her nurse for years, but never loses his good temper. He writes his funny paragraphs at home, visiting the Hawk-Eye office only an hour or two in the day.

Mrs. Tilton has been found by an enterprising reporter, living with her mother, Mrs. Morse, in the outskirts of Brooklyn, but she has nothing to say. The youngest boy, Paul, is with her, the two elder children having gone to Europe with their father.

The charming little Lotta has taken up her quarters at Cape May for the summer, and wishes it to be said for the ninety and ninth time that she is not engaged to be married to any of the young gentlemen with whom she is daily seen promenading or bathing.

It is stated that Jefferson Davis is now completing his work on the war, and it will be issued in the fall. Mr. Davis will charge upon Gen. Joe Johnston the full responsibility for the non-pursuit of the Federal forces into Washington on the occasion of the first battle of Bull Run, in July, 1861.

A worthy old gentleman out in Missouri maintains at great length in the columns of the St. Louis Times that Marshal Ney was not shot, as commonly supposed, but "played possum" and escaped to America, occupying himself for many years as a school teacher in North Carolina, where the worthy gentleman aforesaid was among his pupils. As he is dead now, anyhow, it doesn't appear to make much difference.

The statement is made that Queen Victoria has been put out of temper by the toilets of the courts this year. No fewer than four ladies have been formally "censured" for making their appearance in "unbecoming costumes." The Vicountess Mandeville was on the point of being turned back by the chamberlain's officers, but she was permitted to pass into the presence of royalty as she happened to be an American.

Four lady students have won prizes in the University College, of London. The principal prize in applied mathematics and mechanics has been awarded to Miss Ellen M. Watson, who has also won the Meyer de Rothschild scholarship (\$250 a year). She is said to be

young and pretty. Professor Huxley's daughter, Murian, won the first prize in art, Miss Constance D'Arcy won the first in art anatomy, and Miss Orme, a sister-in-law of Professor Masson, the biographer of Milton, gained the Joseph Hume scholarship in jurisprudence.

VEGETINE

—IS MY FAMILY—

MEDICINE; I WISH NO OTHER.

PROVIDENCE, April 7, 1876. Mr. H. R. STEVENS—Dear Sir: When I was about 8 years of age a tumor broke out upon me, which my mother tried to cure by giving me herb teas and all other such remedies as she knew of, but it continued to grow worse, until finally she consulted a physician and he said I had the salt rheum, and directed me for that complaint. He relieved me some, but said I could not be permanently cured as the disease originated in the blood. I remained a great sufferer for several years, until I heard of and consulted a physician, who said I had the scrofulous humor and if I would allow him to doctor me he would cure me. I did so, and he commenced heading up my sores and succeeded in effecting an external cure, but in a short time the disease appeared again in a worse form than ever, as cancerous humor upon my lungs, throat and head. I suffered the most terrible pain, and there seemed to be no remedy, and my friends thought I must soon die, when my attention was called, while reading a newspaper, to a VEGETINE testimonial of Mrs. Waterhouse, No. 261, Athens Street, South Boston, and I, formerly residing in South Boston and being personally acquainted with her, and knowing her former feeble health, I concluded I would try the Vegetine. After I had taken a few bottles it seemed to force the sores out of my system. I had running sores on my ears which for a time were very painful, but I continued to take the Vegetine, until I had taken about 25 bottles, my health improving all the time from the commencement of the first bottle, and the sores to heal. I continued to take the Vegetine in 1872, and continued its constant use for six months. At the present time my health is better than it ever has been since I was a child. The Vegetine is what I need now, and I most cordially recommend it to all sufferers, especially my friends. I had been a sufferer for over 20 years, and until I used the Vegetine, I found no remedy; now I use it as my family medicine, and wish no other.

MRS. B. C. COOPER, No. 1, Joy Street, Providence, R. I.

Vegetine.

The range of disorders which yield to the influence of this medicine, and the number of defunct diseases which it never fails to cure, are greater than any other single medicine that has been hitherto been even recommended for by any other than the proprietors of some quack nostrum. These diseases are Scrophula and all eruptive diseases and Tumors, Rheumatism, Gout, Neuralgia and Spinal Complaints and all inflammatory systems, Ulcers, all Syphilitic diseases, Kidney and Bladder diseases, Dropsy, the whole train of cutaneous disorders which so generally afflict American women, and which carry annually thousands of them to premature graves; Dyspepsia, that universal enemy of American manhood, Heartburn, Piles, Constipation, Nervousness, Inability to sleep, and Impure blood. This is a formidable list of human ailments for any single medicine to successfully attack, and it is not probable that any one article before the public has the power to cure the quarter of them except Vegetine. It has the effect at the root of the tree of disease by first eliminating every impurity from the blood, promoting the secretions, opening the pores—the great escape valves of the system—invigorating the liver to its full and natural action, cleansing the stomach and strengthening digestion. This much accomplished, the speed and the permanent cure of not only the diseases we have enumerated, but likewise the whole train of chronic and constitutional disorders, is certain to follow. This is precisely what Vegetine does, and it does it so quickly, and so easily, that it is an accomplished fact almost before the patient is aware of it himself.

BEST REMEDY IN THE LAND.

LITTLE FALLS, N. Y., Sept. 23d, 1876. Mr. H. R. STEVENS: Dear Sir—I desire to state to you that I was afflicted with a bad skin out of blotches and pimples on my face and neck for several years. I have tried many remedies, but none cured the humor on my face and neck. After using two or three bottles of your Vegetine the humor was entirely cured. I do certainly believe it is the best medicine for a purification of the blood that there is in the land, and should highly recommend it to the afflicted public.

Truly yours, P. PERRINE, Architect, and builder at Little Falls, N. Y., having lived there and in the vicinity for the last thirty-three years.

Vegetine,

McMASTER & BRICE.

A GREAT WANT SUPPLIED.

SHOULD be preferred as a corrective and alternative to every other medicine in use. Firstly, it allays fever; secondly, it cleanses the bowels without violence or pain; thirdly, it tones the stomach, fourthly, it regulates the flow of bile; fifthly, it promotes healthy perspiration; sixthly, it relieves the system from unwholesome humors; seventhly, it tranquilizes the nerves; eighthly, it acts upon the blood as a depurative; and lastly, it forms one of the most certain LIVER REGULATORS known.

It will remove wind from the bowels, and hence a few drops given to a babe is better than a dozen cordials to relieve and make it sleep. Containing no Anodyne. It will cure Constipation and keep the bowels regular. It will also cure the worst case of Summer Complaint and Dysentery.

It will cure Sour Stomach, Stimulate the Liver to healthy action, relieve Heartburn, and act as a general regulator of the system.
