machine made, and have a national reputation for utility and durability."—The Evelotyper, Chicago.

The Asson Hardy Paper Cutter is by far the best machine which can be obtained for a less price than one hundred dollars. It is of tr a stringth. These machines have always taken the highest stand. It is the only machine to which is applied the Patent Movable Cutting Board. This device has a reputation of itself: by it, the cutting board can be instantly and accurately wover, so that a perfect cut is insured. This is a very important point in the mechine, and one that is possessed by no other. It greatly reduces the labor of preparation in working the paper backward and forward. We cannot too strongly recommend the adventages of this patent movable board. It is worth the price of this machine, and purchasers should fully understand how highly it is to be valued."—Geo. P. #### LIBERIA ON THE BRAIN.

A GLOWING DESCRIPTION OF THE COLORED PROMISED LAND,

How the Colored People at Ridgeway are Stirred up--A Land Flowing With Milk and Honey and Liquor--A Col-ored Poet Laments the Situation.

CORRESPONDENCE NEWS AND HERALD. RIDGEWAY, August 6. For several weeks, the colored population in "these burgs" have had marked symptoms of "Liberia on the brain." This disease fully developed itself on last Saturday, in a public meeting at this place. Prior to the meeting, all kinds of "say ings" floated through the air as thick as "leaves in the valley of Vallambrosa," some sensible, some ridiculous, but the followers of Munchausen certainly held a promiment and conspicuous place. To ment and conspicuous place. To this morning. It is reported that illustrate the productiveness of the from ten to twelve employees are promised land, it was asserted that a ten-acre farmer had missed a large their dresses on fire, and then fell sow for several months, and after back into the flames. The desire to go is strong on the part of many, but doubts and fears are in the way. Some credit the rumor that it is all a sham on the part of the white man, to got them on the ship, then sail for Cuba, and sell them into slavery. Many fear that they will die on the sea, and the fishes will swallow them up whole. Others say that mermaids will accompa-

Many who are fascinated with the excitement, will give in their names, but will be found here next year, hoeing and ploughing corn and cotton. The excitement has called up the poetical muse among them. The following effusion was improvised under the Liberia excitement - one who experiences the hard times, and has fought Gen. Green valiantly, unaided, (he could not get hands to hoe for him) when in a piece of cotton very grassy; his lien almost exhausted, corn good, but cotton grassy, his horse and his cattle mortgaged. He had worked hard with the prospect of the price of cotton being low. The bright blessings of Liberia are ringing in his ears. The attachment to his horse and cattle isstrong in his breast. The fear of Cuba is before his eyes. He has heard that Hon. Beverly Nash carried a cargo of niggers to Cuba just after the war, and sold them into slavery. He becomes perplexed, and lets his pent up feelings off in the following, which he sings as he gees and haws his horse, and whip in hand, urges on his faithful old steed:
