R. MEANS DAVIS, Editor,
JNO. S. REYNOLDS, Associate Editor.

THE LEGISLATURE at its next session should divide the State into proper congressional districts. The present apportionment violates all the rules of geography and arithmetic. Another piece of legislation should be the submission of a constitutional amendment, providing, that, where vacancies occur in case of judges, clerks of court and sheriffs and other officers, successors shall be elected for a full term. In this way alone, can all elections be held on regular days. Under the present system, elections will ere long be occurring at odd times over the whole State.

THE LEGISLATIVE elections in Charleston and Columbia passed off quietly. The Democrats had no opposition. Hon. J. B. Campbell is now Senator from Charleston, and Capt. J. H. Kinsler and Col. J. C. Haskell, Senator and Representative respectively from Richland. The Senate now stands Democrats, twenty, Republicans, nine, (including Cochran) vacancies, four. (Beaufort, Lancaster, Newberry and Sumter.) By the time the resignations are all handed in, the Senate will contain only four or five Republicans at most.

The Charleston Democracy.

The Charleston municipal nominating convention met on the 20th instant, and put an admirable ticket in the field. Col. R. B. Rhett was elected permanent chairman. Great unanimity and harmony characterized its proceedings. Indications are that the Democrats will sweep Charleston without opposition.

Major W. W. Sale, the nominee for mayor, is a native of Edgefield, being born in 1819 near Ninety-Six, but moving at an early age to Hamburg. He was teller in the Bank of Hamburg, then of the State Bank in Charleston, and more recently, of the First National Bank, a position he still holds. He has long been a leader in his Ward; and during the last campaign he organized the battalion known as the "Butler Guards." The mayoralty of Charleston will be a befitting reward for his life-long integrity.

The most prominent candidates for aldermen are Mr. J. Adger Smythe, of Smythe & Adger; Mr. R. G. Chisolm, of Chisolm's Mills; Capt. R. S. Cathcart, of G. W. Williams & Co.; Mr. Francis J. Pelzer, of Pelzer, Rodgers & Co., and one of the wealthiest men of the city; Mr. B. Bollmann, a heavy wholesale dealer; and Mr. Bennett Bissell, the most extensive rice planter in the State. The remainder of the ticket is composed of prominent and rising members of the professions and trades. One colored man is on the ticket. The young men are largely represented on the ticket. Charleston has every reason to congratulate the convention on the choice it has made. It will be a great day when the city ceases to be cursed with Radical leaders and their insolent myrmidons.

South Carolina's Senator.

The Democrats in the United States Senate are growing restive under the deliberate scheme of the Radical majority to debar Louisiana and South Carolina of representation. The credentials of the contestants have been in the hands of the election committee since last March. At the beginning of the present session, Senator Thurman moved to discharge the committee from any further consideration of the matter, the result of which would have been to bring the issue squarely before the Senate at once. Upon the promise of the committee, however, to consider the question immediately, the motion was withdrawn. That has been over a

month ago, and yet the committee has dragged slowly along with Spoford's case, leaving Butler and Eustis entirely neglected. A caucus of Democratic Senators resolved to juggle the committee up, and on Tuesday, Senator Thurman again introduced his motion to discharge the committee from the consideration of the South Carolina contest. This produced a sensation. Radical dry-bones rattled considerably. The fast fading majority maintained that the motion was premature, and wanting in respect to the committee. Wadleigh and Mitchell (Radicals) of the committee, protested that they and their colleagues were doing their best to hurry matters up. Mr. Saulsbury, however, in behalf of the Democratic minority of the committee, convicted these gentlemen of telling a what-is-it—by showing that the committee had had an abundance of time to consider all three cases, and saying that he himself had endeavored to call the matter up, but had been voted down. Under objection, the motion went over for a day. But it is safe to assume that the question is now before the Senate, and that the Democrats will force the fighting. The case from this State is plain sailing. Corbin has not the least foundation for his impudent assumptions. The Mackey mob had not even a quorum of canvassing board members. The only question is whether Senator Butler was elected constitutionally. If not, let the Senate say so, and he can be sent back with bomb-proof credentials in a week from the meeting of our Legislature. It is high time that South Carolina should be represented in the Senate. In denying her this right the Radicals are playing the rascal; and the Democratic Senators should not be backward in dingling this unpalatable truth into the ears of the majority, day after day, until the wrong is righted.

HOUSE PLANTS.—James Vick says: "Most of our plants are injured by too much heat. For a general collection of house plants, it is not best to allow the thermometer to be above seventy, and if they could be kept in a room where the thermometer would usually not range much above sixty-five it would be the better. In the night time fifty is enough. Give a little fresh air every fine day, and all the sunlight attainable. An effort should be made to give moisture to the atmosphere, for our own good as well as the health of the plants. This can be done in various ways by evaporating water; but when the plants are in a separate apartment, like a little green-house, it can be done more conveniently and effectually, although this separate apartment be only a bay window, with glass doors separating it from the living room. In this place water can be used freely by syringing, etc., and a moist atmosphere preserved. The temperature, with this arrangement, can be kept lower than would be comfortable in the living room, and the plants are saved from dust and many evils which we manage to endure and live, but which generally prove too much for the plants."

THE SNOW PRAYER.—A little girl went out to play one day in the fresh, new snow, and, when she came in, she said:

"Mamma, I couldn't help praying when I was out at play."

"What did you pray for, my dear," asked her mother.

"I prayed the Snow Prayer, mamma, that I heard in the Sunday school."

"The Snow Prayer! what do you mean, little one?"

"I mean that beautiful Snow Prayer, in the Bible, mamma; you know it, 'Wash me, and I shall be whiter than snow.'"
