

Little Men and Women

We call them little men and little women, but they are neither. They have ideas and ways all their own. Fortunately they soon become fond of cod-liver oil, when it is given to them in the form of **SCOTT'S EMULSION**. This is the most valuable remedy in existence for all the wasting diseases of early life. The poorly nourished, scrofulous child; the thin, weak, fretting child; the young child who does not grow; all take Scott's Emulsion without force or bribe. It seems as if they knew that this meant nourishment and growth for bones, muscles and nerves.

Book telling more about it, free.

It won't pay to try a substitute for Scott's Emulsion with the children. They will relish the real thing.

For sale at 50c. and \$1.00, by all druggists.

SCOTT & BOWNE, New York.

BIBLICAL RIDDLE.

Adam God made out of dust,
But thought it best to make me first;
So I was made before the man,
To answer God's most holy plan.
My body God did make complete,
But without legs, arms or feet;
My ways and acts he did control,
But to my body gave no soul.
A living being I became,
And Adam gave to me my name;
I from his presence then withdrew,
And more of Adam never knew.
I did my Maker's love obey,
Nor from it ever went astray;
Thousands of miles I go in a year,
But seldom on earth ever appear.
For purpose wise God did see,
He put a living soul in me;
A soul from me my God did claim,
And took from me that soul again;
For when from me that soul had fled,
I was the same as when first made.
And without hands, feet or soul,
I labor hard by day and night;
To fallen man I give great light,
Thousands of people, young and old,
Will by my death great light behold.
No rights nor wrongs can I conceive,
The Scriptures I can't believe,
Although my name therein is found;
They are to me an empty sound.
No fear of death doth trouble me,
But happiness I never shall see;
To heaven I shall never go,
Or to the grave or hell below.
Now as a hero these lines you slowly read,
Go search your Bible with all speed;
For that my name is recorded there,
I honestly to you do declare.

The Flood.

The water is said to have risen higher at some points on the Mississippi this year than it has since 1862. The flood of 1892, so it was estimated, destroyed \$20,000,000 worth of property. The present flood is even more disastrous, probably \$30,000,000 would not be an excessive estimate of the values destroyed by this overflow; and this takes no account of the human lives lost. Ruin is spread far and wide along the course of our great inland waterways. The levees are entirely insufficient to restrain the angry waters. An important question is whether any effective means can be used to prevent these colossal disasters, which are repeated once or twice every decade. Evidently the national government alone has resources sufficient to accomplish so huge an undertaking. It would take many millions to do it, if it be practicable at all. But it would seem that a loss every decade of twenty-five or fifty millions of dollars worth of property would justify some expensive efforts by our government in that direction. The hearts of all people go out in sympathy to the suffering thousands who live on the banks of the great river, or, we may say, the shores of our great inland sea.

BRYAN ON JEFFERSON.

Eloquent Democratic Speech Made in Washington Last Tuesday.

The 154 anniversary of the birth of Thomas Jefferson was celebrated in Washington last Tuesday, and the principal speaker of the occasion was Hon. Wm. J. Bryan. He spoke in part as follows:

"The Democratic party is strong just in proportion as it proves true to the teachings of its great founder. It is the mission of the Democratic party to crystallize into legislation the principles which he taught. The party applies Democratic principles to the issues which arise from time to time.

"For many years the tariff question was the paramount issue, and the party took a more advanced position each year until 1892, when it declared itself in favor of a policy which meant substantially a tariff for revenue only. But the president elected at that time, instead of proceeding to carry that portion of the platform, forced upon public attention an issue which had up to that time been considered secondary.

"Mr. Cleveland, more than any other one person in this nation, is responsible for the prominent position which the money question now occupies. It was his determination to complete the demonetization of silver and make the gold standard perpetual that aroused the masses of the United States to active resistance.

"The struggle for supremacy between the gold standard and bimetalism was recognized as a contest between the money power and the common people. The explicit declaration in favor of free and unlimited coinage at 16 to 1, without waiting for the aid or consent of any other nation, was made necessary by the attempt of certain public men to evade preceding platforms.

"The party struggle which culminated in the Chicago convention of necessity alienated a portion of the party. The party was placed in the position where it was compelled to endorse the financial policy of the president or adhere to the doctrines and traditions of the party.

"The position taken by the Democratic party in 1896 will not be surrendered. If you doubt the permanency of the Chicago platform as a party creed, go among the rank and file of the party and measure the zeal and enthusiasm which that platform has aroused, and you will realize the impossibility of taking a backward step.

"True, the present administration is attempting to turn public attention to the tariff question, but if our reasoning is well founded an increase of taxes cannot restore prosperity to the producers of wealth.

"If the Dingley bill brings general and permanent prosperity the Democratic party will not be in a position to win a contest by opposing it. If, on the other hand, the Dingley bill proves a disappointment to those who advocate it, our position of 1896 will be strengthened, and public attention will be riveted upon the fact that the cause of financial depression is to be found in our monetary system.

"There is much in recent events to encourage the followers of Thomas Jefferson. The spring elections indicate a growing sentiment along the lines of the Chicago platform. In fact the elections which have taken place show so great a gain that the Republican party may now be considered a minority party.

"It has but one hope of escape from the wrath to come, and that is to secure bimetalism by international agreement before the people of the nation have another opportunity to speak at the polls.

"While we who believe in independent bimetalism generally regard an international agreement as neither necessary nor possible, we may well hope for success to any who may make the attempt to secure foreign assistance.

"If our opponents succeed in opening the mints of other nations

as well as their own mints, we shall rejoice, because the condition of the people will be improved and they will be able to proceed with other remedial legislation.

"If, however, the Republican party, after pledging itself to secure international bimetalism, finds it impossible to fulfil that pledge, its expressed preference for a double standard will rise up to condemn it if it attempts to continue longer the evils of the gold standard."

Corn, Peas and Clover.

The great need of the majority of the unproductive southern lands is decayed vegetable matter or humus, and therefore, of nitrogen. Nitrogen being an expensive plant food, a Virginia farmer, writing in Farm, Field and Fireside, advises instead, the growth of cowpeas and clover. He says:

Crimson clover should be sown in August or September and plowed under the following spring while the soil is cool. A green crop must never be turned under in hot weather. Cowpeas may be sown in May, June or July, and should be allowed to ripen and die down upon the land the first year. It is seldom necessary to turn down the renovating crop after the first year. It is too valuable as feed for stock, and the roots and stubble will furnish sufficient organic matter to supply the needs of the soil after it is once partly filled with humus. The clover should be pastured or cut for hay, and the peas may be allowed to ripen and fed to stock upon the land, or when cut while green and cured for hay they make a valuable and nutritious feed for stock.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the ENTERPRISE and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

One Fare for the Round Trip.

Don't Tobacco Spit and Smoke Your Life Away.
To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

Woman's Diseases

Are as peculiar as unavoidable, and cannot be discussed or treated as we do those to which the entire human family are subject. Menstruation sustains such important relations to her health, that when Suppressed, Irregular or Painful, she soon becomes languid, nervous and irritable, the bloom leaves her cheek and very grave complications arise unless Regularity and Vigor are restored to these organs.

Bradfield's Female Regulator

Is a receipt of one of the most noted physicians of the South, where troubles of this sort prevail more extensively than in any other section, and has never failed to correct disordered Menstruation. It restores health and strength to the suffering woman.

"We have for the past thirty years handled Bradfield's Female Regulator, both at wholesale and retail, and in no instance has it failed to give satisfaction. We sell more of it than all other similar remedies combined."

HONEST DON'T

Words From a Prominent Newspaper Editor.

BE MISLED INTO BUYING A CHEAP WHEEL WHEN YOU CAN SECURE A VIKING FOR A LITTLE MORE MONEY.

UNION MFG. CO., Toledo, O.

Gentlemen:—For a long time I have had in contemplation the writing of a letter to you to provide you with my unlimited endorsement of your 1896 "VIKING." After riding mine for three months, over all sorts of roads and all sorts of gaits, I am satisfied that it is all you claim for it and even more. Never once for an instant has the "VIKING" played me false when other high grade wheels have come to grief with lesser provocation. My weight (over 200) and the roads that obtain in this section of the country at this season of the year, make a test of the strength and merits of the wheel a thorough one.

Thanking you and your enterprising representatives here for the kind consideration that enabled me to secure a "VIKING" and affords me the pleasure of riding one, I am ever yours to command,

G. G. GRIMES.

SOMETHING Interest to you!

—O:—

IN selecting a Sewing Machine you should be guided by your judgment and personal knowledge of the machine you purchase. You want the Best, Easiest to Manage, Simplest, Most Durable, and the one that will do the widest range of work. With these points in view, before you purchase, examine the Light Running "NEW HOME."

THE "NEW HOME" contains fewer working parts than any other sewing machine, and cannot get out of order (with fair usage). Its great simplicity renders personal instructions unnecessary, and the inexperienced cannot fail to use it with pleasure and profit.

ON account of the simple mechanical devices employed in its construction, the "NEW HOME" runs lighter and with greater speed than any other machine. The "NEW HOME" quickly gains the confidence of all who use it, and for family sewing it is without a peer.
