

"Blight"

costs cotton planters more than five million dollars annually. This is an enormous waste, and can be prevented. Practical experiments at Alabama Experiment Station show conclusively that the use of

"Kainit"

will prevent that dreaded plant disease.

All about Potash—the results of its use by experiment on the best farms in the United States and a little book which we publish and will mail free to any farmer in America who will write for it.

GERMAN KALI WORKS,
93 Nassau St., New York.

ANNUAL REPORT OF THE COUNTY TREASURER.

OFFICE COUNTY TREASURER,
LANCASTER, S. C.
