THE TILLMAN BILL.

AS TO INTERSTATE COMMERCE REPORTED FAVORABLY.

The Avowed Purpose is to Stop Importations of Liquor for Personal Use.

Special to The State
 Washington, June 4.—The Tillman dispensary bill introduced March 16 was reported favorably today by the interstate commerce committee. It provides: "That all fermented, distilled or other intoxicating liquors or liquids transported into any State or territory or remaining therein for use, consumption, sale or storage therein shall, upon arrival within the limits of said State or territory, be subject to the operation and effect of the laws of such State or territory to the same extent and in the same manner as though such liquors or liquids had been produced in such State or territory, and shall not be exempt therefrom by reason of being introduced therein in original package for private use or otherwise, and such States shall have absolute control of such liquors or liquids within their borders, by whomsoever produced and for whatever use imported; provided, that nothing herein contained shall be construed as affecting the internal revenue laws of the United States or liquors in transit."
 It is simply an extension of the "original package" bill of 1890 known as "the Wilson bill," and little or no opposition to its early passage is apprehended.

Heavy Duties on Linens.
 The following are some of the comments of a man well acquainted with linens and the linen industry upon the senate doctored Dingley bill:
 The proposed duties on linen goods under the amended Dingley bill are heavier than ever, although it has been claimed that the senate had reduced rates. These goods paid for many years 85 per cent and yielded a steady revenue to the government. The rates now proposed vary from 50 to 100 per cent, and the burden falls heaviest on low and medium goods, which are chiefly used in the homes of the poorer people.
 A cheap tablecloth now selling at retail at 25 cents per yard will have to be sold at 27½ cents to 40 cents if the quality be kept up.
 Medium linen for children's summer blouses will be assessed 50½ per cent, and the retail price will have to go up accordingly.
 Linen forms the raw material for many American industries, as linings for clothing and other purposes where strength and durability are required. Such goods will be advanced 20 to 30 per cent.
 It is claimed that this advance is necessary for revenue, but the effect will be that the people will in many cases substitute something cheaper, and thus be deprived of this useful fabric, and the revenue will be correspondingly diminished. It is said that linen goods can be made here, but this has been tried again and again, and except in the case of a few low grades has been a failure, owing to the climate and other difficulties, but even if they could be made here the rates are unnecessarily oppressive. The entire cost of weaving linen goods in Europe is about 7½ to 10 per cent the selling price of the article here, and in America the cost should not be at the very outside more than double this percentage, so that, even if Republican theories be true, a protection of 35 per cent should be ample to allow for higher wages and extra profits for our manufacturers.
 It is possible speculators may start mills on the strength of these excessive rates, sell the stock, and then step out, leaving the unfortunate laborer and manufacturer to face the difficulties of the situation as best they can. The laborer probably, having been brought here from Europe (for labor is on the free list), with unreasonable expectations, will be left to join the army of disappointment and discontent. Why should these exorbitantly high rates be assessed on an article more or less in use in every household in the land, and the cost of living so much increased in these days of keen competition and small profits? Why should the plain people be taxed to put more money in the pockets of the rich? If the wealthy manufacturers want to make experiments, let them do so at their own cost, not tax the poor for that purpose.

Pettigrew's Amendment.
 Senator Pettigrew has introduced an amendment to the Dingley bill which provides for the admission free of duty of articles controlled by trusts. Should it become law and be carried out honestly, how much revenue would the bill yield? There are trusts in sugar, coal, window and plate glass, lumber, pottery, wall paper, rubber, cutlery and in nearly all kinds of hardware. There is no trust in tea, but that is probably because there has been no duty to encourage it. There are also trusts in the woolen and cotton industries. Revenue will be scarce if such a law should be enforced. But will these elected by trust funds destroy the system which fosters trusts? They may pass some such law, as they did the Sherman antitrust law in 1890, but it will be only another dummy.

Hail Storm Visits Lancaster.
 Soon after dark last Thursday afternoon, Lancaster was visited by a terrific wind and rain storm, accompanied in the beginning by considerable hail. The stones were as large as partridge eggs and made a terrific noise as they fell upon the roofs, leading many to suppose that the crops and gardens were being completely demolished. But it was soon over, and a brief inspection showed that the hail stones had fallen very scattering, and that the damage was not serious. It was evidently confined to a small area and was worse in town than anywhere else.

To Be Wedded.
 Cards are out announcing the marriage of Mr. Luther C. Lazenby, the popular and efficient stenographer and book-keeper of Heath, Springs & Co., for the past five years, and Miss Mary Miller, the pretty and accomplished daughter of Senator and Mrs. B. F. Miller. The marriage will be a quite home affair, with only a few of the intimate friends and relatives present. The interesting ceremony will be performed by Dr. S. A. Weber, and immediately thereafter the happy couple will be driven to the O. R. & C. depot when they will take the north-bound train for Bedford City, Va., the home of the groom, to spend a week of their honeymoon. They will visit other points in the Old Dominion and return to Lancaster in about ten days, where they will make their future home.

Drs. Massey & Stevens.
 Drs. J. E. Massey and W. Gilmore Stevens have formed a partnership for the practice of medicine. Dr. Stevens, who is a son of Capt. J. H. W. Stevens, of Chester, is a very promising young man. He was for a long time salesman in Fell's store. Later he took a course at the Presbyterian High School, afterwards at Davidson College and graduated this year from the Charleston Medical College. He passed the examination before the State board very acceptably. Dr. Massey is a family physician tried and true, faithful and prompt and ranking high in his profession.—Rock Hill Herald.
