VAN WYCK ITEMS.

This being the last week in July the farmers are busy finishing up their crops. Their crops are good and their faces are beaming with smiles of contentment over the fine prospects.

Neighbor Smith says he will make more corn this year than he has ever made in any two former years on the same land, and says that he will average five bales of cotton off of every seven acres.

Mr. W. R. Tillman says he is looking for 25 bales off of 25 acres in cotton and 800 bushels of corn off of 20 acres in corn.

Mr. M. M. Tillman says he will get a bale of cotton to the acre and 50 bushels of corn.

While we would not mislead the readers of the *ENTERPRISE* in anything like an over estimate of the glowing prospect, would merely add that these gentlemen mentioned all have fine crops.

Politics are being cussed and discussed to really an alarming extent, and our people claim too, not to be politicians. The merits and short comings of the several aspirants for the United States Senate are the most absorbing topic of the hour and we judge they will all get some votes at this box. To be candid, and from a personal stand point, would say that we really have no choice among the candidates, for we do not believe there is what we would call a statesman among them. They are all pulling after the five or six thousand dollars they know is at the head of the successful candidate.

The township Sunday School picnic that is to come off on the 10th of August, promises to eclipse all former occasions of that kind held here for some years. The committee on arrangements are making every effort at their command to entertain a large crowd. Come all, come everybody and bring well filled baskets and we will not only promise, but will ensure you an enjoyable day. There will be plenty of speakers, but not political speakers.

The Pastor of Van Wyck circuit, Rev. Henry Stokes, is conducting a protracted meeting at Van Wyck church this week. The meeting commenced last Sunday.

There is a fairly good watermelon crop here this year. Among those who claim very fine patches are W. D. Rodgers, J. M. Smith and W. R. Tillman.

There is some disease among the hogs in this section, and many have died from it. Seems to effect the kidneys.

Your correspondent at this place signing himself "Dolittle" is rather poking fun at the Ledger's correspondent at this place. Now, I come to the rescue of "Optimus" and most emphatically deny the charge for "Optimus" has what we would call a fair to good corn crop as well as cotton. You must get up something better than that, brother.

As this is the time to prepare the land for turnips would remind our farmers to look well along that line and let us all have fine patches.

The most vital question that confronts our people at the present time is the question of a good school at Van Wyck. They have the material, and all that is needed now is a little energy and concentration of action on the part of our citizens to build up a school second to none in the county. Let us all get together gentlemen, put our shoulders to the wheel and push until we get a nine months school in every year.

Our young friend Mr. W. R. T., carried off the medal at the last

meeting of the Lazy Club. The Club will meet again on the afternoon of the first Saturday in August.

Mrs. E. W. Nisbet and children are on a visit to Mrs. Robt. Hicklin. **OLD HICKORY.**

THE SENTENCE COMMUTED

Ernest B. Hasseltine Will be Released in October.

Ernest B. Hasseltine, the young Lancaster bank clerk, who overdraw his account several thousand dollars and fled when he lost the money in cotton speculation and could not make it good, being afterwards prosecuted, convicted and sentenced to the State penitentiary for 21 months, has had his sentence commuted.

Governor Ellerbe yesterday reduced the term of imprisonment to 12 months. This means that the young man will be released in October next. Strong petitions were presented to the governor.—State, 22nd inst.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

White Man Shot by a Negro.

Pete Bines, colored, shot Mr. John Hinson, a young man about 21 years of age, in a difficulty near Heath Springs one day last week. The negro gave Mr. Hinson some impudence. He resented it when the negro drew his pistol and fired at Hinson twice one ball passing through his arm near the elbow and the other striking just below the ankle joint, none of the wounds being serious.

A warrant was promptly issued for Bines by Magistrate Hilliard.
