

The farmer who raised his own wheat this year hit it right, for a fact.

Meat is advancing rapidly. If you are not raising some hogs, it's a good time to start. No more 5 cent meat in this county for awhile, mark it.

How can Irby charge McLaurin with being a Republican because he voted for a small duty on cotton and white pine lumber, when Mr. Irby himself voted for 150 per cent duty on collars and cuffs?

If you have any objection to McLaurin for the U. S. Senate, your good sense must lead you to see insurmountable objections to Evans or Irby. Then of three evils, choose the least.

Don't forget that the primary election comes off next Tuesday—the 31st. You should go to the polls and vote for the man you think best fitted for Senator Tillman's colleague in the U. S. Senate.

McLaurin's condition is daily improving, but his physicians advise against his attempting to speak, but all the same he will get the votes next Tuesday, because the voters believe he is the most suitable man for the U. S. Senate.

Those who do not like McLaurin's tariff views have a choice between his views which are also Tillman's views, and Evans' "single tax" views, which would place all taxes upon the land, and let stocks, bonds and all other species of property owned by the wealthy class, go without paying a cent of taxes. This is the kind of stuff Evans advocates.

McLaurin has satisfactorily answered every attack Evans, Irby & Co., have made upon him during this campaign, and he has shown up the falsity of the positions they were trying to pose in before the people in such a way that he was actually benefitted by the attacks. The attacks often acted as boomerangs.

Irby's vote in the Senate for 150 per cent duty on collars and cuffs, and his vote the very same day against 30 per cent duty on wool look strange and inconsistent, and when viewed in the light of the facts pointed out by the Washington correspondent of the Record, Mr. Irby's course is not free from suspicion.

"Novus Homo" says the people of his section do not like McLaurin's tariff views. Then they do not like Senator Tillman's tariff views, for time and time again this summer Senator Tillman has said that he and McLaurin were together in their tariff views, except that he (Tillman) had gone further than McLaurin; that he had advocated imposing a tax upon all immigrants to this country and had voted for the measure, but that McLaurin would not vote for it, because he regarded it undemocratic.

The Spanish courts have furnished the courts of this country with an example of promptness in dealing with criminals. Last week the Anarchist assassinator of Spain's venerable Premier was garroted by authority of law—within less than a month of the commission of the dastardly deed. When the Anarchists exploded their bombs in Chicago and killed so many people, it was a year or two before the fiends were executed. If it had been in South Carolina, when would they have received their retribution?

Nervous

People often wonder why their nerves are so weak; why they get tired so easily; why they start at every slight but sudden sound; why they do not sleep naturally; why they have frequent headaches, indigestion and

Palpitation of the Heart.

The explanation is simple. It is found in that impure blood which is continually feeding the nerves upon refuse instead of the elements of strength and vigor. In such condition opiate and nerve compounds simply deaden and do not cure. Hood's Sarsaparilla feeds the nerves pure, rich, red blood; gives natural sleep, perfect digestion, self-control, vigorous health, and is the true remedy for all nervous troubles.

Hood's Sarsaparilla

Is the One True Blood Purifier. \$1; six for \$5. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

Imagine that South Carolina and a few other states had made a rousing big cotton crop, but that the remainder of the cotton belt has made a comparative failure, and that cotton has, in consequence of these conditions, gone up to 12 or 15 cents, and you will have a case parallel to the wheat situation, and will be able to faintly realize how happy those wheat growers of the West are.

Cash wheat reached \$1 a bushel in New York and Minneapolis last Friday. This is the first time it has sold for that price since 1890. The prospects are that it will go still higher. The crop of this country is very large, both Winter and Spring wheat, but the crops in Argentine, India and Russia as short, and it is the big export demanded that is taking the price up so rapidly.

McLaurin has shown by his record in the House and the Senate that he is a man of superior ability and that he is capable of doing us a great deal of good at Washington. Then what sense is there in dropping a man of that kind—a man of known valuable parts—for one who has not been tried, or for one who has been tried and found woefully wanting in all that goes to make up a first class representative in the U. S. Senate.

Politicians had better take warning from the verdict of the people against the advice of Senator Tillman last year when he undertook to advise them to vote for Evans instead of Earle. They ignored his gratuitous advice and voted for whom they pleased. Senator Tillman learned a lesson from that experience, and has studiously avoided giving any advice as to who should be elected in the coming primary.

"Novus Homo" says he "doubts very much that [He means "if"] McLaurin is as popular in this county as some of the newspaper men would have him to be.

If it is true, as he says, that "the people of this section [the northwestern section of Buford township, which "Novus Homo" says "is indeed a corner"] are for Evans," he is correct in his surmise. The ENTERPRISE wants to see McLaurin beat Evans, not only in this county (which he will easily do), but in the entire State, which we believe he will do on the first ballot.

Wheat going up and cotton going down is suggestive of our farmers raising their own wheat.

J. Peirpont Morgan of U. S. bond fame during Cleveland's last administration, is reported by the New York Journal to have made \$700,000 on wheat during the recent advance in that product. Philip D. Armour, Chicago's multi-millionaire packer, is also reported to have made a barrel, as has also Ex-Gov. Rosevelt P. Flower and John Cudahy.

The wheat situation means high priced biscuits for the South, but it means plenty of money for the wheat growers of the West, who have been perishing with plenty to eat during this period of low prices of their only product for six years. It is a happy day for them, and most of the money they will get for their crop will come from across the water.

"Novus Homo" says, "Dr. Strait will lose no votes here for criticising McLaurin's tariff views." But Dr. Strait never criticised McLaurin's tariff views, at least he said so at the Tirzah encampment, after being charged with making a weak criticism of his and Tillman's tariff views. Besides that, we did not know that Dr. Strait was in this race.

While not believing in Mormonism, we think the treatment the Mormon Elders are receiving in Fairfield is disgraceful, and will do more to establish Mormonism in the State than any thing else likely to be done. "The blood of the martyrs the life of the church" is as true now as in days gone by.

The desire for religious freedom and the consequent hatred for religious oppression brought to this country some of the first settlers. Those people sought America that they might worship God according to the dictates of their own conscience, yet here in our own State, in an adjoining county, are people persecuting others on account of their religion.

That was a mean insinuation that appeared in the Columbia Register a week ago—that McLaurin's collapse at Yorkville was feigned. It is about on a parity with the alleged statement of the man who said the day after the senatorial speaking here; "I told you McLaurin would not come to Lancaster." Such mean insinuations should be beneath any self-respecting man.

Strange it is that Evans should have gotten so bristling mad when the man in the audience asked him while speaking here, "what about rebates?" Is it the truth that hurts Evans so? The question was entirely pertinent, and especially so since Mr. J. T. Duncan, the man who last year made the charges of rebates against Evans appeared at Newberry only a few days before the Lancaster meeting and said that he was ready with the testimony to prove the truth of every charge he made last year—that he was tired of hearing Evans pose as a martyr at his hands. Maybe Evans is trying the bulldoze on those who allude to the "rebates", but he did not try it on Duncan at Newberry, though at the Marion meeting Saturday he treated another voter to a verbal bulldozing for making a reference to "rebates". He seems to be awful "touchous" on this question.
