

# Thrown From a Horse

It matters not from what cause the blood becomes poisoned, it is impossible for the doctors to effect a cure. This class of disease has puzzled the science of medicine for ages, and the same treatment that was employed centuries ago is now prescribed. Potash and mercury are the component parts of every doctor's prescription for diseases of the blood.

Many of the so-called blood purifiers are based on potash and mercury. In fact, S. S. S. (Swift's Specific) is the only blood remedy that is guaranteed purely vegetable, and is the only one that contains no harmful ingredients. S. S. S. is the only blood remedy that cures real blood diseases, obstinate cases that physicians and other remedies have failed to cure. It never fails to cure a blood disease—no matter how deep-seated the case.

MISS BERTHA WHITWOOD.

Mr. H. Kuhn, of Marion, Kansas, writes:

"About three years ago my granddaughter Bertha Whitwood, was thrown from a horse, receiving a wound of the scalp. Under the treatment of physicians the wound seemed obstinate, and for several months remained about the same, until it finally became very angry looking, and broke out into a running sore. This soon spread to other parts of the scalp, and ran down the side of the neck, increasing in severity, and fearfully disfiguring her.

"After being constantly under a physician for a year, and her condition a great deal worse than at first, we placed her under the care of the faculty of a well-known hospital, but even the treatment she received there failed to arrest the terrible sore.

"Reading of the many cures of blood troubles effected by S. S. S., we decided to try it, and it relieved her promptly. At first this remedy seemed to increase the discharge, forcing out the poison; this soon ceased altogether, and the place began to heal. In a few months she was entirely cured, and scarcely a mark now remains where the disease held full sway."

S. S. S. is the right remedy for all blood diseases, and is the only cure for Contagious Blood Poison, Scrofula, Eczema, Cancer, Rheumatism, Catarrh, etc., no matter how deep-seated the case. S. S. S. is guaranteed

# STIEFF PIANOS

## NO DISPUTING

the fact that there is no music more pleasing than that of the piano, and of all pianos, THE STIEFF takes the lead beyond a doubt. Every thing about a STIEFF piano is supremely satisfactory. The tone, and every note in the scale, from the lowest to the highest, exemplifies the highest advance in the art of piano construction. Even after years of service THE STIEFF retains its original tone in spite of age. Many a one constructed over forty years ago are still in use. Send for illustrated catalogue. Terms to suit.

## NO MORE CONSTABLES.

Gov. Ellerbe Will Remove the Constabulary Oct. 1, and Leave it to the Towns to Enforce the Law and Save \$50,000 a Year Expenses.

"On the 1st of October I shall withdraw all the constables from the towns and cities of the State," was the unexpected announcement of Governor Ellerbe yesterday morning. "A few of the constables will be retained in the country to suppress the blind tigers there but the support and co-operation of the municipal authorities will be asked in the enforcement of the dispensary law in the towns and cities."

"What will you do if they don't enforce the law?" was asked.

"Well, I'm not making threats," was the reply.

Continuing, Governor Ellerbe said: "But few constables will be retained and they will be ordered not to make any arrests or seizures in town. The constabulary cost \$62,036.66 last year. This expense can be saved and the law better enforced with the co-operation of the cities and towns."

"Are you going to put Charleston on the same footing with the other towns and cities?"

"Leave Charleston out of this interview," the Governor answered. "Charleston is all right."

Governor Ellerbe said he was giving this notice a month before the removal in order that the constables could look out for other jobs.

## BRYAN ON PROSPERITY.

His First Utterance After Three Months of Observation.

St. Louis, Sept. 4.—The St. Louis Post-Dispatch tomorrow will print a letter from W. J. Bryan, the first utterance after three months of travel and observation during the return of prosperity. Among other things, he says:

"Wheat has risen because the foreign crop has been exceedingly short. The fact that silver and wheat have parted company will cause no dismay to those who understand that the law of supply and demand regulates the price of both.

"Nothing can better disclose the weakness of the republican position than the joy manifested by the republicans over events for which their administration and their politics are in no wise responsible.

"If the republicans desire to claim credit for the high price of wheat, they must assume the responsibility for the famine in India.

"A great rise in price should be followed in a rise of wages."

Mr. Bryan says that the joy over the increase of money from wheat is evidence that we have too little money; that if the farmers are benefitted by the rise in one of their products, how much better would it be if the rise was universal; that the price of wheat will fall when the foreign demand becomes normal, and that the present spasmodic rise will aid rather than injure the cause of bimetallicism.

## Homely Homilies.

When in doubt, don't talk.

Nearly every woman knows a man who is the slowest mortal on earth.

A man is hopelessly dull when he doesn't know when he is being made fun of.

More people should rejoice that they don't get what they deserve instead of complaining.

## Period of Infection.

According to the rules of the Pennsylvania State Board of Health, the period of infectiousness of diseases is considered to terminate as follows:

Smallpox—Six weeks from the commencement of disease, if every scab has fallen off.

Chickenpox—Three weeks from commencement of disease, if every scab has fallen off.

Scarlet fever—Six weeks from the commencement of the disease, if peeling has ceased and there is no sore nose.

Diphtheria—Six weeks from the commencement of the disease, if sore throat and other signs of the disease have ceased.

Measles—Three weeks from the commencement of the disease, if all rash and cough have eased.

Mumps—Three weeks from the commencement of the disease, if all swelling has subsided.

Typhus—Four weeks from the commencement of the disease, if strength is re-established.

Typhoid—Six weeks from the commencement of the disease, if strength is re-established.

Whooping cough—Six weeks from the commencement of the disease, if all cough has ceased.

## GRAPE WINE.

Dear Aunt Jane:

G. R. Godsey asks how to make grape wine. I will send my recipe. Select ripe grapes, mash them, pack down in a jar, cover with water, let stand three or four days then strain and to three parts juice add one part sugar. Bottle and when done fermenting, cork tightly. This will keep as long as you wish. Will some one please tell me how to make peach jelly?

## ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

## CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the ENTERPRISE and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.
