# The Cruel Knife!

The alarming increase in the number of deaths which occur as the result of a surgical operation is attracting general attention, and a strong sentiment against such methods of treatment is fast developing among the most intelligent classes. It seems that in almost every case for which the doctors' treatment is unsuccessful, the learned physicians decide at once that an operation cians decide at once that an operation

cians decide at once that an operation must be performed, and the keen blade of the surgeon is recklessly resorted to.

Doctors are human, and of course are liable to make mistakes, but their mistakes are too fatal to be indulged in promiscuously, and as so many lives are sacrificed in this manner, it is but natural for the public to believe that half the operations are unnecessary, besides beoperations are unnecessary, besides being a fearful risk to human life, even if successful.

It is a positive fact, however, that all operations are not necessary, and that a majority of them are absolutely undertaken without the slightest chance of success. The doctors have never been able to cure a blood disease, and a surgical operation is their only method of treating deep-seated cases, such as cancer and scrofulous affections. Aside from the great danger, an operation never did and never will cure cancer, as the disease never fails to return. Can-cer is in the blood, and common sense teaches anyone that no disease can be cut from the blood.

on a six-year-old boy was especially cruel, and after undergoing the tortures

ment, but before long began to grow. It gave him a great deal of pain, and continued to spread. He was treated by several good doctors, who said he had cancer, and advised that an operation was necessary.

was necessary.

"After much reluctance, we consented, and they cut down to the jaw bone, which they scraped. The operation was a severe one, but I thought it was the only hope for my boy. Before a great while the cancer returned, and began to grow rapidly. We gave him many remedies without relief, and finally upon the advice of a friend, decided to try S.S.S. (Swift's Specific), and with the second bottle he began to improve. After twenty bottles had been taken, the cancer dis-appeared entirely and he was cured. The cure was a permanent one, for he is now seventeen years old, and has never had a sign of the dreadful disease to re-

remedies, because it is the only one which cures deep-seated obstinate blood diseases such as Cancer, Scrofula, Eczema, Catarrh, Rheumatism, etc. It is the only blood remedy guaranteed

sides and back than in the front. the symptoms even to the black skirt itself may be plain if made astonished, especially at the black of figured goods. The bustle is vomit, as they had never seen formed of a sort of flat pad, which anything like it. He was taken ill is stuffed with hair to make it on Sunday and died on Tuesday; very light. It reaches from hip to no one else took it nor was there hip and in the back is a little any panic. thicker than on the sides. It hooks upon the corset or is tied in front with a ribbon. The skirt is put on over it and is laid in place with careful folds by the for the urine, and as such it is art of the modiste.

#### Sit Erect.

One of the worst habits young people form is that of leaning forward too much while at work or study. It is much less tiresome and more healthy to sit erect. The round shouldered.hollow-chested and almost deformed persons one meets every day could have avoided all the bad results from which they now suffer had they always kept the body erect, the chest full and the shoulders thrown back.

A simple rule is, that if the Here is a case where the pain inflicted head is not thrown forward, but is held erect, the shoulders will produced by the surgeon's knife he rapidly grew worse. Mr. J. N. Murdoch, the father of the boy, residing at 279
Snodgrass street, Dallas, Texas, writes:
"When my son, Will, was six years old, a small sore appeared on his lip, which did not yield to the usual treatment but hefer love bear texager."

#### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the wome, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain or inconvenience manifested in the kidneys, back bladder or urinary passage is of en, by mistake, attributed to female weakness or womb trouome sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamplet, both sent free by mail. Mention the Enterprise and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the gen-uineness of this offer.
