

A Shattered Nervous System.
FINALLY HEART TROUBLE.
Restored to Health by Dr. Miles' Nerve.

M. R. EDWARD HARDY, the jolly manager of Sheppard Co's. great store at Bracoville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

The salvation of the South, and, in fact, of the entire republic, depends upon the improvement of country life. If we in America, with all our superb natural advantages, cannot make our country people prosperous, happy and contented no people ever will. Ominous indeed is the outlook for the future if we fail to maintain a high standard of civilization in our rural communities. The country people are the foundation of our prosperity and peace, and if we permit them to become poor and degraded there will be no hope left for the towns and cities, and the nation will rot in corruption, as have all other nations that neglected or debased their rural population.

Keeping household accounts is an affair, if not of necessity, still of the greatest wisdom. In comparison with the small amount of time and labor which the doing so employs, the satisfaction of knowing at the end of each year how the family funds have gone is ampler compensation. One especial satisfaction gained from the keeping of household accounts is the ability when, or if the necessary arises, to reduce expenditures on the outlay for luxuries and unnecessary. The money spent for food, for medicine or for fuel is capable of far less reduction than that used for amusements, for wages or for clothing, and a system of accounts which will show at once where expenses can be lessened is entitled to respectful consideration.
